CHILDREN NEED PALATABLE FOOD

Former Lakeview Girl Suggests Sample School Lunch Menus.

As nourishing and palatable lunches are fundamental factors in the health and activity of children in school, mothers should know what materials to use in preparing school lunches, and how to prepare them. The sandwich is the basis of all school lunches, but it should be varied from day to day in form and material. And as the sandwich is varied so must be the accompanying food materials if the proper nutritive ratios are successfully maintained.

Here are five scientifically selected sample school lunch menus prepared by Hazel McKee, a senior in the domestic course at the Oregon Agricultural College.

No. 1—Plain bread and butter sandwiches, cheese sandwiches, bottle of milk, two or three cubes of sugar, tapioca pudding, fresh prunes.

No. 2—Brown bread and butter, chicken sandwiches, bottle of milk, sponge cake, raisins and nuts.

No. 3—Nut and celery sandwiches, two boiled eggs, bottle of milk, corn-starch mold, two cookies, pears.

No. 4—Peanut butter sandwiches, egg sandwiches, bottle of milk, graham crackers, orange cream, grapes.

No. 5—Sardine sandwiches, fruit and nut sandwiches, bottle of milk, small piece of chocolate, cup custard, apples.

How these and other savory morsels are prepared and arranged in suitable lunch carriers is explained in detail by Mrs. Calvin, professor of Domestic Science at the Oregon Agricultural College, in Extension Bulletin, "The School Luncheon," Series 3, No. 5. This bulletin may be had free of cost by addressing R. D. Hetzel, Extension Director, Corvallis, Ore.

A dispatch from Ficksburg, Lake County, to the Oregonian says: Through the efforts of Representative N. J. Sinnott, W. Roche Fick, president of the Ficksburg Development Club, has been notified by the Department of Agriculture at Washington that a shipment of trees, plants and shrubs will be sent to him for experimental purposes within the next few days. The specimens are adapted to the climatic conditions there. Mr. Fick has set aside a portion of his homestead for experimental purposes and the trees will be planted thereon.

NEW PINE CREEK DEPARTMENT

DEVOTED TO LIVE NEWS NOTES OF THE STATE
LINE TOWN SPECIAL CORRESPONDENCE

Teachers' Institute

Mrs. Nettie B. Harris, County Superintendent of Modoc County, held Institute in New Pine Creek Saturday, Dec. 13. Mayor Keller gave the teachers a most cordial welcome. The superintendent, accompanied by the teachers, both High School and Grammar School, of Alturas, and the teachers of the Alturas, Davis Creek and Willow Ranch vicinity arrived on Friday night's train. They were entertained at the Wendt Opera House that same evening by a bazaar and entertainment given under the auspices of the Mount View school assisted by the Primary department of the Pine Creek school.

Saturday's session opened with a school exhibit, each teacher having brought work from her school. The exhibit was splendid. A few years ago such work was thought a waste of time, but school authorities as well as teachers are awakening to the realization that the education of the hand is the worthy education which is an incentive and aid to purely mental education.

All the papers, talks and discussions were helpful but most benefit was derived from the discussions on reading, spelling and writing.

Prof. Conley, principal of the Alturas Grammar school gave a most convincing explanation of why Fairy Tales should be taught.

Prof. Rose principal of the Modoc County High School explained the California University Extension Work. No one young or old need complain of not having an opportunity to obtain knowledge. Those who can not go to the university now have the blessed privilege of the university coming to them. Every one who cares to be progressive should take advantage of this opportunity.

The good, faithful ladies of New Pine Creek, Mount View and Willow Ranch served a chicken dinner to all visitors at noon Saturday. In the evening all attended the Moving Picture show at the Wendt Opera House.

Sunday forenoon was spent in Pine Creek canyon. Mr. Benham kindly consented to drive to Mr. Jensen's power house. All the teachers could not take the drive, those who did were Mrs. Raker, wife of Judge Raker, of Alturas, Mrs. Harris, County Superintendent, Prof. Rose, Prof. Conley, Mrs. Payne and Doolittle, Misses Leonard and Berry. All were delighted with the beauty of the canyon. The power plant was visited with interest, but the unique home, the pets and the pleasing personality of Mrs.

Jensen made the most favorable impression.

Dinner was served at Fairport for all who were to take the train at one o'clock.

The teachers departed expressing many compliments for the hospitality of the people of New Pine Creek. Many took much interest in the Institute. It was well attended. The Institute like the university is coming to the people.

Our merchants are all enjoying a good holiday business.

Great slaughter in prices on Xmas candies at Wendts Candy Kitchen.

Mrs. J. B. McNew who has been on the sick list is able to be out again.

N. E. Guyot made a trip to High Grade last Monday and reports everything moving along nicely.

Mrs. Mattie Follett is thinking of enlarging her boarding house which is too small to accommodate her fast growing business.

We are informed that Dr. J. L. Garner our new physician has bought the hospital property. This also includes the old Blurton livery barn.

A new board cross walk was put in from Fleming Bros. store to the hotel, also from the hotel to the Gentry barber shop, which is quite an improvement.

At a regular meeting of the City council Dec. 2, 1915, the saloon license was raised from \$125 to \$300 per quarter. Mr. D. W. Thomas was the only one to get a license. There were three applications.

August Doring, our expert baker and restaurant man, is still making improvements about the restaurant building. Mr. Doring has everything neat and clean and is serving good meals at all hours.

Saturday the stork visited the home of Mr. and Mrs. Albert Carr leaving a beautiful nine pound girl. The little mother and child are doing nicely under the care of Dr. Amesen as physician and Mrs. Sanford as nurse.

Butler & Moffet, our butchers, are very busy these days killing hogs. They have killed over a hundred in the last 10 days. They are putting them into lard, bacon, hams, etc., for their large growing business in New Pine Creek.

The Bazaar and entertainment given by Mountain View school at the Opera House last Friday night was a grand success. The children were all well drilled and all filled their parts splendidly. The entertainment was given for the benefit of the play ground which netted the school something over \$63.00.

MCCORMACK SELLS RANCH PROPERTY

Wayman Withers Acquires Summer Lake Ranch at Large Figure.

W. K. McCormick has sold his Summer Lake ranch, consisting of 1000 acres, to C. W. Withers, the consideration being \$40,000. Possession will be given the first of next April. Mr. McCormick retains his stock, including sheep, cattle and horses, besides other lands. Mrs. McCormick's health has not been good recently, and she will probably spend some time in the Willamette Valley hereafter.

Sale Was Success

The Presbyterian Ladies Aid did exceedingly well at their pillow slip sale last Friday. A dainty luncheon was served and a handsome sum realized. All who partook of the lunch were greatly pleased, as it included an excellent soup, fine sandwiches, excellent pies and doughnuts with good coffee.

The receipts of the sale netted the Ladies' Aid approximately \$80, which amount goes towards the Presbyterian Church building fund. The ladies intend to make the Pillow Slip sale an annual event, to be held about the first week in December.

Surprise Valley is evidently having much colder weather than we are experiencing here in Goose Lake Valley for the Cedarville Record says that last Monday morning business men commenced putting up ice for summer use. The ice is of fine quality and about 8 and 10 inches thick.

LYMAN CONVICTED OF LAND FRAUDS

Promoter With Active Career Was Once Arrested in Lakeview.

Dr. John Grant Lyman, promoter of Panama land schemes, who was captured by Sheriff Solder in Lakeview while making a desperate attempt to escape from the authorities was convicted at Los Angeles last week by a jury in the United States District Court of having used the mails to defraud. The conviction was on one count of the indictment only, the promoter being declared not guilty on five other counts.

The jury reported after having been out 23 hours and 35 minutes. The conviction of the promoter, according to a statement made by Special Prosecutor Edward Regan, cost the United States Government \$75,000.

Government agents caused his arrest in San Francisco in September, 1911. During several months previously he had operated the Panama Development Company through which he proposed to locate settlers on government land in Panama. The Government contended that he had no rights in Panama, and brought witnesses from the Central American republic, from Manila and England, and from various other parts to testify against him. Lyman will be sentenced Monday, December 29.

Harold, the young son of H. G. Carmack, of Davis Creek, who has been suffering from a serious attack of typhoid, has been taken to Alturas for treatment.
