Lakeview, Oregon, Thursday, October 2, 1913

THE COUNTY FAIR

If anybody has any doubt of the value of the investment in county fair all he needs to do is visit the exhibit room of the Lake County Fair which is now in progress. This is the first fair the county has attempted to hold in several years, and as a consequence the exhibits and exhibitors have not reached the pinnacle of perfection. But with the inauguration of the event this year and the continuance from year to year it will elevate the standard until there is a reasonable hope that Lake County products may soon fairly compete with the best the state can produce.

In the variety and extent of vegetables and fruit shown nothing better could be looked for. It is really amazing what can be done in this regard and how well it is all done. The work of the women in the display of needle work, domestic science, etc., is deserving of particular mention.

The collection and arrangement of the exhibits reflects a degree of credit upon the County Fair Board and especially the secretary, Mr. W. F. Paine, that cannot be too strongly emphasized.

PEOPLE TO DECIDE

The people of Oregon ought to be reminded that at a special election on November 4, 1913, they are to decide through the referendum the fate of four legislative acts passed by the late Legislature. In the order of their importance they are:

1. Compensation act.
2. University appropriation, \$175,000.
3. Sterilization act.
4. County attorney act.

It makes no great difference to the public at large what becomes of the sterilization bill or the county attorney bill. The one is an experiment in preventive legislation, the other is a change in administrative methods.

The compensation act proposes a definite adjustment of an important phase of the everlasting problems between capital and labor. It is protective and beneficent in its intent, and it may prove conciliatory and determinative in its results.

The significance of the university referendum lies not so much in the amount of the appropriation as in the broader issue of adequate support for the State University. If the bill shall pass, the people will have stood by the university; if the bill shall be rejected, the people will have approved the conspiracy to overthrow the university and education in Oregon.

EXPENSIVE INDULGENCE

Much has been said lately concerning the high prices of beef, and considering the present cost of the product much discussion is warranted. The American Meat Packers Association which recently met in Chicago discussed the problem of how best to spend the \$500,000 appropriated to educate the public against waste. President Meeker of the Armour & Company, proposed that the marketing and slaughtering of calves be stopped, and that the people be educated not to eat veal. He declared that 10,000,000 calves are slaughtered annually,

each netting about 60 pounds of meat. If allowed to reach the age of two years, he said, each would net 600 pounds. Thereby, President Meeker showed where one-third of the annual supply of cattle was wasted to satisfy the demand for immature meat. Further than this it is contended that the nutritive value of veal at the best is slight, and in no way approaches beef as a food.

Why not preserve the calves?

One of the largest Transatlantic steamship lines has recently announced that it will discontinue calling at Queenstown. The reason for this is said to be that dependence upon Irish emigration is no longer profitable. The Irish are staying at home—the first time in seventy years that she is not losing population. Ireland had an actual increase in 1912 and her population today is nearly 4,500,000. The Emerald Isle is again coming into her own, as favored by the land law passed a few years ago, many of the farmers now own the land which they till. That Home Rule is coming to Ireland is generally conceded. If passed again by the present commons the bill will become a law, for the lords cannot veto it a third time. Ireland's new lease of life is cause for general rejoicing throughout the civilized world. A people who could hang on to life under adverse circumstances which met the Irish are capable of great things once full opportunity is afforded them.

ADDITIONAL BRIEFS

Modoc Republicans: The report has been current the past week that Rooster Kerr had fallen heir to the Blarney Castle in Ireland, and was now a real duke. He is probably the long lost duke—there is no question any way that he is long.—We are glad to hear of Rooster's good fortune, but are puzzled to know whether he will be a rooster duke or a duke rooster.

Two drug-crazed mulatto boys, brothers, began a reign of murder at Harrison, Miss. last Sunday morning, that ended only after three white men, four negroes and a negro woman had been killed, several persons injured and two negroes lynched. The two maniacs were finally cornered in a house and one shot while trying to make escape and the other caught and lynched.

Word was last week received that twin babies, a boy and girl, were born to Mr. and Mrs. Jay Billings who are now at Wallawa, Oregon, and their local friends were later informed that they had the sad misfortune to lose the boy. Mr. Billings was formerly stationed at Lakeview where he was Deputy Supervisor of the Fremont Forest. He with his family removed from Lakeview last Spring.

The Monday issue of Reno Gazette had one section devoted entirely to Modoc County, California. Aside from pointing out the resources and advantages of the county to our south, the Gazette contained several short stories of prominent personages and principal industries of Modoc. The issue was a credit and will be beneficial in an advertising way to the county and surrounding country concerned.

The party composed of Harry Bailey, A. L. Thornton, R. A. Hawkins and W. R. Bernard returned Tuesday evening from Guano Valley where they have been on a several days hunting trip. They give out conflicting reports regarding the number of deer they tagged but we get it from good authority, a person not in the party, however, that they returned with six carcasses, all of which were killed in Nevada.

Ft. Bidwell News: Joe Bruner, at one time Deputy Recorder of the High Grade Mining District, was seen by Fort Bidwell residents in San Francisco a few weeks ago. He had mysteriously disappeared from High Grade last winter and his whereabouts caused uneasiness and alarm among his friends, as it was thought that he had met with foul play. However, he is very much alive and in good health.

The Alturas papers report that the jury trial of Negley and Leonard vs. the N.-C.-O. and H. L. Sison held at that place last week, resulted in a verdict in favor of the plaintiffs. The case grew out of the alleged non-delivery of a consignment of goods. C. W. Class of Lakeview, who was agent at Alturas at the time the transaction occurred and Commercial Agent T. E. Giller of Reno were called as witnesses in the case.

Burns Times-Herald: W. F. Hiesner

has disposed of his pool hall to C. M. Faulkner who took charge of it the first of the week. Mr. Hiesner goes to outside points for a couple of weeks but will return to look after his other interests. Charley Faulkner is a very popular young man and his success in the pool hall is assured, as he will keep it up to its present standard and cater to a class of trade that will make it a paying business from the start.

Secretary McAdoo has deposited in national banks of the country \$24,159,000 of the \$50,000,000 crop moving fund. Of this amount Oregon is to get \$800,000 as her share, and \$350,000 which represents the portion of the First National Bank of Portland has been placed on deposit in New York. There is no actual transfer of the coin but merely a credit deposit in favor of the Portland bank with its correspondent in New York City.

Deputy District Attorney T. S. Farrell and Assessor A. J. Foster Friday returned from a combined business and pleasure trip to the Coleman and other valleys east of Fosh. They did not bag any venison, giving as a reason that several Nevada Indians had recently been in that section making a raid on the deer. Mr. Foster states that he found several new settlers in the eastern part of Lake County and added some new names to the assessment roll.

A toast "to the Panama Canal and the 1915 International Exposition, which celebrates its completion," will be offered throughout the nation at every dinner, luncheon or banquet held Friday, October 10, the day set by the United States government for blasting the last dike to allow the water to enter the Panama Canal. President Moore of the Panama-Pacific exposition has proposed the idea, and San Francisco is making preparations on celebrating the event.

It is stated by officials of the Northwestern Fruit Exchange that over anxiety on the part of growers to dispose of their fruit is costing them many thousands of dollars as many of them have sold their apples at prices 25 to 50 cents below the actual market value of the fruit. They state this is one year when the grower can practically name his own price for the better grades of apples and that a little care and patience in marketing will result in handsome additions to the bank account.

W. H. Caldwell, of Warner Valley who has been under a physician's care in Lakeview the past several weeks, this week left a sample of peaches at this office that were grown by T. H. Dew on the C. W. Dent ranch near Adel. They are a late variety, possibly Alberts, and are excellent in both quality and appearance. Few people realize that such fruit could be produced in the Warner Valley, or even in this section of Oregon, but the peaches show for themselves what can be done where horticulture is practiced.

Writes Worthless Checks

Sheriff W. B. Snider last week went to Paisley to arrest F. M. Mills, a young man who last week passed two fraudulent checks in Lakeview. The checks were drawn on the First National Bank of Paisley in which institution it is said he claimed to have a \$200 deposit. One of the checks in the amount of \$40 was cashed by George B. Worpton of the Inn, and the other for \$20 was passed at the Hotel Lakeview.

The two checks in their respective amounts were redeemed, but the defendant is being held in the county jail on criminal action, he having waived preliminary hearing.

Man's Achievement

In less than four weeks, small vessels can pass through the Panama canal. In December, freighters of ordinary size should be able to pass from sea to sea.

Water has been admitted at both ends and in the middle. The Atlantic end is navigable for service vessels. Gatun lake is filling up.

October 5, water will be let into Culebra cut, nine miles long. Excavation in the cut is already finished, and the admission of water only awaits removal of the machinery.

There is almost visualized evidence that the great work at the Isthmus is nearly finished. The ships actually moving through the waterway will soon be ocular proof of how man has broke the backbone of a hemisphere and actually joined the two oceans by separating two continents.

Silver Lake Items

(Silver Lake Leader)

Eph Miller and Guy Graham returned from their great trip to the headwaters of the Sprague, last Saturday. The trip was a great success in every way but one, they failed to bag any game.

H. A. Brattain returned last week from an extensive trip through Oregon, Washington, and British Columbia. He reports a great shortage of cattle in all the territory which he visited. Almost no herds were seen on the different ranges.

G. S. Minton brought in some excellent samples of White Giant Car-

LADIES' COATS

FOR FALL AND WINTER WEAR

In viewing the beautiful Coats for Ladies and Misses, an admirer of the artistic cannot help being pleased. The garments the coming season show real art in designing. The length of the coat this season is sufficiently short to show the vent or drape of the dress skirt. The cut-away effect is carried out in most every garment, and the collar usually buttons to the neck. Trimmings, while used very sparingly are of vivid colors and extreme in their contrast

The fabrics are almost exclusively of the rough or the unfinished class, namely, Boucle, Zibiline, Chinchilla, Astrachan, Brocade Coating, Eponge and Novelty Cheviots. The wide range of styles we show are from the foremost makers of the country, at value-giving prices.

\$12.50 to \$25.00

WE ALSO CARRY A LINE OF CHILDREN'S AND GIRLS' COATS

R & G Corsets lend style to every figure, \$1.25 to \$3.00.

Simmons guaranteed Gloves for Street or Dress Wear, \$1.50

rots and of red and white onions, from the White Hill Ranch. They received only one irrigation during the season so are really dry farmed. They are now on exhibition at this office and must be seen to be appreciated.

The dredger of the Chewaucan Land and Cattle Company is now complete and was put in operation for the first time last Saturday, it worked perfectly and active operation was begun last Monday. The digging where the dredger sets now is rather difficult on account of the heavy gravel and rock but as soon as the present channel of the river is left behind faster work will be accomplished. It is estimated that about one mile per month can be dug on the proposed canal.

Paisley Pick-ups

(Chewaucan Press)

Zec Harris, of Summer Lake, was in town last week. He reports the sale of his beef cattle at \$12.50 per hundred.

Frank Jamison has bought his brother William's interest in the cattle. He will take them to Bear Creek Buttes before winter, where he expects to range them.

Reports from Lake are to the effect that grain is giving a good yield and is of good quality. It looks as though Lake would be the grain emporium this year, instead of Fort Rock and Fremont as formerly.

F. M. McLeome, of Klamath Falls, was in this vicinity the first of the week looking for prospective cattle buyers. He recently shipped in several carloads of Arizona stock cattle to Klamath Falls, which he wishes to dispose of.

L. G. Comstock, who has conducted the Comstock hotel at Klamath Falls for the past four years, was in town Saturday night. He has filed on a homestead near Buffalo, and will move to his new location in about six weeks.

Mr. and Mrs. Chas. Pitcher and family returned last Friday from Cottage Grove, where they had been visiting for a fortnight. Charley says Webfoot looks pretty good but Lake County looks a mighty sight better. They made the round trip over the McKenzie road with their auto, and report the roads good.

Northern Lake News

(Fort Rock Times)

The Inland Development League of Arrow has asked the Oregon Agricultural College for a Farmer's Institute.

Coyotes are suffering greatly for water, just last Friday one came so close to B. F. Talbot at his house that he threw a hammer at it, breaking one of its fore legs, the dog then finished it.

Mr. and Mrs. G. E. Boyd are now in Los Angeles, California, they write that the glorious California climate is not in it with Pleasant Valley. Conductor Reed, long of Viewpoint is also in Los Angeles, all write that they

are homesick for the valley.

The Viewpoint school did not open on September first as was expected. We were unable to find the owner of the building at the time—Conductor Reed—it is now fixed up. Sink and Cliff will withdraw from School District No. 22 and make a new district.

The squatters of this township met at the Broadview store Saturday, where before U. S. Commissioner J. D. C. Thomas they did some tall swearing, seemingly there being no distinction between men and women, as both swore equally well. The object of the meeting was to petition the Secretary of the Interior to designate this township as 320 acre homesteads at filing time.

Royal Arch Masons

There will be a regular convocation of Lak. view Chapter Royal Arch Masons, this Friday evening, Oct. 3, for work in the Royal Arch Degree, followed by a banquet. By order of the Excellent High Priest. Full attendance desired, sojourning companions welcome. H. M. Nolte, Secy.

NOTICE OF ADMINISTRATORS

SALE OF REAL ESTATE
In the County Court of the State of Oregon for the County of Lake.
In the matter of the estate of

Mary E. Kinzey, Deceased

Notice is hereby given that under and pursuant to an order of sale duly made and entered in the above entitled matter by the above entitled Court on the 23d day of December, 1912, hereinafter, authorizing, empowering and directing E. F. Cheney as administrator of the estate of Mary E. Kinzey, deceased, to sell at public auction, to the highest bidder, the real property hereinafter described, the undersigned will on the 1st day of November, 1913, at ten o'clock in the forenoon of said day, sell at public auction to the highest and best bidder, at the place hereinafter set forth and upon the terms hereinafter set forth, and subject to confirmation of sale by the said Court, all the right, title, interest, and estate which the above named decedent had at the time of her death, and also which she may have acquired since her death in and to the following described real property, to-wit: Lots three and four in Block five in Town of Lakeview, Oregon, and E 1/2 of NW 1/4 and N 1/2 of NE 1/4 Sec. 8 Twp. 37 S. R. 21 E. W. M., Lake County, Oregon. Lots 3 and 4 in Block 5 in Town of Lakeview, Oregon, will be sold in a separate parcel, and E 1/2 of NW 1/4 and N 1/2 of NE 1/4 of Sec. 8 Twp. 37 S. R. 21 E. W. M., will be sold in a separate parcel. That all of said real property shall be sold for cash in hand and shall be sold on the premises described as Lot 3 in Block 5 in Town of Lakeview, Oregon. Dated at Lakeview, Oregon, this 25th day of September, 1913.

E. F. CHENEY,

Administrator of the estate of Mary E. Kinzey, deceased. Oct. 2-15
