A DUTY

A case in point illustrating the benefits of home trade to the town itself has been told. It is a subject that permits of elaboration. It was told of a town with the home trade, spirit forged away ahead of a neighboring town which obtained its merchandise from the mail order houses. The advantage of trading at the home shops was made plain, and now a word on the subject of home trade as a duty. As a matter of fact, it is a duty that every citizen with the welfare of his particular community at heart owes to that community. Probably he himself is obliged to earn his living in that town. If so, no arguments should be needed to convince him that home trade is so much his duty that if he is a patron of the mail order houses instead he does not deserve a livelihood from the patronage of his neighbors.

Take a man who earns his bread and butter in another town or city in spite of that fact, it is his duty, too, to patronize the home stores. They are doing business where he has established his home, where he casts his vote at the election time and where his children are going to school. He most certainly owes that town something besides his taxes.

Of course, fair treatment by the storekeeper should be expected, and usually he is shrewd enough to accord it. On the other hand, the thousands who have to their sorrow thought "a pig in the bag" from a mail order house know that "distance lends enchantment—to the view the mail order house takes of the matter. A home merchant cannot very well go behind his announcements in the local papers, while the mail order houses can and do take all kinds of offers in their city papers, knowing full well the best satisfaction a defrauded customer in a remote town can get is to write a letter of protest which goes into the waste basket.

This digression from the subject of home trade as a duty is merely to call attention to the fact that there are more spurious bargains advertised by the mail order houses than genuine ones.

Home trade as a duty ought to be a town slogan. It should be practiced and preached by every man and woman identified with the best interests of the town they call their home.

THE NEW TARIFF BILL

Now that the much talked of and much heard of tariff bill has been signed by the president, it will doubtless be hailed with a degree of satisfaction and relief not only by those who were in sympathy with the legislation but by those who opposed it.

The agitation over the measure the past several months had been more detrimental to general conditions, it is believed, than will possibly accrue from the law itself. American industry and American people now have something to tie to, and it is to be hoped that business transactions will work down to a substantial basis whereby the results will be equal and beneficial to all concerned.

RACES RENEW AN OLD INTEREST

Good Crowds Attend The Sport Last Week--Lakeview Won Games.

The inauguration of the horse racing tournament here last week enlivened a spirit among the local fanciers of the game that has lain dormant for several years. In former years Lakeview was widely noted for its annual racing tournaments, and it indeed, lent a lively attraction to the town. For various reasons interest drifted away from the sport, and left an apparent gap in all late public events that had not been bridged until last week. While there was no thoroughbred racing stock entered, many good saddle horses were here and a great deal of interest was manifested over the ponies.

Large crowds attended all races up to Saturday afternoon, when quite a sudden change in the weather was had, making it most too cold to be comfortable.

The entries and names of owners in the different races follow:

First race, Thursday, 3-8 mile dash: Bear Catcher, Roy Chandler; Blue Dick, Jack Hannan; Flaxy, Dave McAuliffe; Shamrock, Jack Walsh. Flaxy won first money, Bear Catcher second; time 44 seconds. Purse \$132, divided 70 and 30 per cent.

Second race, 1-4 mile dash: Tim Toolin, Jack Hannan; Cash Day, Stanfield Thompson; Shamrock, Jack Walsh; Al Farrow, Geo. Chandler; Flaxy, Dave McAuliffe. Tim Toolin first money; Al Farrow second; time 37 seconds. Purse \$84, divided 70 and 30 per cent.

First race Friday, 1-4 mile dash: Banjo, Billy Frank; Belmont, G. W. Duncan; Tim Toolin, Jack Hannan; Al Farrow, Geo. Chandler; Cash Day, Stanfield Thompson. Al Farrow first money; Cash Day second; time 27 seconds. Purse \$84, divided 70 and 30 per cent.

Second race, 600 yard dash: Flaxy, Dave McAuliffe; Bear Catcher, Roy Chandler; Cash Day, Stanfield Thompson; Pinto, Jack Walsh. Bear Catcher first; Flaxy second; time 38 seconds. Purse \$98, divided 70 and 30 per cent.

Consolation race, Saturday, 1-4 mile dash: Shamrock, Jack Walsh; Pinto, Jack Walsh; Blue Dick, Jack Hannan; Belmont, G. W. Duncan; Banjo, Billy Frank. Blue Dick first; Shamrock second; time 29 seconds. Purse \$50, divided 70 and 30 per cent.

Lakeview won the two ball games from Bidwell which were played Saturday forenoon and afternoon, thereby winning the purse of \$250 which was divided \$150 and \$100. The score of the first game was 12 to 1, and the second 7 to 5. The Bidwell boys received their expenses for remaining over for a game Sunday, which resulted in a decidedly one sided score in favor of the home team. Roy Wallace also gave an exhibition of Roman standing riding after Sunday's game. The day was quite cold and disagreeable which greatly affected the attendance.

NORTHERN LAKE HAS THE GOODS

Country Formerly Considered a Desert Produces Blue Ribbon Grades.

Those doubting that the Northern Lake country was anything but a desert were most surely convinced last week of the error of their ways of thinking when F. A. Remington made his spread of exhibits at the County Fair. Potatoes grown in that vicinity by F. A. Watkins and H. D. Long took first premium over any tubers in the house. While these were not the largest potatoes shown they were the most uniform in size and denoted quality for the best commercial potatoes.

H. H. Hach of Viewpoint received first premium for the best sheaf of rye, and other splendid sheafs of wheat, barley, rye and oats were on exhibition from that section. Mr. Watkins also had threshed oats that yielded 30 bushels per acre and wheat, rye and vegetables that demanded the admiration of the worst skeptics. F. E. Anderson showed the only speltz in the pavilion. This is an excellent hog and stock feed and it is said that it does well in the North end. Aside from the first prizes mentioned other of the exhibits from this district were given ribbons. Mr. Remington went home well pleased with his achievement in showing what can be done in agricultural lines in his section. He represented a vast area of country, and one that will doubtless be developed when the people in general will learn what can be accomplished there.

Harry Heryford and family last week returned to Lakeview from Santa Cruz, Cal., where they have been the past few years.

HIGH OFFICIAL SEES LAKEVIEW

Vice-President of Southern Pacific Investigating Goose Lake Southern.

E. E. Calvin, vice-president of the Southern Pacific Railroad, of whom the Examiner last week mentioned as being on a long trip, passed through Lakeview several days ago accompanied by J. C. Christy, locating engineer of the same road. While here Mr. Calvin met different local people amongst them being Dr. B. Daly with whom he talked quite extensively regarding this country and the operations of his railroad.

Dr. Daly states that Mr. Calvin showed him maps and profiles of the Goose Lake Southern line which is proposed from Lakeview to connect with the Fernley-Lassen branch going through the Pit river canyon, and ultimately to connect with the main road at Red Bluff. What his trip through this section really denotes is only a matter of conjecture, but the fact that so high an official of the largest railroad system in the country would make this personal investigation would appear to signify some intended action of no little importance.

Paisley Pick-ups

(Chewaucaan Press)

Paisley will hold its second annual fair on October 21, 22 and 23.

H. L. Chandler the stage man is in the city this week making arrangements to put the horses back on the stage line for the winter months, when the contract with Southstone Bros. expires.

The Chewaucaan Mercantile Co. have just purchased a new pump and engine for their pump house. The engine is a six horse power and the pump is in proportion. The outfit ought to be able to supply the company property and the Chewaucaan Hotel with water, with considerably less noise and ear-splitting explosions such as the old coffee grinder used to emit.

Mr. F. H. Williams, the well man finished up on the well at Red House, last Sunday, having reached a depth of 1200 feet the last 200 of which was in solid rock. The well was tested Monday and it pumped 1200 gallon per hour. Mr. Williams states that it would go 50 gallons per minute if necessary. The flow was entirely satisfactory to the ZX people and Mr. Fitzpatrick has ordered a large pumping plant which will be installed. Mr. Williams is now drilling a well for the Paisley school.

Representative Oscar W. Underwood, majority leader in the house, has announced that he will be a candidate for United States Senator from Alabama to succeed the late Joseph F. Johnston.

MEETING CALLED FOR REPUBLICANS

Party Matters Will Be Discussed at Conference Next December.

The republican national committee will meet in Washington December 16 to confer on party matters and to take any action which may be deemed advisable, a formal call for the meeting having been issued Monday of this week. The meeting was decided upon by a conference of Chairman Charles D. Hiles and S. B. Reynolds.

The decision to call the conference results from the repeated requests from republican leaders that an opportunity be given to revise the rules of the republican party. The principal changes demanded are in the basis of a representation of southern states at national conventions, and in the method of electing delegates from states that have primary laws covering that subject.

Oceans Will Not Meet

The common belief that the waters of the Pacific and Atlantic oceans will meet upon the opening of the Panama canal caused the war department to issue a statement explaining that the sea water on either side of the canal will get no further than the entrances to the waterway.

"To those who know the features of the engineering feat," the statement says, "this is rather amusing. So far as the canal is concerned the waters of the Pacific and the Atlantic will never meet. The Gatun lake, which is midway between the oceans, has an elevation of 85 feet above the ocean and water from this lake will merely flow each way to the oceans, the water from the lake being fresh and derived from the drainage of the surrounding area."

The statement also explained that the blowing up of the Gamboa dike on October 10 will not permit the passage of even a row boat from ocean to ocean, as it will be necessary to complete the removal of the dike by dredging, and then to dredge out the Cucaracha slide before the canal will be open from end to end.

DANGER IN DELAY

Kidney diseases are too dangerous for Lakeview people to neglect.

The great danger of kidney troubles is that they so often get a firm hold before the sufferer recognizes them. Health will be gradually undermined. Backache, headache, nervousness, lameness, soreness, lumbago, urinary troubles, dropsy, gravel and Bright's disease often follow in merciless succession. Don't neglect your kidneys. Help the kidneys with Doan's Kidney Pills, which are so strongly recommended right here in this locality.

Mrs. M. J. Wilbourn, 100 B St., Ashland, Oregon, says: "I have used Doan's Kidney Pills and found them so good that I willingly recommend them. I keep a supply in the house all the time. Whenever my back and kidneys bother me, I take Doan's Kidney Pills and they quickly drive the trouble away. I never knew of another remedy that gives such good results. All kidney sufferers would do well to give Doan's Kidney Pills a trial."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.
