A fracture of the pelvic bone was supported by the insertion of wires. From other sources we learn that Mr. Harvey received very serious injuries when thrown from a horse at Merrill several weeks ago, and his many home friends sincerely trust for his speedy and permanent recovery. Would Repeal Tolls Act
President Wilson Thursday appeared before congress at a joint session of the two bodies and personally read his brief message urging that body for the repeal of the Panama canal regulation freeing American shipping from the tolls the vessels of all other nations will have to pay for passage through the big ditch.
The message was a distinct disappointment to the law-body as a whole, as the measure is bitterly opposed by numerous members of both the Senate and the House, and they expected the President to more fully define his reasons for the repeal. He made merely a veiled reference to "matters of even greater delicacy and near consequence."
Honk-Honk
With the advent of the present Spring weather and drying up of roads autos have been buzzing on our streets for the past several days. The plutocrats have also been taking advantage of the dry roads leading out a few miles. Several old cars have been making their appearance on the streets of Lakeview in new and attractive garbs. In some cases it has been thought by observers that they were absolutely new automobiles just received from some eastern factory. Such is not the case. The owners have had them dressed in the latest dictates of fashion, namely, striking colors and many frills, the same as Dame Fashion has decreed for the fair sex.
