Sweet Pea Fair

A pleasing and unique entertainment will be furnished by the ladies Aid of the M. E. Church, at the "Sweet Pea Fair" to be held Aug. 15-16, one door north of the B & M store. The ladies are particularly anxious for a fine exhibit of Sweet Peas, which reach the height of perfection in this part of Oregon; and will greatly appreciate the efforts of those who have a fine lot of these beautiful flowers if they will especially care for them in a way to bring them to perfection, and place them on exhibition for premiums at the fair.

This fair with its various features should mean much to the people of Lakeview and vicinity, as it serves to unite the people in a common interest, causes an exchange of ideas and is also an excellent way to bring in touch those who would not otherwise perhaps meet.

Watch the papers for the different features of this fair.

HEARS FROM OLD FRIEND

(Continued from first page)
months after that terrible fire. A meat block answered for a desk, imposing stone, table for folding papers and numerous other things, at the same time serving in the capacity for which it was intended. The butcher moved in about the same time we did, and of course we shared everything together. He could use the press for a meat chopper and surplus Examiners to wrap the meat in, while we helped ourselves to a ring of bologna occasionally.

It was a sad sight to view the ruins of this once prosperous city, but it was interesting to see with what energy the brave business men struggled to build up again. The Examiner toiled along with the rest, and it was not long until Lakeview was a more beautiful and substantial city than before.

The Examiner soon procured new presses, type, etc., and enlarging to eight pages, it increased its circulation nearly three times during the four years following the fire. And now that the Examiner is again moving to larger and more convenient quarters, I wish to extend to you my heartiest congratulations, and wish for your unbounded prosperity. But permit me to drop one tear upon the floor of the old Examiner office, while the devil sweeps up the pie for the last time, and let it mingle with the dust that he gathers from under the cases, as a token of farewell to the old home and paper with which the writer was associated for so long a time. May the historic towel which stood in the corner so long, be carefully carried out and filed in the archives along with the memories of happy days in the print shop.

I have been a constant reader of the Examiner since leaving Lakeview, and must say that I appreciate seeing its advancement as much as if I were still at the helm. To me it is more than the proverbial saying: "Like getting a letter from home."

During my nineteen years with the Examiner a railroad to the metropolis of Lake County was the one absorbing topic. Now that the celebration of that event has taken place, with direct communication with San Francisco, it is my earnest hope that the Examiner will continue its good work until Lakeview is the halfway station between Portland and the Bay City.

I often think of the many old friends in Lake County who are yet no doubt readers of the Examiner. May their prosperity and happiness be as abundant as my thoughts and feelings are on this occasion.

Yours truly,
A. Y. Beach

BLIGHT DISEASE SERIOUS

(Continued from first page)
quently inspected and all cases of blight carefully removed. Properly conducted summer cuttings prevent much spread of the disease and results in much saving to orchards. Where cankers occur on small limbs or are so extensive as to girdle the limbs on which they occur, the whole limb or branch should be removed, being careful to cut entirely past the infected part. Where cankers occur on the larger limbs and the trunks are not to extensive the limb or tree may frequently be saved by carefully shaving off the diseased bark of the cankers to the sapwood, but at all times cutting past the area of infection. Corrosive sublimate should be used for disinfecting tools to prevent spread of the disease, and after the process of cutting out a canker is completed the surface should be carefully disinfected and then painted over with white lead paint.

This is a matter that should not be neglected by fruit growers, and even if the affected trees are filled with fruit, they should not be spared, as this will also be diseased and a loss, besides spreading the affection over the entire orchard.

SHAKE OFF YOUR RHEUMATISM.
Now is the time to get rid of your rheumatism. Try a twenty-five cent bottle of Chamberlain's Liniment and see how quickly your rheumatic pains disappear. Sold by all dealers.

WESTERN PACIFIC TO BUILD FEEDERS

Doyle to Reno Line Means Possible Ownership of N.-C.-O.

According to an announcement lately given out by B. F. Bush, newly elected president of the Western Pacific, his policy to immediately expand the usefulness of the Gould system by building feeders into the territory of railroad competitors, is resolving itself already into definite plans for these projects.

The San Francisco Examiner states that a week's conference between President Bush and his official family lately held in that city resulted in favorable decisions on a number of extensions to be made in California, aside a from line from a point on the Western Pacific main line, probably Doyle, to Reno, Nevada.

If the San Francisco Examiner is correctly informed the presumption would follow that the Western Pacific intends to take over the N.-C.-O. Railway, or to parallel that line. The N.-C.-O. crosses the Western Pacific at Doyle and at present transfers freight at that point for Reno. There have been numerous reports in the past of the possibility of Western Pacific ownership of the N.-C.-O. but these have repeatedly been denied. There have also been repeated reports that the N.-C.-O. was to be made a broad gauge road, but these reports have also been constantly denied. In connecting up with Reno the Western Pacific expects to make a strong bid for the wool which that townships to the eastern markets and also to get some of the profitable business that the Southern Pacific is enjoying between Reno and San Francisco.

Oregon Will Lead

Secretary of the Navy Daniels has stated that it is his intention to stand on the bridge of the old battleship Oregon and lead the entire battleship fleet of the United States through the Panama canal and thence up the Pacific Coast. The voyage will be made, he says, as soon as Colonel Goethals gave the word that the fleet could steam through the waterway. Information also comes from Navy circles that a considerable portion of the Atlantic fleet will be transferred to the Pacific Coast for permanent duty following close upon the opening of the Panama Canal.

LAKEVIEW IS ON ROUTE

(Continued from first page)

portant National Highways. The Washington National Highway on the Atlantic Coast will have three important divisions from Chicago to Boston leading through different states, some of which will be all the year routes. Portland is the natural objective point on the Pacific Coast for this great Transcontinental Highway. The Oregon metropolis being four hundred miles nearer New York than San Francisco. This highway is certain to become the favorite Tourist Route from the Atlantic to the Pacific, because of its superior scenery and its possibility for all year around travel.

It will greatly interest Lake County citizens to know that I have planned a Lakeview Division of the Washington National Highway from The Dalles via Bend and La Pine. Your city will become one of the most important junction points on the Pacific Slope, as the Washington Boulevard and the Lincoln Highway will connect at Lakeview.

Strenuous effort should be put forth to the improvement of the roads along the routes of these great National Highways immediately in Lake County. I observe that the most populous sections of your county lies along the routes of these great National thoroughfares. And this improvement alone will be worth hundreds of thousands of dollars to your citizens. These roads should be made possible in rainy season as well as dry, or tourists will go by other routes—to the loss of millions of dollars to Lakeview.

On his trip from Omaha, Neb., to Lakeview, Colonel Thatcher has painted highway signs all along the route and will continue painting them until he reaches his present objective point at Seattle. He will be at La Pine August 9 to attend the Good Roads meeting and barbecue which is being arranged by the Commercial Club of that place. He expressed an earnest wish that a large delegation would attend from here.

CHAMBERLAIN'S CHOLIC, CHOLERA AND DIARRHOEA REMEDY

Every family without exception should keep this preparation at hand during the hot weather of the summer months. Chamberlain's Colic, Cholera and Diarrhoea Remedy is worth many times its cost when needed and is almost certain to be needed before the summer is over. It has no superior for the purpose for which it is intended. Buy it now. For sale by all dealers.

DATA ON COUNTY ROADS IS ASKED

Statistics on Highways in Each County is Being Compiled.

Nearly \$2,000,000 has been spent on Multnomah county roads within the past 10 years, according to a report which Road Supervisor Chapman has prepared to send to State Highway Engineer H. L. Bowiby. Mr. Bowiby is preparing a set of statistics for the entire state and each county has been requested to submit figures on roads in its borders. According to the report Multnomah county has 500 miles of public roads, of which 134.5 miles are broken stone, 6 miles are plank, 256.3 miles are dirt and 2 miles hard surface.

The county has two bridges, one of steel and wood and the other of steel. The latter has two spans of 164 feet each length and a steel girder span 39 feet long. The county owns six rock quarries, nine crushers, 10 gravel pits, four steam and one gasoline road rollers and 10 road drags. There are two road districts and the supervisors are H. B. Chapman and A. H. White.

R. M. Judd and W. Burleson of Mt. Rose, Michigan, are late arrivals in Lakeview, they having come to make an inspection of the country with the intention of investing in property in this valley.

Shower Party

On Thursday evening at the home of Mr. and Mrs. Jesse Darnell at their home in South Lakeview, Miss Louise Storkman was the guest of the G. G. G. Club at a shower party given in honor of her coming marriage next month to Mr. Norman Jacobson.

The rooms were artistically decorated for the occasion with sweet peas and green boughs. The numerous and beautiful gifts were presented in an unique manner, being concealed under a miniature tent which was mounted on a tree-decked float. As Miss Storkman's fiance is a Forest Ranger the scheme was significant.

Dainty refreshments were served at the close of the pleasant evening. Those present were: Misses Louise Storkman, Ruth Bernard, Lucile Bailey, Mable Rice, Dorothy Heber, Lura Snyder, Verla Umbach, Ellen Bernard, Kathleen O'Neill, Gwendolyn Corbett, Hazel O'Neill and Mrs. Darnell.

The Klamath Falls Elks lodge has retired from the Rodeo business. The last fair held there was such a success that all old indebtedness of the Rodeo was wiped out and a good surplus remains in the treasury. By a unanimous vote of the lodge it was decided to sell its stock to individuals.

CAN'T KEEP IT SECRET

The splendid work of Chamberlain's Tablets is daily becoming more widely known. No such grand remedy for stomach and liver troubles has ever been known. For sale by all dealers.

Where We Stand

As long as we continue to sell you merchandise which satisfies we can hold your trade. No wonder we are especially anxious to interest you in the Nyal Remedies—preparations which never fail to produce desired results. Don't gamble with your health—Use Nyal's Remedies and be sure of satisfaction.

There's nothing secret about Nyal Remedies. They are honest in construction. Their formulas are open to the public. No—Nyal's are not patent medicines.

We know how good the Nyal Remedies really are. We believe in their merit and worth, that's why we urge you to buy them. Back of each of these Nyal Remedies there stands a record of years of unblemished success. We prefer to sell you Nyal Remedies because we believe them to be the best in the world. These remedies are made on a tremendous scale, hence it is possible to give such big values at so small a cost to you.

We have so much confidence in remedies bearing the Nyal Label that we back each sale with this guarantee—"Satisfaction or money refunded."—what could be more fair to you. In short, if you want results—use Nyal Family Remedies. They can only be bought at

HAVE YOUR MEASURE TAKEN

Don't listen to anybody who says ready made clothes are as good as the custom-tailored kind. There's no argument in the world that is convincing on that point. We have the most perfect system in the country for measuring clothes and if a suit that we make is not correct in every detail of fit we won't let you have it.

LAKEVIEW TAILORING CO., Next to Stage Office

EVANGELIST SAYS LAND IS FERTILE

William B. Marye Walks Through This Valley on Long Trip.

William Bolivar Marye, traveling Evangelist who has traversed the continent from San Francisco to Portland, Maine, and from there to Portland Oregon afoot, recently passed through this valley enroute to San Francisco. In his travels over the continent he has covered 25 states from Ocean to Ocean and twenty thousand miles in distance. He left California in 1903 and reached New York City in 1910, having come by Lakeview on his trip, stopping here September 16, of that year and at which time he occupied the pulpit of the local Baptist Church. On his present trip, he expects to reach San Francisco September 15, continuing to Los Angeles and then proceed east going by way of Arizona.

Mr. Marye, in his general observations across the continent, says there is a great future in store for the Goose Lake valley and especially that part which lies on the west side of the lake. He stated that on his former trip across the country ten years ago he traversed a territory now known as the Twin Falls country south and west of

Shoshone Falls, Idaho, which at that time was in a wild state and was covered with sagebrush, inhabited by coyotes and jack rabbits for twenty miles and void of water. But now at this time water has been conveyed to that territory through canals constructed at the instigation of the U. S. Government, and that the then waste lands were allotted by drawing to actual settlers and at this time there is a city of 5,000 people with railroad connection. The surrounding country is being highly farmed in alfalfa, wheat and oats, in production of oats at not less than 100 bushels to the acre; wheat from 50 to 60 bushels, and alfalfa at 12 tons per acre.

Mr. Marye says that the lands in wild state in this valley are identical to that of the Twin Falls, Idaho, country, which is now valued at from \$300 to \$500 per acre, all through the use of irrigation and cultivation. He says the land south and west of Lakeview, which is now considered of low value by some people, in five years time cannot be bought for \$200 an acre.

"Some people in this country need to travel a little," says Mr. Marye, "to find out the advantages and opportunities at home." In a communication to the Examiner he gives the following advice to residents of this country: "Don't become a moss-back in your young days and let others pluck the plum while you are crowsing." He states that sagebrush land seven miles east of Umatilla, Oregon, uncultivated, but under water, sells at from \$300 to \$500 per acre.
