SOWING THE SEEDS OF WISDOM

State Superintendent of Public Instruction Churchill has announced that he has inserted in the grade course of study for schools over the state, a number of selections for memorizing, among which are selections from the Bible. The Examiner takes this as a matter of importance, and although it may be true that the average citizen pays little regard to the quality and character of literature presented to his children in the school readers, and for that reason the policy adopted by Superintendent Churchill may not appeal to so many people as particularly significant. But we believe if this particular policy be carefully examined it will be found to be excellent.

Certain selections from the Bible and from general literature, the later old stand-bys well known to the school boy and girl of a generation ago, are to be incorporated in the school readers from the sixth to the eighth grade. They are selections that embody that which is universally recognized as the best in moral philosophy, and in style, expression and sentiment. They disclose the thoughts and the style of thinking and writing with which school children ought to become familiar at an early age—earlier, as we believe, than the age of children in the sixth grade and up.

In this connection, it is to be said upon an examination of the readers of the lower grades, that the selections are of varied excellence, comprising as they do, fairy tales, fables, little anecdotes from the lives of great personages, and the best class of verse likely to appeal to children of that age.

In fact, it may be said of the reading course in the state schools that, upon the whole, it is of high standard, and this departure by the Superintendent of Public Instruction only supplements its general merit.

These gems of the thinkers and masters of style are assuredly the sort of seed to be sown in the young mind. We need as much as ever we may to bring that mind to the contemplation of lofty sentiment. None of us can tell how much this sort of thing enters into the framework of character. No one can say in what soil these seeds of wisdom are sown, nor what the harvest will be.

The banks of Portland and of different points of the Northwest as well as California declare there is no need for any fifty millions of dollars offered by Secretary McAdoo for use during crop moving time; and that they have plenty of money to handle the crops and all other business of the coast. This is a very encouraging report and shows that the country is in good condition financially, but it took the announcement of the Secretary of the Treasury to make them declare themselves so, at least publicly. We all expected that they had plenty of money, as no doubt did Secretary McAdoo himself, but his action will put an end to their pessimism, and will prevent the large bankers from scaring the people with their usual threats of a financial scarcity.

ADDITIONAL BRIEFS

Walter A. Sherlock came up from Alturas the first of the week in his auto.

Owing to the extremely hot weather the inoculation of rabbits last Sunday on the West Side proved unsuccessful. It is said that some of the rabbits died immediately after being driven into the pen, and before the bacteria could be administered. The remaining rabbits died shortly thereafter. The farmers will repeat the inoculation later this Fall when the weather is cooler.

Francis Burton Harrison of New York has been named as the new Governor of the Philippine Islands, the resignation of W. Cameron Forbes having been accepted. Mr. Forbes has been governor of the Islands since 1909, and his removal from office was urged by Representative Jones of Virginia who is pressing for the passage of a bill giving independence to the Philippines.

The work of some skulking chicken thieves in the vicinity of the Shirk, Bieber and Tracy residences has been reported this week. Fowls in more or less numbers have been recently stolen from each of the above. The attention of the local authorities has been called to the matter and if the culprits continue their nefarious work it is quite likely they will be apprehended.

Deputy Game Warden La Sater of Silver Lake reports that a move is on foot to secure 25,000 fish for the streams around Silver Lake. He states that the necessary money to transport the fish from Bend to that place has been raised by subscription and the fish will be delivered on the last trip the state car makes to Bend. The total expense required to get the fish is estimated at \$45.

J. B. Blair of the Hotel Lakeview is sure that he has the premium cornered on the best string beans at the coming county fair. The beans which are the "Kentucky Wonder" variety, were picked in the green stage and have been preserved in brine. The pods are very plump and each measures nine inches in length. They were grown by Mr. Blair's daughter, Mrs. Dovie Reeder, at Chewatcan.

The last chapter in the most sensational Army trial of the year closed one day last week when Waldo H. Coffman, the Socialist agitator accused of detaining the flag and insulting the memory of Vice-President Sherman,

was taken from Fort Stevens, Oregon, together with another prisoner, to spend the period of confinement of one year at Leavenworth, says a dispatch from Fort Stevens to the Portland Journal.

John W. (Bull) Young, the Wyoming heavyweight puglist, died in a Los Angeles hospital Saturday as a result of injuries received in a fight with Jess Willard at that place, which he was knocked out. Immediately after his death warrants charging man slaughter were issued against Willard and eleven others connected with the fight. It is predicted that this ring tragedy possibly marks the end of boxing in California.

Cucumbers measuring 24 1-2 inches in length and 7 3-4 inches in circumference in the largest portion are now on display in the window of the Examiner office. This may sound like a cucumber story but they are here to show for themselves and were grown by George Barrington about eight miles south of Lakeview. He says they are called Snake Cucumbers and judging by their appearance the term is quite appropriate.

Wm. Harvey, the local horse buyer, returned this week from Surprise Valley where he took his bunch of 75 horses recently purchased on a trip through Eastern Oregon. Some Government Inspectors were to appear in Surprise to buy cavalry stock, but as they failed to show up Mr. Harvey is bringing his horses to this valley where they will be placed on pasture.

Harry K. Thaw who is now in jail at Sherbrooke, Quebec, has been informed that he is an undesirable citizen, but that Canada does not want to surrender him without protection. Thaw was told by the Canadian authorities that he must decide for himself whether to stay in Canada or be deported to Vermont. And Harry has not decided. After an exhaustive examination, by Dr. Joseph Noel jail physician, Thaw was pronounced sane, which adds another tangle to the already complicated condition of the slayer of Stanford White.

The Examiner has received some postal cards from the Extension Division of the Oregon Agricultural College which may be used in getting reliable data free concerning various problems which are invariably confronting farmers. Among the subjects enumerated upon which data can be had are: Agronomy, horticulture, gardening, livestock, poultry, dairying, crop pests, plant diseases, economics, bacteriology, farm buildings and a number of other subjects. Anyone desiring to make inquiries can have free use of the cards by applying at this office.

J. E. McCool is having lumber hauled to his place one mile west of town, that he bought from George Jammertal, and will build a house, barn and outbuildings preparatory to going into the dairy business. He recently bought the herd of 19 dairy cows from Max Bode. The ranch is an ideal location for this business, and it now cuts about 160 tons of hay and could be made to produce more. Ira McCool and wife, who are now on the Hurley Vernon place below town, will remove to the McCool ranch as soon as the buildings are up, and he will have charge of his father's dairy business.

A very enjoyable surprise party was held last Thursday evening at the home of Mr. and Mrs. E. J. Stone, in honor of Mr. Stone's 56th birthday. Mrs. Stone was hostess, and the affair was made more enjoyable by the appearance of the members of Darnell's band, of which Mr. Stone is manager. A sumptuous birthday dinner had been prepared and the house was prettily decorated for the occasion. Among the presents received was a box of choice cigars given by the members of the band as a token of their appreciation of the faithful services Mr. Stone has rendered that organization.

Lionel R. Webster, of Portland, formerly circuit judge of Lake, Klamath, Jackson and Josephine Counties, and William Hanley of Harney County passed through Lakeview last Saturday evening in the Hanley car on their way to Burns, where the former was going on business, and Mr. Hanley returning to his home. Both the Judge and "Bill" have numerous friends in Lakeview who regretted that their visit was of so short duration. They were accompanied from Klamath Falls by Mr. Leonard who was returning to Burns after attending the Development League Convention.

The United Railroads of San Francisco, held by the United Railways Investment Company of New Jersey, has been sold to a San Francisco Banking Syndicate, headed by Mortimer Fleischhaecker, of the Anglo-California London Bank. The United Railroads has been under the personal management of Patrick Calhoun, who broke the strike of 1907, and thereby incurred the hatred of all the labor unions of San Francisco. This hatred has been used to boom the project for the establishment of several municipal railroads, a bond issue for which was voted upon in that city Tuesday. The issue was for \$3,500,000 and carried by a vote of 4 to 1.

Legal Marriages

The attorney-general has advised W. E. Marsh, pastor of St. Paul's M. E. church at Tacoma, that a divorced person may remarry in some other state permitting it in less than six months from the date of the divorce and then come to Oregon and have the marriage considered legal in this state. In this state a divorced person cannot remarry within six months after obtaining a divorce. The attorney general also held that a physician cannot charge more than \$2.50 for issuing the marriage medical certificate which is required to be obtained by prospective bridegrooms. These certificates must be made under oath.

Letter Sales Abolished

The annual "dead letter" sales, which have been an annual feature of Washington for years, have been abolished by Postmaster General Burleson. Hereafter all undelivered third and fourth-class matter which has been heretofore sent to the division of dead letters will go to the postoffice at the headquarters of the railway mail service of the division in which the matter is destined. There the matter of manifest value will be held for one year, subject to reclamation and then sold at auction. The post offices which will handle the dead letter mail are Boston, New York, Washington, Atlanta, Cincinnati, Chicago, St. Louis, San Francisco, Cleveland, St. Paul, Ft. Worth, New Orleans, Seattle, Omaha, and Pittsburg.

A GOOD INVESTMENT

W. D. Magli, a well known merchant of Whittemound, Wis., bought a stock of Chamberlain's medicine so as to be able to supply them to his customers. After receiving them he was himself taken sick and says that one small bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy was worth more to him than the cost of his entire stock of these medicines. For sale by all dealers.

The Band Dance was a grand success. Everybody had a fine time. The Lakeview Band can surely furnish the music and are all jolly good fellows. There were people from Lakeview, Willow Ranch, Davis Creek, High Grade and Cedarville. We all hope to see the Band back again before many weeks.

A warm rain, which was apparently quite general over this valley, fell yesterday evening and last night, which had a pleasing effect in reducing the atmosphere. This morning dawned bright and clear, and the shower will have but light detrimental effect on the crops being harvested.
