## NEW COMMITTEES HAVE BEEN NAMED

### Senator Thompson Is Assigned to Lieutenant Governor Amendment

C. N. McArthur, Speaker of the House, and Dan J. Malarkey, President of the Senate in the recent Legislature, have announced important committee appointments made under and by virtue of resolutions which were passed at that session.

Probably the most important of these appointments were made in reference to the legislative tax committee, which will serve in much the same capacity as the legislative tax committee of two years ago. That committee took an active part in defeating single tax and also promoted the amendment to repeal the county tax amendment, single tax and also promoted the amendment to repeal the county tax amendment, or single tax amendment of 1910.

This committee for the next two years will consist of Senators Calkins, McColloch, Moser and Neuner and Representatives Laughlin, Berton, Blanchard, Brunk, Murnane and Stanfield.

The resolution under which this committee will act which is explanatory of its duties is in part as follows:

"That a committee of four from the Senate and six from the House be appointed to act in conjunction with the State Tax Commission in the preparation of any measures relating to taxation or exemption, which said committee and State Tax Commission, acting jointly, may deem it proper to submit to the people for their approval or rejection at the regular election of 1914.

"That said committee and State Tax Commission, acting jointly, shall prepare recommendations or arguments for or against any measure or measures relating to taxation or exemption, which may be submitted for approval or rejection at said election, and shall take such action as may appear proper in presenting such recommendations or arguments for the consideration of

the people of the state.

"That the Secretary of State shall furnish said committee and Tax Commission with such printing and space in the official pamphlet as may be necessary for the performance of the duties herein prescribed.

"That the necessary expenses incurred by said committee and State Tax Commission in the performance of their duties under this resolution, including the necessary traveling expenses of the members of said committee, shall be paid out of the appropriation for the salaries and the general contingent expenses of said State Tax Commission, such expenditures to be itemized and audited, upon proper vouchers, and paid by warrants drawn by the Secretary of State."

Other committees named by Speaker McArthur and President Malarkey are as follows:

House joint resolution No. 14—Senator Hollis, Representatives Smith and Lawrence. This committee is to prepare an argument for the voters' pamphlet in favor of a constitutional amendment providing for a longer session of the Legislature and remuneration of \$5 a day for the legislators.

House joint resolution No. 10—Senators Carson, Representatives Nolte and Carlin. This committee is to prepare an argument for the voters pamphlet relative to a proposed constitutional amendment allowing cities and towns to merge.

House joint resolution No. 11—Senator Thompson; Representatives Upton and Frost. This committee is to prepare an argument for the voters' pamphlet in favor of the proposed constitutional amendment creating the office of Lieutenant-Governor.

Senate joint resolution No. 6—Senator Day, Representatives Hughes and Lewelling. This committee is to prepare an argument for the voters' pamphlet in favor of the constitutional amendment providing that only citizens of the United States shall be electors in Oregon.

### New Embassadors

The nomination of George F. Guthrie, of Pennsylvania, for Ambassador to Japan; Charles R. Crane, of Chicago, for Ambassador to Russia; Frederick C. Penfield, of Pennsylvania, for Ambassador to Spain, have been decided upon by President Wilson.

## PORTLAND WILL PROTECT GIRLS

### "Big Sisterhood" Society Organized in Oregon's Metropolis

Portland has a "Big Sisterhood," a unique society, which invites the interest and co-operation of mothers and daughters and other members of families throughout the state of Oregon. This society is quite informal in its organization, its aim being to give friendly aid and counsel to girls who are alone in Portland, or who for any reason are in need of a "Big Sister." The work of the Society is not offered as a charity, but is just the friendliness of one woman for another, or a "Big Sister" for a "Little Sister."

So many girls going to the city from the country or small towns have fallen into misfortune through the want of a friend, or in some cases have been utterly lost to their home people, that these Portland women have associated themselves to extend the friendly hand to girls and women who need any kind of help whatever.

If girls, or the parents of girls, who are going to Portland will write to the "Big Sisterhood," care of the People's Institute, arrangements will be made to give them such attention as they may wish on reaching the city and their welfare will be looked after by "Big Sisters" who will take pleasure in knowing them and helping them. So many sad things happen every day to girls who come to Portland from small towns and the country that the importance of this acquaintance with the "Big Sisters" is urged upon mothers and daughters throughout the state.

### Treasurer Gets Bonds

Washington, D. C., April 1.—John Burke, former governor of North Dakota, who recently became Treasurer of the United States, filed a bond for \$150,000 with the Federal Government to insure adequate care of every cent of the nation's money in his custody. The guarantor of his honesty and faithfulness is a seven-million-dollar corporation of Baltimore, the United States Fidelity & Guaranty Company.

While the total of the Treasury's funds will run nearly a thousand times the amount of Governor Burke's bond, all the other treasury officials who share with him the care of the money are bonded and the aggregate security bears a much larger proportion toward the total funds. Besides, the largest loss for which a treasurer was ever held responsible was \$600, the contents of a sack stolen by a laborer some years ago.

### New School Maps

For teaching the geography of the United States in the public schools and colleges a strong effort is being made by the United States Geological Survey to foster the use of the Government topographic maps. These maps contain so many details of local interest, showing even the school houses and farm houses as well as every wagon road, with which of course the school children are familiar, that it is said to be an easy matter for teachers to enlist the interest of the pupils in this new type of school map. From an understanding of the particular maps representing their own localities it is but succession of short steps to lead the pupils to an appreciation of the different types of country portrayed on maps of other sections of the United States. Most of the standard atlas sheets of the Geological Survey of recent issue are printed on the scale of 1 mile to 1 inch, a scale which shows the physical features of the country were very interesting in detail.

## MEDAL FOR BEST ESSAY ON ROADS

### School Children of Rural Districts Are Eligible For Contest

A gold medal to the school boy or girl between the ages of 10 and 15 who writes the best composition, not to exceed 800 words, on the repair and maintenance of earth roads, is to be awarded by Logan Walter Page, Director, Office of Public Roads, United States Department of Agriculture, Washington, D. C. All compositions must be submitted to Mr. Page before May 15, 1913, and the medal will be awarded as soon thereafter as the compositions may be graded. The composition may be based on knowledge gained from books or other sources, but no quotations should be made.

After many years' experience in dealing with the public road situation of the country, it is Mr. Page's belief that ignorance on the subject of repair and maintenance of roads is as much the cause of their bad condition as any other one factor. It is expected that the competition will bring about a better understanding of the subject of repair and maintenance in the rural districts.

Many children living in the rural districts have experienced the disadvantages of roads made impassable through a lack of proper maintenance and it is expected that their interest in the competition will stimulate greater interest among the parents. Bad roads have prevented many children from obtaining a proper education and have even prevented many children from obtaining a proper education and have even prevented doctors from reaching the side of rural patients in time to save their lives.

Any child between the ages mentioned, attending a country school, may compete. Only one side of the paper must be written on; each page should be numbered; the name, age, and address of the writer, and the name and location of the school which he or she is attending must be plainly written at the top of the first page. The announcement of the competition has been sent to the superintendents of schools in the rural districts. No further information can be obtained from the Office of Public Roads. This announcement should be plain to every one, and all children will thus start on a basis of equality.

## CENTRAL OREGON GRASS ABUNDANT

### More Feed Goes to Waste Than Some States Raise

"Tell me, if you will why, with more grass going to waste in Oregon than is grown in any single state east of the Rocky mountains, the railroads have hauled carloads of butter from that poorer grass section that you may have butter to spread on your bread."

This question is asked by Professor A. E. Chamberlain, agricultural commissioner of the Great Northern, says the Portland Journal.

"Tell me, with your climate, why you are paying freight on the eggs you use on your tables?" he continued.

"It is because your people have been overlooking the little advantages that nature gave you over everybody else in this country, and have been looking to doing some great big thing instead of availing yourselves of the greatest resources God gave to man grass, plain grass!"

"I have always believed that the greatest asset of the state of Oregon is grass."

"While you are struggling with the development of orchards, the fruit lands and irrigation projects, there is going to waste each year in the state of Oregon grass that has been provided by nature without any aid from man, that if consumed by livestock would produce more net wealth for your people than is produced from the fields of some states in this union that have three, four or five times the rural population you have in Oregon."

### Taft's School Duties

H. W. Rogers, dean of the Law School, has issued the following statement regarding the nature of Professor William Howard Taft's work in the law school. He says:

"It is understood that Professor Taft will lecture on constitutional law in the law school and in the college. He is Kent professor of law in the college of constitutional law. His course on constitutional law is of two years and the book to be used is Thayer's cases. In the opinion of the subject no doubt will be taught from an academic point of view and in the law school from a professional point of view. The academic course is credited on the academic degree but not on the law degree. The course in the law school is credited on the law degree, but not, on the arts degree."

## LATE ACTIVITIES AT HIGH GRADE

### New Strikes and Heavy Transactions Keep Camp Lively

The Ft. Bidwell News gives the following regarding activities of High Grade:

George Kent and George Maupin arrived in Bidwell on Tuesday from the Shasta View Mine, adjoining the "Consolidated." Mr. Maupin is one of the owners of the Shasta View and informs us that the ledge was cut at a depth of over 100 feet by a cross cut drift from the Mountain View tunnel. The ledge is 5 feet between the walls and carries valuable ore on each wall.

This is another important piece of news for the mining fraternity, and taken with the other recent strikes, will surely cause a live camp here this summer.

According to a reliable report from Alturas the famous Big Four property in the High Grade mining district has been sold to San Francisco capitalists. The price paid is to be \$50,000 cash. The property is equipped with a stamp mill and has a fair sized body of high grade ore and an immense deposit of low grade. It is hoped that this property has been secured by practical mining men, as it is located in the center of the district and has been considered a property of great possibilities. The work already done being of a superficial nature, but sufficient to demonstrate the existence of large ore bodies when development has reached below the surface fractures.

Felix Green and "Dad" Heryford, of Lakeview, Oregon, have invested heavily in the Sunshine company, operating at High Grade, during the past week and announce their intention of pushing development work on a large scale without interruption. This is one of the best properties in the district and should prove a big winner for the owners. The Sunshine adjoins the Gold Shore property to the west.

### News of Fairport

Fairport, Calif., (Special Correspondence to Examiner.)

The Fairport Land and Town company is getting ready to install a bath house for the accommodation of the large numbers who come here during the summer season. The need for such an institution was emphasized last season.

Manager Snelling, of the Fairport Inn, is arranging to furnish a fish dinner to the graduating class of twenty-five from the Alturas high school, next Sunday. The members of the class selected Fairport after having been given their choice of a half dozen different points.

### Musical Horns Prohibited

A Paris dispatch says the musical automobile horns which threatened to fill the main streets of Paris with snatches of popular or classical airs instead of the usual "honk, honk" have come to a quick finish in France.

A test case was brought against two motorists of Douai, who evinced the night trumpeting the leitmotif of "Die Walkuer," and it has been decided that these instruments are illegal here.

The decision brought out a judicial definition of the word "horn," which had hitherto been rather widely interpreted.

"The latter," said the Judge, "must be for the purpose of sounding an alarm and be used to warn the public, not to amuse it. It must give forth a single note which should be grave, even sinister, in order to call attention to impending danger."

"The new fanhorns," added the Judge, "lack seriousness and are therefore outside the meaning of the act."

### PUBLICITY WORK

conduct all publicity work on conservative lines. No doubt the articles we expect to see from his pen in descriptive literature and various publications throughout the country will accomplish the desired result in heralding our resources and possibilities abroad and in securing settlers for our lands.

## MORGAN MILLIONS ARE BEQUEATHED

### His Son Gets \$100,000,000 in Money and Securities

A summary of the bequests to members of his immediate family and for public purposes made by the will of the late J. Pierpont Morgan follows:

To his wife: In trust (to be bequeathed at her death as she shall direct) \$10,000,000.

Trust fund from his father (the amount not given.)

Other funds sufficient to make her annual income \$100,000.

His country place, "Cragston" and all its contents.

His Madison avenue home and contents, except family portraits and wines.

To his daughter, Annie T. Morgan: In trust \$3,000,000. If said daughter shall be married and have no children, and her husband shall survive her, she may leave him \$1,000,000.

To his daughter, Mrs. Saterlee: In trust, \$3,000,000, to be bequeathed by Mrs. Saterlee among her children as she may elect.

To his son, J. P. Morgan, Jr.: Outright gift, \$3,000,000. All his wines. His rights and titles in Metropolitan Museum and similar institutions.

His private art gallery and its contents. All the residue of his estate without conditions. This will probably total about \$100,000,000.

To his daughter, Mrs. W. P. Hamilton: In trust, \$3,000,000, to be bequeathed by Mrs. Hamilton among her children as she may elect.

To his son-in-law, W. P. Hamilton, outright, \$1,000,000. H. L. Saterlee, outright, \$1,000,000.

Public Bequests: To St. George's Episcopal church, New York, a trust, \$500,000. To Archdeaconry of Orange, a trust, \$100,000. To House of Rest of Consumptives, \$100,000.

### Court Meets May 12

Klamath Herald: Circuit Judge Benson is busily delving into authorities cited by attorneys in cases that he has taken under advisement, and he will dispose of several actions before his departure for Lakeview, to hold the May terms of the circuit court in that city.

Judge Benson and Court Reporter Richardson will leave on May 2 or 3. On May 5, a number of cases adjourned on the last term will be disposed of, and on May 12th the regular term of court will open.

There are a number of important cases pending in Lake county.

F. L. Young was in town last week from his home near Abert Lake.
