SPOILED HAY IS GOOD FERTILIZER

Farmers Make a Mistake By Burning or Wasting Old Crop.

Attention has recently been called, by the Oregon Agricultural College, to the fact that many farmers who are so unfortunate as to have hay injured or spoiled by rain are making the mistake of either burning it in the field or allowing it to rot in piles. It is stated that spoiled clover or alfalfa hay is worth \$8.50 to \$10.00 per ton as fertilizer if evenly spread over the fields and plowed under, and that every ton of hay so worked into the soil is approximately worth four tons of fresh manure. A ton of clover hay contains 40 pounds of nitrogen, 5 pounds of phosphorus and 30 pounds of potash, which if purchased in the open market would cost the farmer about \$10.50, and as clover and vetch is yielding about 2-2 tons per acre this season, the plowing under of the spoiled hay adds a fertilizer value of not less than \$25 to each acre.

Owing to the riotous condition in which radical Socialistic workers and members of the I.W.W. have been let operate in Portland, Seattle and other Pacific Northwest towns by the officials before being checked, a number of sailors last week took the situation in hand and raided the buildings which were used for industrial headquarters. Their furniture and belongings were taken to the streets and burned. Those who suffered in the loss are now asking the city for \$2000 damages.

Mrs. Stone Entertains

Mrs. E. J. Stone held a delightful party Saturday which was also repeated Tuesday of this week. The walls were decorated with red roses, while the table decorations consisted of green leaves and cherries, the colors being fully carried out were red, white and green. The guests report a most pleasant entertainment, the list for both days being as follows:

Mesdames Shirk, Watson, Thompson, Fisk, Russell, Umbach, Schminck, Cronmiller, Funk Harvey, Florence, Sherlock, Norin, Magilton, Miller, Clark, White, Utley, Nottle, J. D. Heryford, W. P. Heryford, Johnson, Brattain, Beall, Cobb, Metcalf, McGrath, Fitzpatrick, McKendree, Chas. Smith, Lane, Chandler, Musher, E. C. Ahlstrom, Welch, Bemis, A. Walker, Kuhl and Miss Hall, Miss Ellen Cobb, Miss Breda Flynn, Dols Dewey, Josie Harvey and Mae Hatcher.

Faith in High Grade

Alturas Plaindealer: Mr. N. E. Guyot arrived in Alturas Saturday evening by auto from Red Bluff, where he was detained by business matters for some time. Mr. Guyot is prominently connected with the development of High Grade and is here to look after his mining interests. He has lost none of his confidence in the future of Camp High Grade and indeed, of Modoc County. He saw the rise of Cripple Creek from its beginning—all through its eighteen years of development before it became known to the world as one of the world's greatest mining camps, and still adheres to his declaration of two years ago, that High Grade makes a better showing than Cripple Creek at the same stage of development.

FLYING SQUADRON VISITS LAKEVIEW

Vanguard of Development League Praises Goose Lake Valley.

"A good country, a good town and excellent hospitality" was the unanimous verdict given Lakeview and the Goose Lake Valley by the Flying Squad, which reached here last Sunday noon from Adel, about six hours ahead of the schedule time. The personnel of the party was: Phil S. Bates, Publisher of the Pacific Northwest, representing C. C. Chapman of the Portland Commercial Club; Prox. A. B. Cordley, Dean of the Oregon Agricultural College of Corvallis; R. H. Crozier, Asst. Gen. Pass. Agt. of the Hill lines in Oregon, of Portland; and L. M. Foss, Trav. Frt. and Pass. Agt. of the O. W. R. N., of Bend. The party is making the trip in Wm. Hanley's Cadillac car, driven by M. H. Collins of Burns.

The principal mission of this Flying Squad is to arouse enthusiasm for the Convention of the Central Oregon Development League at Klamath Falls next month. This convention will be the scene of the first demonstration of the extension work of the O.A.C. in its traveling co-operative work in dairying, irrigation farming, dry farming and domestic science.

Monday forenoon, they in company with a number of local citizens were taken by autos to New Pine Creek where a short meeting was held. It was a revelation to the visitors to see the fertile strip of country south of Lakeview, and they were indeed surprised and enthused when in the afternoon they were taken over the vast area of the West Side.

A rousing meeting was held here Monday evening at the Court House. State Senator Thompson presided over the meeting, and Darnell's band contributed a good share toward the success of the affair.

Each member of the party addressed the audience. Prof. Cordley, who was the first on the program began his remarks thus: "I like your town, I like your country, I like your people, and I like your band." He offered some good advice along agricultural lines and stated that the Oregon Agricultural College stood ready at any time to co-operate with our farmers in furnishing advice and assistance on all matters, if the college was informed of their wants. He further said that as soon as the county court provided their share of the expense the extension work on the college would be taken up here, which is made possible by the law created for the purpose at the last legislature, and that demonstration work would be carried on under supervision of college experts in our county.

Messrs. Crozier and Foss, who were assigned the subject of transportation, expressed their hope that a thorough railroad line would intersect this valley in the reasonably near future.

Phil Bates, who is well known all over the state, and the man who has really done more for the actual development of Eastern and Central Oregon than probably any other citizen within its borders, talked on the subject of good roads, and incidentally of the benefits that have resulted from the work of the Central Oregon Development League. He eulogized our county and the method of government under its present officials, and expressed his strong convictions of the good future that it has in store.

After the meeting a number of local citizens ushered the visitors to a local cafe where a banquet was given in their honor. The party left here Tuesday morning for Klamath Falls, and after spending a few days in Klamath County they will again enter Lake, covering the north end and coming back as far as Paisley to hold a meeting there. They will then return to their respective homes by way of Bend.

Presbyterian Church Notes (George A. Crawford, Minister.) Sunday school, 10 a. m., 11 a. m.—Preaching, Subject: "Service." Musical Program: Cornet solo: "Schubert's Serenade." Anthem: "Crown Him King of Kings." Alto Solo: "Gathering Jewels," with violin obligato.

8 p. m. Subject: "Is it necessary to belong to the church to be saved?" This will be the fourth sermon in the series of ten Sunday night sermons on "A Man's Questions." Musical Program: Violin Solo: "Tramerei"—Schumann. Duet: "Looking This Way." Anthem: "Unfold Ye Portals"—Gounod. Male Quartet: "The Church in the Wildwood."

You will be welcome at both these services.

SHAKE OFF YOUR RHEUMATISM. Now is the time to get rid of your rheumatism. Try a twenty-five cent bottle of Chamberlain's Liniment and see how quickly your rheumatic pains disappear. Sold by all dealers.

MANY WILL ATTEND KLAMATH MEETING

Meeting Will Be Held On Monday Evening to Apportion Committees.

"On to Klamath Falls" is the slogan now being used by Lakeview Boosters in anticipation of the meeting of the Central Oregon Development League at that place August 19, 20 and 21. It is already assured that a most creditable delegation from Lake County will be in attendance at the big meet, but the local boosters will not be satisfied with a merely creditable showing and intend making the other delegates sit up and take notice that Lake County is "It." At least a dozen autos will go over, and it is planned to make a good showing on entering the Klamath metropolis. A meeting is called at the Examiner office for next Monday evening for the purpose of appointing committees to perfect plans for the proper representation of Lake County at the meeting.

The attendance from all parts of the State promises to be very large, and if Lake County is represented as she should be the results will be of very great value. While it may not be possible to make a large exhibit of the products of this section, yet it is easily within the range of possibilities to make a showing that will open the eyes of all visitors to its wonderful possibilities in the way of stock, grain, timber, fruit, alfalfa dairying and the like.

One of the most important subjects to be brought before the coming convention is the matter of stimulating interest in the Pacific Highway north and south across the state. This is an item of vital importance to both Klamath and Lake counties, and this meeting is the logical time for both counties to formulate systematic plans for accomplishing the best results in working for the establishment of the highway.

All who are interested in boosting this County, whether they will be able to go to the League meeting or not, are earnestly requested to attend Monday night's meeting.

Death penalty for Jackson Adams, sentenced to have hanged last Friday at Salem for killing Clinton Chamberlain, of Astoria, was commuted to life imprisonment by Governor West, because of extenuating circumstances in connection with the crime.

FINLEY ON GAME BOARD

(Continued from first page) over 31, inclusive, of each year, on all migratory birds passing over or at rest on any of the waters of the main streams of the Mississippi River between its mouth and Pittsburg, and the Missouri River between its mouth and Bismark. The purpose of this is to allow waterfowls a safe highway from winter feeding grounds to nesting grounds which can be generally recognized.

All these proposed regulations will be made the subject of hearings, and persons wishing to recommend changes are advised to make application to the Secretary of Agriculture. Whenever possible, hearings will be arranged at central points and notice will be given.

STREETS ARE FLOODED

Continued from first page to cover nearly the entire district of the town, and the rain in general in this section was so hard that it washed mud into the roads for considerable distance up and down the valley. The rain continued here all night and today, but has become settled down to a steady drizzle and it is not likely that any more floods will occur. The recent rains have been quite general over the country and have temporarily demoralized train traffic over the N.-C.-O. There was no train into Lakeview last night, and Tuesday morning's south bound train reached Reno last night and yesterday morning's train will get there tonight, it having been held up yesterday at Likely.

The delay in the service was caused by the track being covered with debris for a considerable distance at Red Rock Canyon below Doyle. As near as Agent Class can learn this morning no damage has been done between Lakeview and there, and he expects a train into Lakeview tonight. At Davis Creek last night there was merely a light rain.

CHAMBERLAIN'S CHOLERA, CHOLERA AND DIARRHOEA REMEDY

Every family without exception should keep this preparation at hand during the hot weather of the summer months. Chamberlain's Cholera, Cholera and Diarrhoea Remedy is worth many times its cost when needed and is almost certain to be needed before the summer is over. It has no superior for the purpose for which it is intended. Buy it now. For sale by all dealers.

CREAMERY WILL START

Continued from first page which are appended below:

Separate milk as soon as the milking is over, and cool the cream to the lowest temperature possible by placing your cream can in cold water. Wash your separator after each milking.

Never mix warm cream with cold, but cool the warm cream to same temperature as that to which it is added.

Always keep your cream can in cold water.

Don't cover your cream can, but put cheese cloth or fly screen on top of it to prevent flies from getting into the cream.

As it is our aim to pay the highest price possible for butterfat, we cannot accept any strong or tainted cream, and if you are not prepared exceptionally well to keep the cream at home, we wish you would deliver it twice a week to the creamery, and if possible on Mondays and Fridays.

Public Markets Started

The fact that onions from Texas, potatoes from California and eggs and poultry from points outside of Oregon are being received in Portland in carload lots while the farmers in the immediate vicinity of the city, as well as those tributary to the railroads leading to the market, cannot find a market for their produce at any price has led the Portland Realty Board to actively take up the question of establishing public markets where gardeners and farmers may dispose of their products direct to the consumer with great benefit to both. It is stated that the fact that farmers cannot sell their own crops in Portland without a license, and the future fact that the commission men will not buy from him except at their own prices, is causing many farmers to allow fruits and vegetables to go to waste rather than dispose of them at a loss.

Mrs. Homer Pollard, daughter of Mrs. Carrie Down, and children arrived last week from Oakland on their usual Summer visit with relatives and friends.

MONEY RAISED TO ADVERTISE STATE

Large Fund Available to Be Spent for Exploitation Work.

That the policy of the Portland Commercial Club to continue the campaign of farm development throughout the state is in high favor with the business interests of city is evidenced by the fact that the present campaign has met with more prompt and favorable support among property owners of Portland than any movement of like nature that has been conducted in the past.

A few weeks ago the Commercial Club set out to raise a fund of \$150,000 to be expended in development work throughout Oregon during the next three years and so successful has been the effort that at the present time the fund is well above the \$100,000 mark and it is believed by those having the campaign in charge the full sum will be pledged within the next month. In the list of those who have given definite sums are 160 firms and individuals representing virtually every branch of business activity in the city.

There is more Catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven Catarrh to be a constitutional disease, and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only Constitutional cure on the market. It is taken internally in doses from 10 drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials.

Address: F. J. CHENEY & CO., Toledo, Ohio. Sold by Druggists, 75c. Hall's Family Pills for constipation.

CAN'T KEEP IT SECRET The splendid work of Chamberlain's Tablets is daily becoming more widely known. No such grand remedy for stomach and liver troubles has ever been known. For sale by all dealers.
