Real Estate, Lakeview, Ore.

## HEALTH HINT FOR TODAY.

**Typhoid Immunization.**  
"Typhoid fever," says the commissioner of health of Seattle, "is no longer necessary. The advance of medical science has made the complete eradication of this disease possible. Smallpox was considered a necessary evil until the efficiency of vaccination was proved by Jenner. The last few years have demonstrated that immunization against typhoid fever may be practiced almost as effectively as against smallpox. During the Spanish-American war the prevalence of typhoid fever among our enlisted soldiers was certainly a discredit. During the recent mobilization of troops on the Mexican frontier immunization against typhoid fever was practiced, with the result that among some 12,000 men living in camp life there developed but two cases of infection. During the encampment numerous cases developed within the adjoining cities, where there was every opportunity for more efficient sanitation than there is in the ordinary camp maintained by an army. Further, the two cases of fever that occurred developed in two individuals one of whom had refused to be immunized and the other had received but two of the treatments advised. This is a record of which the army medical service may well be proud." Typhoid inoculation is generally less troublesome to the patient than vaccination against smallpox.

### Sulzer is Eighth

Martin H. Glynn has been declared acting Governor of New York out of the impeachment of Governor Sulzer. In all the United States' history, only seven other Governors have faced impeachment proceedings: These men and the results that followed were: Charles Robinson, Kansas, 1862, acquitted; Harrison Reed, Florida, 1863, charges dropped; William W. Holden, North Carolina, 1870, removed; Powell Clayton, Arkansas, 1871, charges dropped; David Butler, Nebraska, 1871, removed; Henry C. Warmouth, Louisiana, 1872, term expired and proceedings dropped; Adelbert Ames, Mississippi, 1876, resigned.

### Registration Increased

Assistant Secretary of State Koser estimates that there will be an increase of 100,000 or more in the total registrations of the state prior to the next election primaries, which will be held the third Friday in May, 1914. The total registration prior to the general election of 1912, when only males were permitted to vote, was approximately 160,000, and since the women have been accorded the privilege, it is expected that the voting population will not fall short of 250,000 and may reach 300,000.

Since the new permanent registration law went into effect, the county clerks reported to the secretary of state, up to August 22, the registration of 11,701 voters. Of this number only 14 are shown as registered in Lake County.

### GOOD REASON FOR HIS ENTHUSIASM

When a man has suffered for several days with colic, diarrhoea or other form of bowel complaint and is then cured sound and well by one or two doses of Chamberlain's Colic, Cholera and Diarrhoea Remedy, as is often the case, it is but natural that he should be enthusiastic in his praise of the remedy, and especially is this the case of a severe attack when life is threatened. Try it when in need of such a remedy. It never fails. Sold by all dealers.

### Notice of Public Sale of Property of the United States of America

Notice is hereby given that, pursuant to authorization and direction of the General Land Office, Washington, D. C., the following property of the United States of America, will be offered for sale at public auction, and sold to the highest bidder, at ten o'clock A. M. on September 6, 1913, at the United States Land Office, Lakeview, Oregon, in the public lobby thereof:

One L Shaped Counter. Said sale will remain open for one hour, namely from ten to eleven o'clock a. m. on the day mentioned. Dated this 22nd day of August, 1913. Jas. F. Burgess, Register.

### REMARKABLE CURE OF DYSENTERY

"I was attacked with dysentery about July 15th, and used the doctor's medicine and other remedies with no relief, only getting worse all the time. I was unable to do anything and my weight dropped from 145 to 125 pounds. I suffered for about two months when I was advised to use Chamberlain's Colic, Cholera and Diarrhoea Remedy. I used two bottles of it and it gave me permanent relief," writes B. W. Hill of Snow Hill, N. C. For sale by all dealers.

## LOS ANGELES TO HAVE BEST ROADS

Established Plans Call For Seven Hundred Miles.

TOTAL COST \$7,000,000.

Climatic Conditions in California Enable Proper Maintenance at Small Cost—Four Hundred Miles Already Completed.

Los Angeles county, Cal., is determined to have the very best roads in the United States, according to F. H. Joyner, chief engineer of the good roads commission of that county. Wonderful progress has recently been made there, and the work is being continued on an enlarged scale.

In 1910 the road commission of Los Angeles county was revised, an entirely new staff of officers being placed in control. From the moment that the new men entered upon their duties they immediately began the task of improving the roads, which were in a deplorable condition. Now, after two years and a half of hard work, the roads of Los Angeles county are without doubt the equal of any roads in the United States, and, quoting Mr.

JOYNER, "it is not long before the roads of Los Angeles county will be of any other road system of any county in America."

"One of the greatest reasons why the roads of southern California can be brought to and maintained in such excellent condition," continued Mr. Joyner, "is that the climate there, unlike that of the north, particularly in the northeast, where one half of the year is extremely cold and the other half hot, is fairly even throughout the entire year. These extreme changes of temperature have, of course, a tendency to break up the roadbed, particularly in the spring, when the frost is coming out of the ground, and a road well made one spring is often entirely ruined the next by the frosts."

"For these reasons quite often as much money is required to keep the road in repair each year as was the initial cost, while in southern California little money is needed once the road is well made, and the money the northern counties use to repair the roads can be used to improve more roads."

Already more than 400 miles of road have been macadamized and are being kept in perfect condition, and about twenty miles are under construction. About 300 miles have still to be constructed before the great work will be completed. All of the smaller towns lying in Los Angeles county have been connected with Los Angeles city, and now all that remains is to connect these towns with one another and the roads at intermediate points. Besides the 400 miles of road completed, there is a matter of fifty miles that has been greatly improved, but not as yet macadamized. This is included in the 300 miles that are yet to be completed.

The cost of the work so far has been \$4,000,000. The average mile, of course, has cost \$10,000, although some miles have run as low as \$7,000, while others have run as high as \$15,000, where it was necessary to do a large amount of grading. The cost of the remaining 300 miles will average about the same, \$3,000,000.

### How to Maintain a Road.

There is only one way to maintain a road. The slightest injury to its surface or any defect likely to work an injury must be corrected the moment it appears. Each little depression must be filled in. Every obstruction to drainage must be removed before it has an opportunity to do its destructive work. Such care involves a patrol system, which is nothing more or less than a continuous inspection of the roads by persons capable of correcting defects as they occur and fully equipped to do so. It will be more satisfactory and less expensive in the long run.

### Co-operation Greatly Desired.

The nation can do a great deal of good by showing the states what to do, and the states can do a great deal of good by showing the counties what to do, and all can accomplish the desired end by co-operation in the construction and maintenance of public roads.

**World's Gallery Record—2484 ex 2500**  
Made with Remington-UMC .22 Metallics

YOU are shooting a .22 calibre rifle. You want accuracy, sure fire, penetration just as much as if you were shooting a big game rifle.

Be sure to get the Remington-UMC .22's—made with the same care, from the same tested materials, as the heaviest big game cartridges. They are right.

Remington-UMC .22's cost you no more than ordinary cartridges. Just ask for Remington-UMC—and see that every box of .22's you buy bears the Red Ball Remington mark.

.22 Sports, .22 Longs, .22 Long Rifle—Black, Smokeless and Leemok Powders. For special killing power—get .22's with hollow point bullets.
