Lakeview, Oregon, Thursday, May 29, 1913

### SEEING IS BELIEVING

That labor will bring about what would seem almost impossible on the lands of the West Side is plainly shown by what has been accomplished on the J. F. Hanson ranch on the West Side. A visit to this place will surely convince the most skeptical.

About three years ago Mr. Hanson bought the original Point Ranch consisting of 320 acres, and since that time has backed his belief of the country with money by acquiring enough land to now hold a tract of 1100 acres. Of this about 700 acres are in cultivation, which is being dry farmed but much of this will be made to yield more when watered by the Lakeview Irrigation Company's project which will be completed this year.

Mr. Hanson is a farmer, both in horticulture and agriculture, sheepman, stockman, contractor, being vice-president of the Hall Construction Co., of Los Angeles, and a will be dairyman. On his farm may be seen a herd of 38 Holstein dairy cattle, recently imported from California, sheep, good stork, horses and mules, 150 head of hogs, chickens, turkeys, ducks, and Guinea fowls.

This year Mr. Hanson has sown something over a 500 acreage. This includes alfalfa, wheat, barley and oats. Alfalfa on which the seeder had finished Wednesday, the following day could be seen breaking through the ground in distinctive rows, clearly demonstrating the fertility and richness of the soil by giving life to the seeds in four days time. He has an eighty acre field of this, besides 50 acres of alfalfa sown last year, which now stands from four to six inches in height. Another valuable demonstration made by Mr. Hanson is the adaptability of field peas to this soil and climate. Last year he had a small tract planted to this product which he states yielded exceedingly well and proved splendid feed for his stock. He has a larger field this year, but expects to give more attention to the pea culture in the future.

Besides the broad fields of grain and alfalfa over the immense ranch Mr. Hanson takes much pride in providing for appearances and conveniences about the house and out buildings. Here every advantage is cared for and particular attention is given to the garden and the planting of fruit and ornamental trees. A gasoline pump is installed over the well by which means water is secured for small irrigation and houses purposes. He states there is no effect on the well's water supply after the pump has run for an entire day.

All of these accomplishments, only a partial list being enumerated in the above, is conclusive evidence of what can be done in time and with energy. Almost the entire West Side of something like 100,000 acres can be made to produce as does the Hanson ranch.

When water, of which we have promise next year, is available the possibilities are increased ten-fold. The land hungry and homeseekers should investigate this part of Goose Lake Valley. They should visit the Hanson ranch and the other places which are being made to produce equally as well in proportion. The trip will most surely make them awake to the opportunities for diversified farming, dairying, and hog, stock and chicken raising.

### NEW PINE CREEK ITEMS

(By Staff Correspondent)  
The kid nine baseball boys went to Davis Creek Sunday and were defeated by a score of 9 to 14. A return game will be played at New Pine Creek a week from next Sunday.

One of our citizens took a little too much fire water last Saturday and went home and started a rough house. Marshal Cook put him in the cooler and when he was sober brought him up before Judge Taylor who imposed a fine of \$5.

Our little city was shocked to hear that Clarence Green had been killed by a horse falling with him at Sacramento. The news was brought to town by Mr. J. D. Heryford.

New Pine Creek will celebrate the fourth with a good old fashioned picnic dinner. A large shade will be built between the hotel and livery barn where a program in the forenoon will take place. Several large tables will be built under shade where the dinner will be served. Everybody is requested to bring a basket. Afternoon ball game, several kinds of races etc. with a grand ball in the evening, music by Fandango orchestra. Full program will appear later on poster.

There was quite a large attendance at the hearing of the reestablishment of the depot on the Oregon State Line for New Pine Creek. Judge Meloy certainly did himself proud for the manner in which he handled the case. Also the evidence as given by each and every witness for the Oregon side. It certainly won't be long before we have our depot open again.

Quite a number from here are leaving for different points for a few weeks, but there are new arrivals almost daily to take their places.

Mr. and Mrs. A. M. Smith are over from Drews Valley for a visit with relatives and to attend to some business matters.

Misses Tina and Lura May Amick spent a few days in Lakeview visiting relatives. Their little cousin Miss Norene Gibbons accompanied them home. All report having had a most enjoyable time.

A very pleasant afternoon was enjoyed by the Ladies Aid at the home

### A Strong Lobby

President Wilson has announced that what he believes to be the most extraordinary lobby ever assembled by special interests is now mustered at the White House against the tariff bill. He says that he has no doubt that a few so-called lobbyists were there on legitimate business, but believes the great majority were occupied in a systematic misrepresentation of facts, and does not think they will be successful in opposing the free sugar and free wool issues.

The president has issued the following statement:

"I think that the public ought to know the extra ordinary exertions being made by the lobby in Washington to gain recognition for certain alterations of the tariff bill.

"Washington has seldom seen so numerous, so industrious or so insidious a lobby.

"The newspapers are being filled with paid advertisements calculated to mislead the judgment of public men, not only but also the public opinion of the country itself. There is every evidence that money without limit is being spent to sustain this lobby and to create an appearance of a pressure of public opinion antagonistic to some of the chief items of the tariff bill.

### Stockholders Meeting

A stockholders meeting of the Bunting Telephone and Telegraph Co. will be held in Lakeview Saturday afternoon, June 7, at 2 o'clock, in the First National Bank.

D. J. WILCOX, Sec.

### Papers After Field

The sixth paper for Lake County was launched last week with the appearance of the Fort Rock News, which according to its masthead is published by the Lake County Publishing Company, incorporated at Silver Lake, Oregon, with L. B. Charles as its publisher. Volume 1, Number 1 with the exception of a few brief mention items, is almost an exact duplicate of the Silver Lake Leader.

While the Examiner has not received a copy of such publication, it is reported that a second paper has been established at Ft. Rock by R. N. Buchwalter of the Chewaucan Press. It is said that much rivalry has arisen between the two newspapers as to which will get the field. The location there for a paper is occasioned out of the many land office notices to be published when homesteaders of the northern Lake section make final proof on their lands.

### Timber Land Patents

The Klamath Falls papers report that last week the Weyerhaeuser Timber company and the Pogeama Sugar Pine Lumber company placed on record patents direct from the United States to these companies deeding 13,222.95 acres of timber land in the vicinity of Pogeama and Jenny creek. They paid the government \$2.50 per acre under the recent "innocent purchaser's law" to perfect their title to railroad grant lands.

### Home Hints

A teaspoonful of turpentine boiled with your white clothes will greatly aid the whitening process.

If moths have attacked a carpet, work powdered borax into the carpet wherever there is a sign of the insects.

Vinegar in which home made cucumber pickles have been preserved should not be thrown away but used in salad dressings. The flavor is delicious and cannot be gained in any other way.

To have boiled potatoes fluffy, pour the water off when they are done, then let them stand in the dish they were cooked in on the back of the stove for a few minutes, giving them an occasional shake.—Pittsburg Sun.

of Mrs. O'Neil's last Friday afternoon. The regular order of business was transacted after which a few selections were rendered, followed by a delicious lunch. The hostess was assisted in serving by Mrs. John Larkin and Mrs. Henderson. The lunch consisted of peanut butter and ham sandwiches, olives, two kinds of cake, coffee and fruit salad. Mrs. O'Neil has certainly proved herself more than once as a delightful entertainer, likewise her assistants.

Miss Thelma Taylor and Miss Morrison went to Davis Creek to take the examination the past week.

D. C. Berry is up for a few days, superintending the remodeling of the house he is having improved so greatly on main street.

A splendid time was reported as having been had at the ball in the Opera House Saturday night. Quite a large attendance and a great many of the people who have been absent for some time were present.

"Grandma" Follett returned from Davis Creek Saturday night where she had been visiting relatives.

Mrs. Gallagher and daughter, Miss Agnes, have returned home from San Jose, Cal. where they spent the winter. It seems good to see the home folks returning again.

Miss Libbie Cannon and Miss Madden spent Sunday at the Jensen home up the canyon. They were delightfully entertained.

# MEN'S SUMMER WEAR
