## NEW PINE CREEK DEPARTMENT

DEVOTED TO LIVE NEWS NOTES OF THE STATE  
LINE TOWN SPECIAL CORRESPONDENCE

Henry Wendt, Jr. made a business trip to High Grade mines last Friday. George Wendt, our telegraph operator left Sunday night for Cedarville with a party of Cedarville friends.

We are informed that there will be a Base Ball Tournament at Fairport and New Pine Creek some time this Fall.

The Foster Elliott Co. will play at New Pine Creek two nights this month Aug. 28 and 29. This is a first class company and should receive a good patronage.

R. L. Sloss of the Alturas New Era was shaking hands with old friends at New Pine Creek one day last week. He spent several days at our beautiful summer resort, Fairport, Calif.

There will be a hot time in New Pine Creek next Friday night. An all-night dance will be given. Excellent music will be furnished by the Lakeview Band. Everybody come and hear some fine music.

Mr. Max Lauer, the well known business man of Alturas, who has been spending his vacation at Fairport returned home the latter part of the week. Mr. Lauer is a very pleasant gentleman and we hope to see him

back again soon.

The New Pine Creek Base Ball team met a sad defeat at the hands of the Lakeview team last Sunday. The trouble with our boys is that they do not practice. The new ground will be ready this week and we hope to see the boys get out and practice.

Word came by phone Tuesday about two o'clock stating that W. G. Pennington Engineer at the Modoc Mine at High Grade had fallen from the ore track and the ore car fell on him, breaking his leg, one rib and he received some bruises about the head. R. L. Wade took Dr. E. H. Amsden up as soon as possible and we are informed that Mr. Pennington will be brought to the New Pine Creek Hospital.

We are glad to report the arrival of a 7 1/2 pound baby girl at the home of Mrs. and Mrs. D. W. Thomas, born Sunday August 17, 1913. The mother and baby are doing nicely but we do not know about the father. We heard that he had a phonograph played in his place of business the next morning, singing "Oh I wish it was a Boy." But we note that he is stepping pretty high and carrying a big broad smile and it does not look as if he is at all disappointed.

tained as City Superintendent and the success of the school last year, in regard to work done and interest manifested in all school activities help us to feel that the achievements of this year will be still greater. Miss Marie Church, a graduate of the State Normal School and who has taught in Corvallis for three years will have charge of the High School English while the History and Latin will be taught by Miss Lou Hostettler of The Dalles. Miss Hostettler is a graduate of Whitman College and also of the Oregon Normal School at Monmouth. She comes well recommended. Miss Edna Wolf, of Nerstrand, Minn., is a graduate of Hamline University from which she holds a Ph. B. degree. She is a young woman of experience and resources and will make a valuable member of the High School Faculty. Mrs. Eva M. Gardner who had charge of the Domestic Science and Art last year and made of it such a success has been retained another year and Mr. John B. Garrison of Pittsburg, Kansas, will this year have charge of the new department of Manual Training. Miss Sylvia Fletcher who was with us last year has the eighth grade and Miss Maude Knight returns to take the seventh grade. Miss Frances Smith of Ohio will have the sixth grade and Miss Mabel Snelling who had fourth grade last year will guide her pupils through the Fifth grade. Miss Frances Lees of Portland has been chosen to fill the fourth grade made vacant by Miss Snelling. Miss Bessie Burgess is selected for the third grade. Miss Gertrude Vernon the second and Miss Pearl Hall the first grade.

The teachers who remain from last year are "tried and true" and those who are coming to fill vacancies come well recommended. The expense of attending school at Lakeview is very nominal. In fact an invitation is extended to the boys and girls of Lake County to come to Lakeview. No tuition will be charged and living in Lakeview is as cheap as anywhere in Lake County.

Pupils who have passed the eighth grade examination and who do not have access to a high school are especially urged to attend Lakeview School and prepare for some life work or for some school of higher learning. Many students are attending school and living in some of the town homes where they are able to earn a part or all of their board and room. Do not do without an education because of poverty. "Find a way or make it." Plan to attend a high school in your own county and that way save expense to you and help build up your community.

Great care has been exercised this year in hiring instructors for both the High School and the grade departments. O. M. Gardner, Ph. D. has been re-

### Plimpton Named Sec'y

The Star Printing Board has appointed W. M. Plimpton, who has been in charge of the State Printing Office the past two years, as secretary of the board.

It is said that this was done to counteract the adverse sentiment created by Governor West naming R. A. Harris for State Printer to succeed the late W. S. Duniway. The board also decided to require a plant and appointed a committee of three members to negotiate with Mrs. Duniway for the present plant.

### Suspected Men Freed

Monday evening the preliminary hearing of Lewis Lamb and Lenard Parker, the two boys charged with the stealing of a saddle from the livery barn of W. J. Dykeman, was held in the County Court house. Mr. Umbach acted as committing magistrate, Thos. S. Farrell and E. R. McKee represented the state and Herbert P. Welch appeared for the defendants. The taking of testimony occupied the entire evening and the judgment of the Court was postponed until the following morning.

The Court refused to bind the boys over to await the action of the Grand Jury on the ground that the only witness who testified against the defendants told so many conflicting stories under cross examination that no reasonable man could under the circumstances give his testimony any credence.

The two boys who were arrested by the Sheriff Saturday had come to Lakeview via Reno in company with a boy by the name of Wallace about two weeks ago. After the saddle were stolen from the Mammoth Stables this young Wallace offered to tell where the saddles were hidden and volunteered the information that Parker and Lamb were the guilty parties. Wallace is now "doing time" in the County Jail for the theft of a pistol from Hanson's construction camp at the Drews Canal.

### Evidence Was Lacking

Tuesday afternoon one Bill Sonnigsen was arraigned before Justice of the Peace Chas. Umbach, charged with giving away cocaine unlawfully. The state was represented by Thos. S. Farrell and Sonnigsen was represented by Herbert P. Welch.

After putting on all of its testimony the state was compelled to listen to a motion to dismiss made on the behalf of the defendant on the ground of an insufficiency of evidence. This motion was granted and Sonnigsen was discharged from custody, the court holding that the state had failed to sufficiently prove that the substance which the defendant passed to the third party was cocaine or any of its derivatives or compounds.

### CAUSES OF STOMACH TROUBLES

Sedentary habits, lack of out door exercise, insufficient mastication of food, constipation, a torpid liver, worry and anxiety, overeating, partaking of food and drink not suited to your age and occupation. Correct your habits and take Chamberlain's Tablets and you will soon be well again. For sale by all dealers.

## HAVE YOUR MEASURE TAKEN

Don't listen to anybody who says ready-made clothes are as good as the custom-tailored kind. There's no argument in the world that is convincing on that point. We have the most perfect system in the country for measuring clothes and if a suit that we make is not correct in every detail of fit we won't let you have it.

## SCHOOL OPENS SEPT. 11TH

(continued from first page  
for class recitations.

The science department is well equipped with physical apparatus, and a new chemical laboratory has just been ordered for installation. Some interesting experiments may be also given in Botany, Agriculture and Physiography. With the present plant the school can do splendid work and expects such from each student.

The school this year is adding Manual Training which is to be one of the leading school features. Chemistry is also new and will be furnished with a complete laboratory.

The aim is to add Agriculture next year laying special stress on Horticulture, Dairying, and quality of soils. In fact the real aim is to add from time to time such work that the school at Lakeview High School will be one of the best in the United States.

The Stereopticon will be used very much this year both in class work and in the evening program to assist students in comprehending many things in Geography, History, Science, and Literature. The value of these machines in making plain to the mind by the aid of pictures cannot be estimated, and the pleasure and reality is of great benefit to the pupil.

The regular eight grades of school will be maintained this year. The first and second grades in the Primary Building the third grade in a room of the old School Building and the remaining five grades will be in the High School building. Supervision will be more carefully exercised this year and with hearty co-operation on the part of parents, teachers and pupils, Lakeview may expect a school of the very
