For the Stomach and Liver

I. N. Stuart, West Webster, N. Y., writes: "I have used Chamberlain's Tablets for disorders of the stomach and liver off and on for the past five years, and it affords me pleasure to state that I have found them to be just as represented. They are mild in their action and the results have been satisfactory. I value them highly." For sale by all dealers.

William Fiske, a poultryman who lives twenty-five miles southeast of Bloomington, Ill., is said to have the largest goose farm in the world. Here he fattens 10,000 geese annually for the holiday trade. Instead of hatching the geese eggs, he buys the birds in different sections of the country and ships them to his farm in carload lots. The geese shipped in cost on the average about 70 cents apiece. After they have been on forced feed for about three weeks they bring an average of \$1.70 each, while the feed consumed in the fattening process is worth about 30 cents. This leaves a net profit of about 70 cents per fowl.

Woman's World

Mrs. Garrison, Wife of War Secretary, is a Fine Cook.

Photo by American Press Association.

MRS. LINDLEY M. GARRISON.

Mrs. Lindley M. Garrison, the handsome and talented wife of the secretary of war, is, like most of the cabinet ladies, a fine cook.

Among the many elegant wedding gifts presented to Miss Jessie Wilson when she became the bride recently of Francis B. Sayre was a cookery book consisting of recipes contributed by prominent women of the official Washington set.

Mrs. Garrison, whose culinary taste runs to desserts, contributed the following formula for plum pudding, which appears frequently during the year upon the Garrison table:

One pound of stoned raisins, one pound of currants, one-half pound of chopped suet, one pound of sugar, one-quarter pound of almonds chopped fine, one-half pound each of lemon and orange peel, two five cent loaves of stale bread crumbed fine, one nutmeg grated, one-half teaspoonful of saffron, two carrots grated fine, two apples chopped fine, four eggs, one-quarter pint of milk, one-half teaspoonful of salt and one cupful of best brandy. Boil seven hours, putting the puddings in small tin pails well greased and fastening lids tight. Set away until wanted; then boil two hours before using. Serve with hard sauce.

Mrs. Garrison, too, takes a keen interest in the affairs connected with her husband's official position as well as in her household and social duties, and she is following with much concern the Mexican situation.

Speaking of this turbulent country, one is reminded of the self sacrifice which has been demanded for the past few months of the American woman in Mexico. If she is not possessed of a goodly income life is a constant struggle against fearful odds, all phases of living having become frightfully expensive. Clothing, which has always been ridiculously high, has become almost prohibitive in price, and with the precarious condition of the postal mail service she cannot hope to receive articles from the United States either by mail or express safely and within a reasonable time, if at all.

In short, the American woman in Mexico, says a traveler who has spent many years in the country, under the existing conditions is not an object of envy.

Smart New Blouses. There has been no abatement in the vogue for lace and net waists during the past year, and record breaking sales are indicated for the coming season, particularly on the medium and the popular priced numbers, says the Dry Goods Economist.

With sheerness such an important item, many of the new spring models have the sleeves unlined, but the body of the waist shows a low cut lining both back and front. This leaves the neck and the arms partially uncovered, the tint of the flesh showing through the lace.

When entire linings are used pale pink chiffon or net is particularly desirable, as this suggests the flesh tint. The tea shades are also becoming popular, especially those that have the tinge of yellow.

The front finish of the neck is changing somewhat from the sharp y outline. It is being widened at the sides and finished in a shallow point in the center.

Frosting Glass.

A frosting that is a very good imitation of machine work may be applied to glass. The process is as follows: Make a saturated solution of boiling water, epsom salts and pounded alum. Put in all the salts and stir the water will dissolve. When it is cold strain through coarse cheesecloth to get rid of sediment. Wash the windows and wipe dry; then apply the solution with a brush or sponge. Several applications may be necessary. Allow each to dry before putting on a second coat.
