Stage Coach Race, Pendleton Round-Up, September 11, 12 and 13.

PENDLETON SHOW A NATIONAL EVENT

Open Air Features are Peculiar to Rocky Mountain States.

Pendleton, Oregon, Aug. 19. "It need occasion no surprise to hear of the increased numbers who want to attend the Round-Up at Pendleton," says Wm. McMurray, general passenger agent for the O-W R & N in an interview in the Portland Journal of August 8th. "It is distinctly the show of the continent in the events it features. I do not mean to detract from the other performances given in the different cities, but there is only one Pendleton, and one Round-Up. There is enough thrill in any one of the several performances at Pendleton to give the ticket holder his money's worth, and the management throws in enough additional thrills to make it the greatest show of its kind on earth. I am told that a number of new and interesting features are to be added this year. Personally I do not see how the Round-Up can be improved on as heretofore given, but the managers are always looking for something new and they invariably round it up." The dates are September 11-13.

CO-OPERATION FOR FARM BENEFITS

United States Will Unite With A. O. C. in Demonstration Work.

The United States Department of Agriculture, through the division of farm management, will co-operate with the Oregon Agricultural Colleges soon as the federal government is able to make the necessary adjustments. This important step was definitely decided upon at a recent conference held at the Oregon Agricultural College between President W. J. Kerr and R. D. Hetzel, Director of Extension, representing the college, and C. B. Smith and Byron Hunter, acting for the federal government. The new arrangement calls for co-operative overhead supervision of field and farm demonstration work by the federal and state departments. When put into operation the plan will have the advantage not only of furnishing financial aid from the federal government, but of bringing the help of the great federal organizations and the information in its possession, directly to the farmers of Oregon. Mr. H. T. French, will have immediate supervision of this department of the extension work.

PROMULGATION OF MACHINERY LAWS

Employees Protected By Rules of State Bureau of Labor.

In pursuance and according to the conclusion reached at the recent conference of the State Bureau of Labor at Salem, the following rules will be enforced.

- SLASHERS—All guards on slasher saws must be continuous so as to cover the entire series of saws; the guard to be made solid and to extend beyond the range of the saw at least 24 inches, and the height from the platform to be not over an inch above the arbor line.
- BOILERS—1. All horizontal tubular boilers must have fusible plugs, placed in rear tube sheet at least 2 1/2 inches above top row of flues. 2. All fire box boilers must have fusible plugs, to be placed at the highest point of crown sheet. 3. All safety valves must be examined frequently and kept in good working condition. 4. All boilers must be provided with three water gauge cocks. 5. All boilers must have blow off connection at the bottom of the back end or lowest point of boiler. 6. All water glasses in boilers must be properly guarded.
- SPIKE ROLLS—Spike rolls used for conveying lumber in the mills or yards must be discontinued.
- LINOTYPE AND MONOTYPE MACHINES—All metal pots on linotype and monotype machines must be piped so as to carry vapor out of the room.

Free Forest Maps

Helping along the campaign of education marked out by the United States forest service, a new map of the forests of Oregon has just been issued and is being distributed to anyone who wants one. The map shows every road, trail, cabin, railroad, school house, meadow, store, ditch, hotel, stage station, electric road, ranger's station and forest service tool house in the whole territory covered, which is furnished for the guidance of travelers and pleasure seekers. That the lesson of obedience to law of state and nation and the regulations to prevent fires may not be overlooked, the back of the map is devoted to a summary of the game laws, the rules for campers, the regulations against pollution of streams and other matter for the information of those who enter the forests. Other maps covering other forest areas will be issued from time to time.

Et. Rock: A. D. Lang has sold his 320 acre claim as well as ten head of horses and some machinery. The land is said to have brought \$15, an acre, a party from Canby, Oregon was the buyer.

HOGS DECLINE; SHEEP STRONGER

Top Grade Beef Brings Good Prices in the Portland Market.

Receipts for the week have been: Cattle 2171; Calves 18; Hogs 2020; Sheep 6503; Horses 27.

Fairly heavy run of cattle for the week, both native and Southern stuff. Few extra choice steers in the run, prices remaining steady for top grades, but going lower on medium class, especially cows and heifers. Fancy native steers sold from \$8.25 to \$8.35. Lower grades \$7.50 to \$8.00. Choice cows and heifers selling around \$6.25 to \$6.50, with lower grades \$5.75 to \$6.00. A wide range of prices between choice and ordinary stuff.

A big decline in the hog market, with tops going from \$8.25 to \$8.60, with a general weak undertone. Light liquidation at week's close.

The sheep market strengthened a little for the six day period. Heavy receipts the first of the week and holding up fairly well to Thursday. Some lambs coming forward with slow outlet at steady prices. Prime yearling wethers selling \$4.00 to 4.35—choice ewes \$3.50 to \$3.85. Best lambs \$5.00 to \$5.50.

Big Forest Business

Washington, Aug. 10.—The national forest business done during the fiscal year which ended June 30 surpassed all previous records. The receipts from the forests approached \$2,500,000, of which about one-half was for timber, while contracts entered into for the sale of timber to be cut either at once or in later years totaled about \$4,000,000. These sale contracts permit the cutting period to extend over a number of years when large bodies of timber are involved.

Under existing laws 35 per cent gross receipts, or between \$800,000 and \$900,000, will go to the benefit of the states in which the forests are situated, for schools and roads.

The Remington-UMC large the steel lining

Will Boost Your Shooting Average

TRY the Speed Shells this season; they get the load to your bird quicker than any other shells you ever used. You take a shorter lead—angles bother you less—you get more birds.

The speed of these shells is due to the steel lining—to the way it compresses the smokeless powder and keeps all the punch of the explosion right behind the shot, where it belongs.

Get Remington-UMC Steel Lined Speed Shells of the live dealer in your section. See that the Red Ball mark is on every box of shells and metallics you buy.
