Many changes and improvements in the homestead laws have asked in congress, but that which is the biggest is the new measure proposing a new homestead of 1280 acres, and providing that instead of cultivation the entryman may substantially improve the land to the value of \$1.25 per acre, and granting the right to take such lands to citizens not now obliged to make homestead entry because of having once used it. It is called a "grazing homestead and supplemental grazing entry."

Banking By Mail

Banking by mail, is the latest innovation entered into by the Government in connection with the postal savings system. Hereafter deposits may be made by mail and withdrawals likewise effected through the same agency.

When the postal savings system was first put in operation, postmasters were forbidden to permit deposits by such persons as were not patrons of the postoffice in which they sought to bank. This was found to work a real hardship on a certain class of would-be depositors and Postmaster-General Burleson accordingly abrogated the rule. Postmasters throughout the country now are being advised of the change.

Dairy Business Pays

That the dairy business in the coast counties has been established on a paying basis is evidenced by the fact that the Clatsop County Co-operative Cheese Association has recently been paying 7 cents more per pound for butter fat than the market price. The average amount of milk now being received is nearly 6,000 pounds per day with a prospect of greatly increased supplies in the near future. An ice manufacturing plant will be installed before the advent of hot weather next season.
