Given Rockpile Sentences

Portland Journal: Four home-stealers from Lake county were given five days on the rock pile recently by Municipal Judge Stevenson for being disorderly on a Spokane, Portland & Seattle train. The men are Lester Withrow, Royal Jud, Elmer

Due and Jay Dick.

The men boarded the train at Bend intoxicated. On the train, the conductor complained, the men drank liquor, talked loudly, and used profane language. This conduct was kept up until they arrived in Portland, when local officers took charge of them. Each man had a ride. They denied being disorderly.

THE RESULT OF INVESTIGATION

Will Result in Contests Filing Time Ended Friday

(Continued from First Page)

quarter of Sec. 36, T. 33 S., R. 14 E., which land the others claimed by reason of settlement rights. At the hearing it developed that all of the claimants entered upon the land at the same time and after posting notices performed acts of settlement.

Lake's first act of settlement after posting his notices was to commence digging a well, but in that instance secured only a meager supply of water. He then dug another well, and afterwards commenced clearing for a house. He then built a log house, furnished it comfortably, and then built a woodshed. A few days before the land was subject to entry Lake lined-up at the U. S. Land office waiting to offer his filing. After doing so he returned to the land in controversy where he remained until the date of the hearing.

Poor's first act of settlement was by starting a foundation for a house, having first posted his notices. At the time of hearing he had a good comfortable log house, with a porch enclosed on the storm side, with bedding, plenty of provisions, etc., and considerable land cleared. He also lined-up at the land office and offered his filing, and then returned to the land, afterwards appearing at the hearing.

Ansel did not appear at the hearing and was therefore eliminated from the controversy.

Casbeer's first act of settlement after posting his notices was to lay the foundation of a house. He then proceeded to the land office and remained in the line-up for 30 days. After making his filing he went back to the land, and at the time of the hearing had a log house with provisions and supplies, and was on the land continuously up to the time of the hearing.

As a result of the hearing the land was finally awarded to Ariel L. Poor, it having been held by the Department that he made the best showing—that is that his acts were more indicative than those of the other applicants that he wanted the land for a home.

It therefore follows that the proper method for settlers to pursue when the lands are opened to settlement on the morning of May 9 to enter upon the lands immediately after 9 o'clock and to immediately post notices on the corners of the land claimed and to follow this up with acts of settlement. And the more acts of settlement performed the more likely is one to secure the land and if some one else has already filed upon the land a hearing will be ordered to determine who is the rightful applicant. If it is convenient to make application for the land on the day it is subject to entry, June 7, it perhaps will do well to do so, stating in the application the time of settlement.

It should be understood that applications for land must not be executed prior to June 8, inasmuch as it is a well established fact and uniformity held in the Decisions of the Department of the Interior that "An application to make entry of public lands cannot be allowed if based on preliminary papers executed prior to the time when said land is legally subject to such appropriation."

News of Warner Lake (Correspondence)

The Ladies of Warner Lake are to meet this week to form a Civic Club in order that they may thoroughly inform themselves on the questions of the day and prepare themselves to vote intelligently at the coming elections. All candidates for election are requested to send literature of the kind which will be of interest and benefit.

Every Sunday a party of Warner Lake folks enjoyed a picnic at Twenty-mile. Fish were scarce but plentiful, and a most delightful time was had and a bounteous luncheon spread to which two at least did full justice.

New Boat for Lake

George Wernmark, who with his brothers and others have formed the Goose Lake Transportation & Fuel Company, departed Saturday for San Francisco to purchase material for a new steam boat to be placed on Goose Lake. The material will be shipped to Fairport where the boat will be constructed.

The boat will be not less than sixty feet in length and so constructed to draw but little water so that it will navigate all parts of the lake. A barge will be built to be used in connection in transporting freight across the body of water.

Mr. Wernmark states that, they have been hauling considerable freight this spring with a gasoline launch and barge but find this method too slow for the amount of business in sight.

Will Inspect Horses

Klamath Northwestern: Agent Watson of the Klamath Indian Reservation and H. H. Sparhawk, stock inspector for the United States Government, will leave Saturday for a trip throughout the State to inspect the stallions offered for sale to the Indian service. Ten Percheon stallions were advertised for and a large number of bids were received by Agent Watson. Most of the bidders reside in Oregon. Some are in the Merrill section of the country.

(Continued from First Page)

erats and one Progressive failed to file completed petitions after filing declarations. The republicans were: Tom Kay, Portland, for state treasurer; W. L. Robb, Portland, for national committeeman; Alfred L. Parker, James E. Appleby, Edward D. Ulrich and George Johnson, all of Portland, for representatives and R. C. E. Basel, Astoria for representative.

The Democrats who failed to get on the ballot were: John Osterman of Taft, for congressman in the first district and Fred E. Harrison of the Second District.

S. J. Silverman of Portland is the Progressive who failed to get on the ballot for representative.

There are 15 candidates out for Governor, the largest number seeking any office in the state. Of these, eight are Republicans, five are Democrats and two are Progressives, so the contest in all three parties will be keen.

For supreme court justices, there will be a spirited contest for the republican nominations, with practically no contest in the other two parties. Four places are to be filled and there are eight Republican candidates. Only two Democrats entered the race, and no Progressive, so it is expected those parties will fill out their tickets by writing in the names of candidates.

With five Republican candidates out for attorney-general and only one Democrat, all the scramble for that office in the primaries will be confined to the Republican party.

For labor commissioner there are four Republican candidates, and no Democrats or Progressives.

There will be no contest in the primaries for nominations for United States senator, representative in the Second District, State Treasurer, state school superintendent, and superintendents of both water divisions, as none of the candidates have opposition to their own party.

The time for candidates for county nominations to file their petitions closed yesterday, April 15.

Do Road Work on Apr. 25

(Continued from First Page)

4th day of April, 1914.

"B. DALY, County Judge.
"F. E. ANDERSON Co. Com.
"T. B. WAKEFIELD Co. Com.

A copy of the above was sent to each Road Supervisor in the County, and an appeal is made to all citizens to at least do one good turn towards improving the streets and highways on that date. If there is a small fill needed in the road at or near your farm, or in the street near your property, fix it on Saturday, April 25.

The citizens of Lakeview are urged to enter into the spirit of this occasion and donate their services on the streets and roads. In order to carry out the work of crowning Bullard street with gravel as was petitioned for to the council recently, the Street Committee has agreed to furnish teams and wagons to haul gravel providing the citizens turn out and assist in the work. Plenty of gravel can be secured near at hand where it was washed down the flume and in this manner one day's united work would make a great showing on the street. Nearly every resident of the town signed the petition asking for this improvement, but the street committee advises that they have insufficient funds at present to do the work, and it behooves the citizens to get busy on Good Roads Day and start the work if they expect its early completion.

Co-operating with the movement County Judge Daly informs the Examiner that he will have a number of teams at work on the East end of Slash road. This will be near and in the city limits so that the citizens can help the County in getting big returns for a small amount expended. Other work is also needed on the street from the Planing Mill to the Southern City Limits, and some attention should be given there.

The work in town will be done under the direct supervision of the Street Committee, and all should turn out and help make it the Banner Day in road improvement.

School Notes

The public dinner given by the Domestic Science Class was a success but the attendance was small.

The closing work of the year was commenced in earnest and pupils will have something doing every Friday night until school is out. Friday night of this week will be omitted on account of the play at the opera house.

School closes on Wednesday, June 3rd.

The Swastika Club will give a Whitcombe Riley entertainment on Friday evening, April 24th.

Pupils from the first eight grades will give a May Day program at the Assembly room on the afternoon of May 1st.

Sickness has caused the absence of several pupils in the last few days but Wednesday this week all High School pupils were present.

The boys are doing some work practicing for "Field Meet" but are not very energetic over the matter yet.

THE EXAMINER FOR JOB WORK

Wool Sales Over State

Fifty thousand pounds of wool were sold at Echo Wednesday reports the Oregonian. The exact price was not known, but it is understood to be high. This wool, which is all that has been shorn at that point so far, was chiefly from mountain sheep.

A little contracting has been done in Eastern Oregon in the past few days, amounting to about 15,000 or 20,000 fleeces, at 15 cents for choice clips. Buyers have made offers to contract in the Pendleton and Hagerman sections, but the growers there are inclined to hold for the sales days, which are only six or seven weeks off. Throughout Eastern Oregon sheepmen express a determination to await the regular sealed bid sales, yet dealers believe sales will move fast after shearing starts.

A little shearing has been done at Castle Rock and at Arlington, and operations will start in the Pilot Rock country about April 20.

About 30,000 pounds of wool have been sold this week at points on the Columbia River in Washington, between Roosevelt and Plymouth. The prices range from 13 1/2 to 16 cents.

Four Gunmen Executed

The four gunmen sentenced to death for the murder of Herman Rosenthal, were electrocuted in the death chamber at Sing Sing prison New York shortly after dawn Monday morning of this week. They went to the electric chair in the following order:

"Gyp the Blood," "Lefty Louie," "Dago Frank," and "Whitney" Lewis.

Shortly before the death of "Dago Frank" Crofoot, he told Warden Clancy that "Gyp the Blood" Horowitz, "Lefty Louie" Rosenberg and Harry Vallon, an informer, fired the shots that killed Herman Rosenthal, for which crime the four gunmen paid their lives.

"So far as I know, Becker had nothing to do with the case," the gunman also asserted. "It was a gamblers' fight."

DICE DISTRESS

It is Near at Hand to Hundreds of Lakeview Readers

Don't neglect an aching back. Backache is often the kidney's cry for help. Neglect hurrying to the kidneys' aid means that urinary troubles may follow.

Or danger of worse kidney trouble.

Here's Medford testimony. August Betz, retired farmer, 842 E. Main Street, Medford, Oregon, says: "I suffered more or less from kidney trouble for five years. It got worse as time passed. Sharp pains darted through the small of my back and sometimes they were so bad I could hardly stoop or straighten. At night my back ached so bad I couldn't rest. I was told to try Doan's Kidney Pills and I did. They checked the trouble at once and soon drove it from my system. All I said about Doan's Kidney Pills when I recommended them before, still holds good. I have had only one slight sign of kidney complaint since and one box of Doan's Kidney Pills brought me relief."

Price 50c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mr. Betz had, Foster-Milburn Co., Props., Buffalo, N. Y.

M. E. Church Notes

The Easter Services of the Methodist Church were well attended both morning and evening. At night the church was crowded and all available space being occupied. The decoration of flowers and green were very beautiful. The cantata was well rendered reflecting great credit upon Prof. Gardner and his choir.

The monthly business and social meeting of the Bible Class was held at Mrs. Tracy's last Monday evening. A large attendance and a good time was the report. The Men's Bible Class was named the Palm Tree Bible Class. It was decided it take up the full Sunday school hour in one of the rooms and not attending the opening or closing exercises of the Sunday School except on special occasions.

On April 30th an "At Home" will be held at the Methodist Church and Bible rooms. The plan is to have one of the largest church gatherings of the year. All members of the congregation, Sunday School and others will be invited. A splendid program will be arranged which with the invitations will be printed and published.

The Boy Scouts had a great "Easter Egg Trip" to Black Cap last Saturday. Eggs enough were taken to feed a troop but none it seems were brought back.

The Epworth League has started a contest which promises to be very interesting.

Stallions Wanted

Following an invitation for sealed bids for Percheon stallions for the Klamath Indian Reservation issued by Indian Commissioner Cato Sells, more than fifty bids were received March 31 by Agent Watson of the Reservation, says the Klamath Northwestern. The successful bidders have been determined and as soon as the horses offered have been inspected by the Government agents they will be delivered at Klamath Agency.

The invitations asked for bids on ten stallions, pure-bred or approximately pure-bred Percheons. Nearly all the bidders were Oregon stockmen and some were in Lake County. The stallions are bought by the United States Government and will be used for the purpose of improving the grade of horses used by the Indians on the Reservation.
