COYOTES AND WOLVES LAKE TO BE DRAINED

FOUR COUNTIES PAY BOUNTIES OF \$20 ON \$1.50 HIDES

Slaughter of Supposed Scarce Animals Arouses Finley's Suspicion and He Makes Discovery

Coyotes of Lincoln, Malheur, Clackamas and Josephine Counties have a right at this time to imitate a laughing hyena, if they are able for they have successfully "put over" a correct imitation of a timber wolf on officials of the aforementioned counties, says the Oregonian.

Had they been as successful in getting by with their imitation specialty before W. L. Finley, State Biologist it might never have been known how effectually and boldly a coyote may ape his betters.

At a recent meeting of the State Fish and Game Commission that body declared a bounty of \$20 on wolves. The coyote bounty is \$1.50.

Though timber wolves are rather scarce, Mr. Finley began to laud the effectiveness of the increased bounty and predicted the quick riddance of the pests, which seemed imminent at the rate they were being killed.

Several counties reported paying the \$20 for wolf skins brought in. Mr. Finley finally became suspicious, as in his tours through the state he has seen few wolves. He wrote to the County Clerks asking them to send in the hides. These were forthcoming. When the bundles were unwrapped eight big furs were displayed. But there entered the hitch. They were not wolf furs, but coyotes.

The Fish and Game Commission will not recognize the claims against it from these counties, so it looks like the three counties will be out \$37 each, the difference in bounty on two wolf hides and two coyote skins.

Fernley & Lassen May Extend

Susannah Advocate: Rumors of the intention of the Southern Pacific to continue the Fernley & Lassen branch road on some fifty or sixty miles this season are persistent and emphatic in Susanville; they are occasionally as emphatically denied. It is to be remarked, however, that those who assert are in the majority, and if they are correct in their assertions a few weeks will bring confirmation. If the Advocate's map is correct, a fifty mile stretch from the present terminus will bring the road into the Big Valley country—to Bieber or possibly beyond. It will be interesting to note the movements of the railroad company from the Walker junction north, as they may indicate about what to expect in the government reservoir building project in Big Valley. It is fair to presume that the railroad builders will take no chances.

Concerning the above railroad rumor a dispatch from Westwood to the Sacramento Bee says that with the rails laid to Lookout this year it will be no trick to reach Klamath Falls next year. Later the line north-easterly from Lookout through Alturas to Lakeview, Ore., and on to a connection being built from Idaho will be undertaken.

Klamath Officials Enjoined

High taxes in Klamath County are given as the reason for a suit filed in United States District Court at Portland to enjoin the county officials from cashing warrants already issued to the amount of \$425,000, with accrued interest.

The suit is based on the provision of the state constitution which prohibits a county from going in debt more than \$5000 for purposes other than those of the involuntary running expenses of the county.

Three big timber companies, large holders of timber land in Klamath county are the plaintiffs, among them being the Weyerhaeuser Co. Papers have already been served on the Klamath County officials.

The bill of complaint contends that while the involuntary obligations involving on the county for 1912 were only \$1000 more than those for 1911, the County Court "wantonly and recklessly" increased the tax levy for general purposes for 1912 to \$157,536, whereas it had been but \$74,184 for 1911.

Booster Meeting Postponed

Portland, Mar. 7, (Special). On account of the fact that a large number of the delegates slated to attend the big meeting in Portland, called for March 12, declaring it will be impossible for them to be present at that time, it has been decided to postpone the meeting until Thursday, March 26, a date exactly two weeks later than originally set.

It is expected that this change in the date will make it possible for a great many people from all over the state to attend this convention who would have otherwise been obliged to miss it. The subjects to be discussed are of great importance and a full attendance is desired.

Best Treatment for Constipation

"My daughter used Chamberlain's Tablets for constipation with good results and I can recommend them highly," writes Paul B. Babbin, Brushy, La. For sale by all dealers.

THE EXAMINER FOR JOB WORK

FLOW OF ANA RIVER DIVERTED TO IRRIGATION DISTRICT

Many Thousand Acres in Northern Lake County are Soon to be Made Productive

Summer Lake, Or., Mar. 10.—One of the largest reclamation projects in Northern Lake County is under way here with the draining of Summer Lake and utilizing the flow of Ana River, which maintains the body of water at a general level by turning the stream flow into irrigation canals to supply the land on the east side of the valley.

There is an irrigation plant supplying water to about 1500 acres which is operated by pumping, the motive power being supplied from the stream flow, but only a small per cent of the water can be used this way, and the new company will build a large dam and raise the water high enough to flow upon the lands above the river, thus accomplishing a two-fold purpose—that of securing the salts of the lake at a smaller cost and furnishing irrigation at a low cost. Some 25,000 or more acres will come under the new project.

Artesian wells were discovered a few years ago in the Summer Lake Valley and the largest flowing well in Oregon is said to be supplying water for stock and irrigation. There are perhaps 15 wells flowing at depths that range from 80 to 700 feet, the latter being a test well that went through several strong flows at different depths, the most popular supply being in the neighborhood of 200 feet. Settlers are pouring into the area and soon every available acre will be used for agricultural purposes.

Until the railroad comes this will involve growing the crops that can walk to the railway and livestock with grain and hay will be the principal products.

Money Saving Rules.

"The German housewife is not much given to troubling her head about the high cost of living and its causes. Rather," so writes a friend in the veteran, "she makes her expenditures correspond to her income. The less money she has the less she spends, and she smiles or placidly just the same."

But whether her income be large or small the good German hausfrau has certain fixed rules which are quite well worth quoting.

"Pay cash for everything."

"Do your own buying and marketing."

"Be careful in your selection of food."

"Study up at the beginning of the week just how much you can spend that week."

"Manage your own household; leave nothing to the servants."

"Figure out a system of utilizing all materials. Even the leftovers from a meal can be made into something the next day."

"Do not regard this system of economy as a burden, but as a pleasure and the duty of a wife to her husband."

Quilting Parties Again the Mode.

Once more the old fashioned quilting is coming back to us, though not with all the elaborations which distinguished this treatment 200 years ago. Then bed covers and many articles of dress were quilted in most minute designs, often most attractive.

Pearls are introduced now at each point of the quilting, and fur is a good addition, and with white and light colored satin, for example, fur is not considered unseasonable, especially so when the purse will run to it. Bunches of flowers, animals, birds and fishes found a place in the quilting of old days, but these are not as yet revived. Many a wedding dress now no longer which could not be worn again found a place as a quilt, most elaborately quilted, and was handed down for generations as an heirloom.

A Country Pot Roast.

In a hot frying pan melt a lump of butter or fry out a small piece of pork. While very hot put in the roast, browning all sides. Roll it over. Do not insert the fork so as to keep all the juice in. When browned put in a pot which has been heated. Put water in the frying pan to get any juice that may have escaped and pour over the meat. Cover closely and cook slowly for three hours, turning occasionally. Keep about a cupful of water under the meat and sprinkle a little flour and salt over it fifteen minutes before taking out. Turn several times.

When Cleaning Globes.

Globes that have become discolored from smoke should be cleaned in the following manner: Soak the globes for about one hour in warm water with soda or borax in it; then add fresh warm water, with a few drops of ammonia, and wash well with a soaped rag. This is better than flannel, as there are generally loose hairs left in flannel unless it is very fine. Polish with a soft linen rag.

Fifty per cent of the divorces in this country are caused by tight corsets, declared Dr. Maude at an address in Boston last week before the Hygienic Fashion Institute. In explanation she said that corsets caused indigestion, back-ache and headache and resulted in a soured disposition, a fertile ground for sowing the seeds of divorce.

NEW PINE CREEK ITEMS

(By Staff Correspondent)

(Received too late for publication last week.)

Dr. J. L. Garner reported some ten days ago that Mrs. Will R. Trumbach had the diphtheria. The Doctor quarantined the place and no new cases broke out. Mrs. Trumbach's little child had the diphtheria about a month before this and it is supposed that she caught the disease from some germ that was not killed by fumigating the house.

The ladies who met at the home of Mrs. Green last week for the purpose of organizing a club were delightfully entertained. The object of the club is to become proficient in needlework, also will exchange ideas pertaining to household hints, etc. Each member is requested to bring tablet and pencil to write down each idea as given in. Mrs. Cora Green was chosen President, Mrs. Sadie Keller, Vice-President; Mrs. Lilla Thomas, Secy. The name of the club will be the "Thursday Club" was decided, it is necessary for new members to be voted in by a two thirds of the members. Those present were: Mrs. Jensen, Jessie Carr, Annie Fisher, Mildred Gentry, Sadie Keller, Lilla Thomas, Mercedes Wade; Misses Dorothy Carr and Diantha Thomas. Luncheon consisting of cream cake, sandwiches, and coffee, was served. The Club will meet again in two weeks.

Mrs. D. C. Berry and Hayes Mulkey made a trip to Davis Creek last Tuesday.

As the approach of spring is nearing everyone is enthusiastic to have their property improved. There will be a beautiful little city here in a couple of weeks from the enthusiasm manifested.

Mrs. Williams of Alturas, Cal., spent Sunday with her parents here. Mr. and Mrs. W. W. Williams.

Mr. John Dick who has spent the past two years in Idaho is at home for a visit.

Geo. Arabahad who recently made a business and pleasure trip to Seattle, Wash. is home again.

The new walk being completed from town to the school is simply splendid. Everyone who so kindly assisted in doing the work is assured the appreciation of all.

Messrs. Hill and Amlek are preparing school grounds planting flowers, building swings, and making it

very pleasant for the pupils who will enjoy it much.

Mrs. Dora Colvin is quite herself again by the careful nursing of Mrs. Wm. Fleming who cared for her the past ten days.

Fred Hammersley who vacated the office room for the new tailor shop moved his job printing office next door in the room formerly occupied by the Union Tea Store in the Wendt Building.

Some one asked the writer a few days ago this question. Why does Uncle Bob Kelley take the National Tribune over to Mrs. Nannie O'Neil so often. We told the party to ask Uncle Bob—he knew best.

Mrs. Daniel Boone and Mrs. Lizzie Taggett joined the Ladies' Improvement Club last Friday. The Club expects to give a drama some time in May.

A week ago last Wednesday the men started to work on the sidewalk town to connect with the walk that was built from the Oregon School. The walk is now completed and we now have a good board sidewalk from town to our beautiful new school house. For the next move we would suggest that we have a board walk built towards the California school which is only about a quarter of a mile from town.

Mr. Chas. Bell, the tailor who conducted a cleaning, pressing and tailor shop in the Reed Building for about a year and who has charge of the Green place known as the Coning place has returned to New Pine Creek. He has rented one of the office rooms in the Wendt Building and is ready to do anything in the cleaning, pressing and repairing line, and if you want a good fitting suit give him an order for one. He will please you.

Jack Miller, proprietor of the High Grade Hotel treated a party of his friends to a swell supper last Monday night. We heard that the supper consisted of fried oysters, hamburger, cheese, nuts, and, oh, well we cannot name all they had. Ask Wade Williams. Anyway all enjoyed the supper and all claimed that Jack surely knows how to fry oysters.
