## THANKSGIVING DAY

(By Rev. Geo. H. Fees)

Thanksgiving Day is the annual religious festival of our land.

It owes its origin in the desire of the Puritans for a more simple form of worship.

After the first harvest at Plymouth in 1621 Governor Bradford issued the first Thanksgiving proclamation in this country.

He also sent four men out fowling that they "might after a more special manner rejoice together."

Our first president set aside a special day of Thanksgiving for the adoption of the constitution.

The present practice of National Thanksgiving was adopted in 1864.

It is now the custom of the President, Governors of States and Mayors of cities to issue annual proclamations with reference to Thanksgiving Day.

The proclamations generally appeal to both the individual and people.

They are called upon to make some show of gratitude which they feel toward Almighty God for favors and mercies received.

True thankfulness and knowledge go hand in hand.

Benevolence rightly apprehended are realized as blessings.

Through such is discovered the silver lining of the cloud.

To reflect upon them ever increases the esteem and valuation that will be shown and stimulated by us.

It is our thoughtfulfulness that underlies, frequently wastes and sometimes despises the benefits conferred upon us.

To intelligently acknowledge a benefit recognizes a corresponding obligation.

The law of reciprocity unites favor and gratitude.

Hence, a real love for the benefactor arises and a desire to repay in willing service and true appreciation follows.

Thanksgiving Day stirs our memories and promotes our good will.

We will thank God and feel kind toward everybody.

We will be thankful for our food, shelter, raiment, homes, friends, and privileges.

We will do what we can to bring like blessings to others. We will be thankful for our spiritual blessing.

Thankful for what is past—for what we enjoy—for what is promised.

As President Wilson in his proclamation says, we will today in our homes and places of worship "render thanks to Almighty God for manifold favors conferred, and not forget."

## Richardson Improving

Stating there has been committed in the State in the past a number of atrocious murders which are yet unsolved, Governor West has issued a proclamation offering a reward of \$2500 for the conviction of each murderer. The Emergency Board, at a meeting several months ago, created a deficiency of \$5000 for the reward fund, and should two persons guilty of past murders be convicted this fund will be exhausted. The Governor also issued a proclamation withdrawing all rewards offered in the past in order to avoid conflict and confusion in the future.

## Fierce Fighting

Klamath Northwestern: In a letter received yesterday by Circuit Judge Henry L. Benson from Court Reporter "Dick" Richardson, who is at Los Angeles taking a much needed rest, he says he has completely recovered from his illness. When "Dick" left here for the South he was on the eve of a nervous breakdown. His nerves have completely recovered normal conditions and he is ready to come home and get into the harness again. Judge Benson says he is going to write "Dick" telling him not to hurry home, but remain below and rest up for a few weeks.

## Dry Towns to Contest

Though 12 Oregon towns claimed previously as "wet" voted "dry" at local-option elections held in conjunction with the special state referendum election on Tuesday, November 4, contests have been taken into court in six of the towns. These towns are Salem, Harrisburg, Oregon City, Springfield, Gresham and Hillsboro. All are in different counties. In general, the main point of attack in each case is the same—that the local-option election was illegal because it did not take place on the date of a general state or city election, but at a special election called merely to pass on questions submitted under the referendum.

## Paisley Pick-ups

(Chewaucan Press)

Dave Biggerstaff left Saturday, for Bend. Said he was going to Seattle.

W. P. Dykeman of the county seat was registered at the Chewaucan, Wednesday night.

C. H. Keith, Superintendent of the Ana River Irrigation Project was a Paisley visitor, Tuesday. He reports that C. M. Sain is still in Portland arranging the details of the sale of stock to the New York parties, mentioned in one of Mr. Sain's recent open letters to the public. He may be called from Portland to San Francisco before all arrangements are completed.

Cleveland Snider is building a fine residence on his lots in the west part of town. The house will be a story and a half structure of six rooms and will be finished in the most up-to-date style. Mr. Snider has not announced his reasons for building at this time.

Both liverymen, George Windom and A. M. Dorrah, left Sunday for Klamath Falls, where they both have located stolen horses which were left there by the parties taking them from the stables here. The horse belonging to Dorrah was rented out some time ago and the party took it to the Klamath country where it was discovered by the owner. Windom and Wilson hired theirs to a pseudo eye doctor who failed to return in the specified time. Later, a letter came directing them where to find it.

## Silver Lake Items

(Silver Lake Leader)

Roy Partin has purchased J. H. Lane's automobile. His friends are wagering the new machine will win him the hand of some fair dame ere six months has past.

Assessor A. J. Foster came up from Lakeview Saturday and on Monday left for Fremont where he and J. B. Fox have a big bear hunt scheduled. If space permits we hope to make notation of the game devoured in our next issue.

A reward of \$50 will be paid for information that will lead to the conviction of the party who fired two shots through the window of Mrs. Brandt Lane's cabin on the night of October 31st, while she was there alone.

Last Friday morning J. T. Lewis and Einar Olsen began digging a well for the city at the intersection of Center and Second streets. The job was completed on Tuesday and as soon as a pump is installed Silver Lake will have a watering place which will be very much appreciated by the public in general.

Last Saturday afternoon J. L. Freeman was brought before Justice of the peace J. S. Martin, charged with the larceny of a calf. G. W. Marvin and W. L. Sutherland acted as attorneys for the defense and J. H. Lane, attorney for Zed Harris, the plaintiff. Those who were in attendance class the affair as being of the "kangaroo type." Mr. Freeman was placed under \$250 bonds, which was furnished, and was bound over to appear before the next term of circuit court. It is said very little evidence was shown against him and the matter will probably be thrown out of court when it comes to the final show down.

Debating Currency Bill

Active debate on the currency committee bill began in the Senate at Washington Monday when Chairman Owen, of the banking committee made the opening speech in support of the Administration Bill. The Senate devoted Monday, Tuesday and Wednesday to currency discussion. On Friday of this week it will assemble for its last meeting of the special session. In that way there can be no recess—not even constructively—and no fight over the much mooted question of mileage. Congress will probably take the usual holiday recess of two weeks, from December 20 to January 5.

## Notice to Stockmen

One of the best ranches in Goose Lake Valley to trade for horses, mules or sheep. No mortgage on place, so I am able to take stock as part or all payment. Ranch has good nine-room house, plenty of out buildings, good orchard, 2 miles from railroad station, cuts 100 tons of hay, threshes from 1200 to 1500 bushels of grain, and between 30 and 40 acres of the meadow is used for pasture. The ranch has all the water you want to irrigate with, and two good wells. For further particulars address: W. E. G., Box 97, Davis Creek, Calif.

## Fremont Forest Enlarged

Supervisor Brown of the Fremont National Forest has received instructions that beginning with Nov. 24 a part of the Paulina Forest will be under the supervision of this office, and parties desiring grazing leases should present their applications to the office at Lakeview. That part of the Paulina National Forest which has been added to the Fremont Forest is in townships 25 to 30 inclusive and Ranges 10 to 13 inclusive, formerly under the supervision of W. W. Cryder of Crescent. The office at Crescent will be discontinued and other portions of the Forest have been divided between the Crater and Deschutes National Forests.

## Ready for Business

Speaking for the State of Oregon, in a reply to the editor of the New York Sun whether or not he favored intervention in Mexico, and how many troops this state could furnish in two weeks, Governor West stated that Oregon upholds Wilson in his efforts to bring about peaceful adjustment of Mexican affairs, but that the state is ready for war if the call should come.

The Governor further replied that "we are getting ready for business, and are prepared to respond promptly to any call of the president with two regiments infantry, one battle field artillery and one ambulance company. Another regiment infantry and several troops of cavalry would be made available upon short notice."

## Cooperation in Work

President W. J. Kerr, of the Oregon Agricultural College, has recently been in conference with the Secretary of Agricultural and other officials at Washington regarding larger co-operation by the Government with the state in its agricultural work, and has been assured that the department of farm management will contribute money for the promotion of boys' and girls' clubs throughout the state and also co-operate with the college in every way for the extension of agricultural education. President Kerr was much interested in the bureau of marketing and has asked that the department send experts to Oregon to show how to get better markets and better prices for farm products.

## NOTES FOR FARMERS

What nature can do in way of forcing growth of things has been demonstrated in the past three weeks in the matter of the corn crop. Where farmers were sowing the 1st of June because they feared their corn would be more than shoe high by the Fourth, five weeks of exceptionally hot weather, coupled with abundant moisture, resulted in many fields in the northern part of the corn belt being chin high by the date referred to.

In view of the annual loss of \$90,000,000 to the hog raisers of the country through cholera, the federal department of agriculture has started a campaign for the purpose of eradicating the disease from the swine herds of the country. For the most part the work will be done in co-operation with the animal husbandry departments of the several states. In the light of the greatly increased cost of living in recent years, it is strange that such a campaign has not been inaugurated before this.

The officials of the department of agriculture have seen fit to issue a warning to the people of the country relative to the matter of investing in date ranches in the west and southwest. While some success has been achieved along the line of growing dates in the sections mentioned, the business is no such bonanza as the backers of some date ranch promotion schemes would have their intended victims suppose. And least of all is any money to be made by absent investors and owners.

The cement post is being used a good deal as a substitute for the post made of timber. It costs no more than does the wooden post and is practically indestructible. A very simple yet durable post that many have tried is triangular in shape and reinforced with iron rods set in the cement close to each corner. The molds are easily constructed and are so arranged as to give a dimension of four inches for the top and seven inches for the bottom of the three later surfaces. The length of the posts may be regulated to suit one's needs.

A lady reader makes inquiry about the manner of treating buttermilk, referred to in these notes, so as to make it usable for several days. The item did not make as clear as was intended that when one wishes to keep the milk in the manner suggested it may be done by pouring water into the larger vessel containing the buttermilk after the amount which one needs for the time has been taken out. The presence of the water tends to dilute the lactic acid and check its fermentation, while the curd or protein part of the milk settles to the bottom of the container. Before using each time this water should be poured off, more water being poured on when one is through drinking. Buttermilk is more enjoyable if one can get it fresh every day. Where one cannot the method suggested is worth trying.

## Wm. Sonnichsen Dies

Wm. C. Sonnichsen, a laborer who has been living in Lakeview the past few years, died here last Saturday evening of pneumonia. He was a former resident of Ashland but later of Klamath Falls, he having come to Lakeview from that place. He was a blacksmith by trade, but has not followed that vocation since coming here.

Wm. Sonnichsen was 52 years of age and is survived by father, of Seattle, Wash., and two brothers, one of whom is living at Boring, Oregon, and the other at Fort Jones, Cal. The remains is being held at the Wallace Undertaking Parlors pending the arrival of the brother from Fort Jones, who was expected here last night.

## A Day of Thanks

THANKSGIVING—an annual holiday. A day of thank-offerings. A day when every citizen of this fair land of ours should remember the bountiful crops and general prosperity with appreciation to an all-wise Creator. Let us be thankful together for the fruits of our labor, and, though some things, possibly, were not as bright as we would have wished, let us seek consolation in the fact that they might have been worse. Remember, we may be of service in co-operating with you in improving your condition between now and next Thanksgiving, therefore do not hesitate in asking our assistance.
