## BISHOP PADDOCK VISITS LAKEVIEW

Plan Considered of Having Regular Episcopal Clergyman Here

Bishop Paddock of the Episcopal Church, arrived in town on Saturday evening last, having been delayed a day on account of illness. On Saturday evening a reception was tendered him by the members and friends of the Lakeview Episcopal Mission. On Sunday morning at 11 o'clock he conducted the regular services of the Episcopal Church in Snider's Opera House.

In the evening he delivered an address in the Court House to the people of Lakeview and on Monday evening the members and friends of the Lakeview Episcopal Mission held a meeting, at which the affairs in general concerning the Mission were discussed. On Tuesday evening in the Methodist church he conducted services of baptism, confirmation and Holy Communion. At these services Mrs. R. A. Bradley and her two daughters were baptized, and these three with Master Sewell Reynolds were confirmed. Owing to the fact that there are a considerable number of his Church in Lakeview and surrounding vicinity, the Bishop is seriously considering the feasibility of a plan of having a regularly ordained clergyman of his Church visit Lakeview at stated periods, probably once every few weeks. The Bishop left this morning for Klamath Falls.

## WOOL MARKET IS YET UNFAVORABLE

Believed That Present Agitation Is As Bad As Free Trade

The situation in the wool trade at Pacific northwest points is still far from favorable. Only a small movement has been shown at the various coast centers during the last week, and most of this has been done at practically the same prices as ruled during the previous week.

The situation at the Atlantic seaboard is still congested with some concessions in the price to effect a greater movement. Wool prices are at present practically on a free trade basis, therefore there seems to be little standing for the claims of manufacturers that the market will go to the bow wows on account of the tariff loss.

Manufacturers have been making strenuous efforts of late to force a further depression in values. The wool market seemingly has not a single friend among the millmen at this time, all being desirous of forcing lower prices.

The Boston correspondent of the Portland Journal writes the following regarding the market:

Boston, April 26.—Wool has sold a little more freely recently at the expense of values. Dealers are endeavoring to clean up stocks of old wool, with considerable success. Manufacturers are still in a great deal of uncertainty regarding the situation, but are disposed to take advantage of any weak spots in the market. Their operations, however, are moderate when they can obtain material concessions. The opening of the London sale was fully as strong as expected, but this attracted only mild interest there, as trade in foreign wools is too quiet. The total volume of business it is believed, is really larger than the parties interested will admit. The recent operations have still further reduced the small stocks.

## WARDENS ARE ATTACKED

(Continued from first page)  
It is said that a demonstration was made in Susanville by the citizens of the town and authorities had hard work to keep the prisoners from being lynched. The crowd was somewhat subdued by the fact that neither of the game wardens were yet dead.

Cady and Mellinger were taken to Susanville for treatment, being conveyed by special train over the N.-C.-O. and a construction train over the Fernley-Lassen road. It is stated that the former has chances of recovery, but that the latter is fatally wounded. After overpowering the white men and leaving them lying by the roadside the Indians rode over their bodies with horses, adding other injuries besides those received from gun wounds.

A telephone message from the lower country late last evening contained the news that the wounded men were getting along nicely and that hopes were entertained for their recovery. All the Indians have been captured. There were eleven in the band when arrested, but four of these were school boys who were later released. Six in the Lassen county jail, and one other mortally wounded, accounts for the entire eleven.

## MERCANTILE STORE FINELY EQUIPPED

New Quarters in Heryford Building Fitted With Elegant Furniture

If the assertion that the Heryford Building is 20 years ahead of the town, the same is equally true of the store and fixtures of the Lakeview Mercantile Co., which is now being installed in the handsome structure. The counters, shelving, showcases and the like on the main floor are all of handsome quartersawed oak and present a handsome appearance. All departments are alike in finish, and ample provision has been made in the grocery department for the display of samples of stock. Drawers, bins, etc., are all provided with glass sample cases, while the fronts of the counters provide for the exhibition of different wares.

In the drygoods and furnishings departments are numerous plate glass showcases and counters combined, and the designs are not only handsome but permit of showing goods to the utmost advantage. President Florence and his assistants may well be proud of their new store.

## Proposed Ordinance

The city council is considering a plan of establishing a building restriction ordinance to affect the entire town. The status of the present fire limit district in the business part of town would remain unchanged under the contemplated ordinance it affecting only the residence section and that living outside of the present district. It is not the intention to adopt any unreasonable measures that would retard the building up of the town, but would require inspection to be made of electric wiring and flues, as a step toward fire protection.

## Nominations Confirmed

Among the nominations of the Senate for federal jobs in Oregon are the following:  
Frank S. Meyers, Postmaster of Portland; E. G. Worth, Surveyor-General; L. A. Booth, Receiver of The Dalles land office; Nolas Skiff, Receiver at La Grande; and Sam Motherhead, Receiver at Burns.

## L. C. I. C. Will Meet

The Lakeview Civic Improvement Club are taking up a course of study in civics and political science that they may better prepare themselves for the intelligent use of the ballot and also be able to fulfill the duties of citizenship. The regular meeting of the Club will be held Tuesday, May 6, 2:30 p. m. in the City Hall, at which time the following topics will be discussed:

Description of the Constitution of the United States, Mrs. Vanderpool.  
How May the Constitution be amended; the present amendments and provisions of each, Mrs. Bieher.  
Steps enumerated in election of a President of the United States, Mrs. Rinehart.  
Congress—When and how often meets; powers granted to Congress, Mrs. Conn.  
A cordial invitation is extended to all those interested to attend, whether or not they are members of the Club.

## ANTI-ALIEN LAND LAW

(Continued from first page)  
land in California that the treaties between the United States and such nations give.  
It is generally believed there that the new act would accomplish the ends said to be desired by the people of that state, namely, prevention of the further acquisition by Japanese subjects of farming lands and ranches.

"Yes Sir! Studebaker wagons are made to back up a reputation."

"I know, because wagons of every make come into my shop for repairs, and I have a chance to see how few are Studebakers."

That's the opinion of thousands of blacksmiths who know the quality of Studebaker wagons.

The owners never regretted that they bought Studebakers.

Tested materials, accurate workmanship insure a wagon unequalled for durability, and this careful selection of wood, iron, steel, paint and varnish has been a fixed rule with the Studebaker Wagon Company for sixty years. That is why a Studebaker wagon runs easiest and lasts longest. It is built on honor.

Whether you live in town or country, there is a Studebaker vehicle to fill your requirements for business or pleasure—and harness of every description made as carefully as are Studebaker vehicles.
