Ladies' Waists, new stock.....\$1.50 each

"Kabo Corsets"—The Live Model Corset—
.....75c, \$1.00, \$1.25 and \$2.00

FUTURE SETTLERS TO BE PROTECTED

Appointed Committees Will Appraise Values of Oregon Lands

That would-be settlers coming to Oregon have, in many instances, been victimized by unscrupulous land speculators and that the state as a whole has been injured by their operations, is a statement made at the annual convention of Oregon bankers recently held at Corvallis, and the attending delegates expressed a determination to co-operate with the commercial bodies throughout the state in an effort to put greedy real estate men out of business. The plan does not contemplate the entire elimination of land selling agencies, but does propose to annihilate the sharks who have been speculating in good Oregon soil, taking it out of production and holding it for an unreasonable increase in price.

It was decided to form an appraisal committee in each community to pass on the prices of lands, the committee to consist of two members of the local commercial body and one banker, and intending purchasers will be advised to purchase no real estate from any dealer until the value of same has been passed upon by the appraisers and the price asked decided to be a reasonable one. It was stated as a fact that much of the agricultural land in Oregon is held at too high a figure. There is doubtless plenty of good land which can be obtained at a fair price, but the newcomer, usually unfamiliar with local values and conditions, seldom bears of that land. The committee will see that he gets a square deal.

Shun Marriage Law

It is claimed that Multnomah County is now losing about one half of its usual income from marriage licenses since the law became effective requiring bridegrooms to furnish a physician's certificate of health with application for license. Instead of meeting the requirements of the new Oregon law the matrimonial inclined cross the line into Washington to have the nuptial knot tied.

CUPID SNARES COUPLE

Continued from first page
bers of the band serenaded the newly weds, and they with a few friends were invited in to light refreshments.

Mr. Elliott is one of the proprietors of the Elliott & McDonald barber shop, in Lakeview where he has made his home the past few years. The lady he choose or a life companion is a charming young lady. She is well known here, and for some time has acted as "hello" girl in the local telephone office, working for her father. Both young people are held in high esteem by many friends who extend their best wishes to the young couple through life.

FOURTH OF JULY NEAR

Continued from first page

Callithumpian Parade, and the things he has under way will certainly cause all the canines in town to sit up and indulge in merry laughter. In order to make his part of the occasion all the more enjoyable, he is keeping his plans to himself, but in a general way is planning to duplicate the regular program in a way that will not be slow.

As outlined the program will provide plenty of amusement for all, and it is planned to have a trapshoot and possibly a ball game Sunday. A number of Alturas people have announced their intention of celebrating with us, and they are anxious for a trap shoot. Our sports are willing, and hence it is likely that the shoot will take place.

Heretofore committees have announced their plans previous to the celebration, and because the committees this year thought it best to spring surprises on the public some uneasiness has been manifest as to the success of the celebration. All can rest assured that nothing is being left undone and that Lakeview will do herself proud.

ALTURAS HERE SUNDAY

Continued from first page
toward basket making in the second half.

Darnell's band highly pleased the crowd with several well chosen selections. It means much for Lakeview to have such a genuinely public spirited organization which is always ready and willing to be a receiving grace in time of need.

The boys of the Lakeview Athletic Club consider themselves greatly indebted to the many auto owners who brought their cars into good service in transporting the visitors from depot to town.

It was unfortunate that the excursion and a promising base ball game was hampered by the rain. Alturas surely did herself proud in the representation sent, and it is to be hoped that the pleasures of the visit from our neighbors will not be hindered by storm.

Band Makes Profit

The band dance given last Friday night in the Silder opera house proved a thorough success financially for the organization as well as socially for those who attended. There were about fifty couples present, and quite a few held tickets who did not attend.

The band boys thoroughly demonstrated their efficiency in furnishing dancing music. The time was almost perfect and was thoroughly enjoyed by the spectators as well as the dancers. After all expenses were met and 40 per cent of the receipts given for the use of the opera house a net profit of \$36 was made, which will apply on the fund for the new bass horn recently purchased. The management of the band feels very grateful for the patronage accorded them on this occasion and encouraged to likely repeat the dance some time in the near future.

U. S. Attorney Resigns

United States Attorney John McNab of San Francisco has tendered his resignation to Attorney General McReynolds of the United States. McNab made the charge that improper influences had induced the U. S. Department of Justice to attempt to stay the prosecution in the Diggs-Caminetti white slave case. An attempt to stay prosecution in the Western Fuel case was also referred to in connection with Attorney McNab's resignation. A Washington dispatch states that the resignation will be accepted promptly which means that President Wilson sanctions Attorney General McReynolds' action in dropping the prosecutions.

Portland Stock Market

Receipts for the week have been: Cattle 1126; Calves 176; Hogs 2667; Sheep 4418.

Market steady to stronger this week. Best grass steers sold in bulk \$8.00 and \$8.25 with an occasional good load at \$8.50. Outlet is somewhat limited but receipts have not been large enough to come to a glut. Good cows and heifers were not offering freely, but one bunch of cows brought \$7.00, the remainder being poor quality. Prime light veal calves at \$9.05 featured.

A steady to higher hog trade. Reaction in prices set in early Monday morning. Tops quickly reached \$8.25, \$8.30, \$8.35 and finally \$8.40. Thursday market firm at \$8.40. Continued light receipts would strengthen it still further.

Sundry Civil Bill Signed

President Wilson has signed the sundry civil appropriation bill which carried \$116,000,000. It was vetoed by President Taft at the close of the last session of Congress. It contains the following Oregon items: For the construction of roads and bridges in Crater Lake National Park, \$75,000; for the protection of the park, \$7,540; for continuing the Federal building at The Dalles, \$5,000; for continuing the public building at Medford, \$40,000; for moving the weather ball from the Customhouse at Portland to a place where it can be seen by shipping, \$500.

NEW RAILROAD TO RUN ALONG COAST

Portland and San Francisco Will Be Affected By Plan

Portland and San Francisco soon will be linked by a railroad along the extreme edges of the Pacific Coast.

This development has been made possible by the recent agreement of the Santa Fe and the Southern Pacific to extend the Northwestern Pacific, which these two roads own jointly, from its present terminus at Sherwood, Cal., 142 miles north of San Francisco, to Shively, Cal., about 100 miles north of Sherwood.

Between Shively and Trinidad, Cal., a distance of about 50 miles, another link of the Northwestern Pacific property is in operation. The seaport town of Eureka is on this road. It is understood that the jurisdiction of the Santa Fe in the new Portland-San Francisco line will extend only as far north as Eureka.

The Southern Pacific has arranged to finance construction of the line north of Trinidad alone. This line will be built from Trinidad through Crescent City in Del Norte County, California, to Gold Beach, Oregon.

Whether connection with the Southern Pacific's existing property will be made from Gold Beach to Grants Pass or whether the line will be extended northward to Myrtle Point, where it will join the Eugene-Coos Bay line, now under construction, has not been determined. Either route is feasible. When this project first was undertaken a few years ago the plan was to build through Coos Bay, but present intentions are to follow the Rogue River Valley east from Gold Beach to Grants Pass.

MONEY SENT OUT FOR FAIR PURPOSES

Over \$500 For Lake County When Fair Board is Appointed

A recent Salem dispatch states that Secretary of State Olcott has forwarded warrants aggregating over \$44,000 to the fair boards of the various counties of the state. This law was created at the last legislature and under its provisions Lake County is entitled to \$396.93, but it is necessary for the county court to appoint a fair board before the money will be received.

Provision is further made that should a county fair board decide not to hold a county fair the county court may in its discretion expend the funds in support of any fair, and products show or livestock exposition, offering prizes which may be competed for in any county in the state, but that such money must be used exclusively in paying premiums upon exhibits of livestock, agriculture and horticulture products. Should a county not expend the amount apportioned to it for fairs or land shows it becomes a part of the general road fund.

C. W. Jennings came down yesterday from Valley Falls. He states that his section did not receive any rain Sunday but that a good snow was had since.

MORE RAIN FALLS IN THIS VALLEY

Sufficient Precipitation Is Had to Insure Bumper Crops This Year

Beginning last Saturday night about eleven o'clock and continuing well into Sunday afternoon his section received one of the most incessant downpours of rain yet this season. While the rain was quite general over this valley reaching east over Warner Valley, apparently the heaviest storm was in the immediate vicinity of Lakeview. Sunday's rain was not heavy on the West Side but some of the showers since have extended over that vicinity of an ample amount to greatly benefit crops.

A few heavy bolts of thunder and flashes of lightning were felt in town Sunday afternoon, but with only slight damages to some telephones. A. L. Thornton received a stunning shock while talking over a phone, but soon recovered from the effects.

In the northern part of town, extending to the cemetery the water rushed down the small canyons washing considerable rocks and debris into the road. The floor and porch of the Hahn house in extreme North Lakeview, occupied by Al Smith, was flooded with water and sediment, as was the Rehart house occupied by Mr. Hardisty. He also lost some young

EASTERN MARKET IS MORE ACTIVE

Wool Milling Interests Is Held Responsible for the Low Prices

Oregon Journal: While the wool market has recently shown weakness and further loss in price at Pacific northwest points because of the bearishness of the big milling interests of the east; trade in the east is beginning to show signs of improvement and some advance in the price has been forced.

This is the most welcome news that local interests have received. While to date they have not participated in the better feeling; the outlook is much more hopeful. The only drawback has been the recent liberal selling in the country at extremely low figures.

As long as eastern milling interests can secure all the fleeces they need at extremely low values, they are not likely to force their bids higher. Their immediate needs are being taken care of by the feeling of Pacific northwest sheepmen, therefore they continue to hold down the price lid here.

The Boston representative of The Journal sends the following message regarding the situation there:

Boston, Mass., June 21.—Operations in Boston the last week have been most confined to dealers at somewhat higher figures. Unexpected deals in the passage of the tariff bill has proved in a way to be a source of strength to values and the further it goes the more the probable cost of the new clip wools. Not that the situation is at the bottom any stronger, but the chance of the manufacturers needing supplies before free wool is available becomes brighter as the threat of the senators to delay the passage of the bill takes shape and auction sales here are being quietly made, but hints are given that the aggregate of domestic wool changing hands is much larger than dealers will admit.

L. C. I. C. Meeting

The topics to be discussed at a meeting of the L.C.I.C. in the court house next Tuesday afternoon are as follows: Widow's Pension Law Mrs. L. F. Conn; Non-Support Law, Mrs. Vanderpool; The New Registration, Mrs. A. Bieter.

James Small, a well known stockman of Summer Lake, was a business visitor here the first of the week.

chickens that were flooded in a coop in which they were kept. Some damage was caused to the lawn of F. O. Ahlstrom but nothing south of that place was affected. It is reported that another slight water spout occurred a few miles north of town doing some damage to the county road.

Considerable precipitation has fallen since Sunday and cloudy weather continues. The ground is thoroughly soaked as a result from the rains, excellent crop yields in this part of the county are absolutely assured.
