While the trout fishing season opened a week ago last Saturday, no big catches have as yet been reported by any of the local sportsmen. Though sheepmen declare they have fed more this winter than in 30 years and the cold weather was more severe than usual, yet the outlook, both as to range and sheep, has never been brighter. The lambing season is now beginning to open in full blast but shearing will not be finished until late as not many sheep in this county will be shorn until the lambing season closes.
