Mr. Farmer, are you robbing your family of the things they ought to have, just to make more money out of your farm?

Will the boys jump at the first chance to leave home, or will they want to stay on the farm and make your old age pleasant?

Vill the girls be glad when marriage takes them away from your roof, or will they be sorry?

Have you given your wife everything she needs to make a real home for you and your family?

These are things to think about before it is too late.

You are a busy man, of course, and your mind is full of plans for next season's work, and the money you expect to make.

But you cannot afford to entirely forget the needs of your family, for your own happiness, as well as theirs, depends upon your home life.

# Crown Combinola Player Piano

Will make a new home of your home. It will bring into your sitting room all the beautiful music of the world—all the hymns you hear at church, all the old-time songs you knew when you were young, all the national songs of all the countries, all the popular tunes, all the masterpieces that Paderewski plays-and you or any member of

your family can play them without practice. What is it worth to you, to sit in an easy chair of an evening and listen to the youngest child play anything you wish, just as well as the man who wrote it?

What would you give to be able to sit down yourself and play a piano, though you may never have touched a key? A Crown Combinola will bring more real pleasure into your home than anything else you could think of, for each one of the family can play it equally well.
