MINERS LOSE LIVES

WEST VIRGINIA HAS HORRIBLE MINING DISASTER

Two Hundred People Lose Lives in Mine Explosion of New River Colliers Co.

BULLETIN

Eccles, W. Va., April 28.—H. C. Bayles, general manager of the New River Colliers company, announced at midnight that the 190 miners in mine No. 5, wrecked today by an explosion are dead. Mr. Bayles said the disaster was due to dust explosion. Eleven bodies have been recovered from mine No. 6, a connecting operation, and six men are missing. The fans in No. 6 mine were working tonight and the entry to No. 5 from this mine has been bratticed to prevent fire from extending from one mine to the other.

Rescue work is practically at a standstill because of the fire and gasses.

Later—All hope for the rescue alive of the 203 miners entombed by an explosion today in mines 5 and 6, of the New River Colliers company here was abandoned to night. Rescuers were unable to force their way into the burning shafts. Fifty-nine men, all burned severely, were rescued from No. 6. Four bodies were recovered from the same shaft.

The disaster, the second largest in the mining history of West Virginia, was caused by a gas explosion in the 600-foot level of mine No. 5. It was followed five minutes later by another explosion which wrecked this mine and partially demolished No. 6, a connecting operation.

TROOPS CALLED OUT

EXTREME MEASURES TAKEN TO QUELL STRIFE IN COLORADO

Militia Withdrawn—All Persons in Domestic Violence Ordered to Disperse to Abodes.

Washington, April 28.—President Wilson today extended the protecting army of the federal government to the state of Colorado. Torn asunder by rioting and battles between the militia mine guards and strikers, Gov. Ammons found the militia unable to cope with the situation and asked for federal aid.

The Colorado delegation in Congress, the mine owners and the miners themselves joined in the request.

It was one of the rare instances in American history where the federal government has been asked to extend its authority. The president issued a proclamation ordering all persons engaged in domestic violence to "disperse" and retire at once to their respective abodes before April 30. Secretary Garrison, after a conference with the president, ordered three troops of the Fifth cavalry from Fort Leavenworth and two troops of the Twelfth cavalry from Fort D. A. Russell, Wyo., to Trinidad and Canon City, respectively.

County Surveyor S. A. Muehlen Saturday returned from Crane Lake where he was doing some surveying for Mrs. E. E. Loftus.

dispensing with business and devoting their time and attention to the improvement of roads. From press accounts all over the state it is seen that people in every clime of life entered into the spirit, doing many thousands of dollars worth of work on the roads.

Lakeview may well feel proud of the accomplishments here, but when Good Roads Day rolls around again it is to be hoped that every household will have a representative doing actual work upon the public streets and highways. Next year should the people choose to put forth their efforts on the streets in town, work could be centered on some other district in town in need of repair, and in this way from year to year Good Roads Day would be made productive of great results.

CAVALRY CALL MADE

OREGON REGIMENT WILL BE RECRUITED FOR SERVICE

All Large Cities of State Will be Urged by Lieutenant Hennessey to Form Companies

Announcing that Oregon should provide a cavalry regiment second to none for service in Mexico, Governor West, after a conference with Lieutenant P. J. Hennessey, United States Cavalry, issued a call for volunteers. The plan is to recruit the regiment as soon as possible and mobilize it, probably in Portland, for training, so as to be in readiness to go to the front when called.

Under the rules of the United States army, Lieutenant Hennessey, who is now training the cadets at the Oregon Agricultural College, if he organized the regiment, would become the Colonel and so act until the regiment was mustered out, when he would be returned to his original status with the United States Army. He stated that young men who wanted to join the regiment should communicate at once with Governor West, Adjutant-General Finzer or himself. There are one or two troops in the state, and

Lieutenant Hennessey thinks that it would be an easy matter to organize it or 11 more, which would make up a regiment of about 1100 men.

"I know of no state where a more proficient regiment could be organized," declared the Lieutenant. "There are hundreds of young men in Oregon who are naturally fitted for cavalry service, and, with a little training would make a capital regiment. Troops should be organized at Portland, Pendleton, Klamath Falls, The Dalles and other of the larger cities. They could be mobilized at a convenient point and drilled thoroughly before the equipment arrived.

"I would advise young men having horses who desire entering the service to begin training the animals at once. It is up to each member to furnish his horse at the start, but the Government will pay for all horses accepted if the regiment is called into service."

Back to Griggsby Station

That which proved a very successful and pleasing entertainment, entitled "Back to Griggsby Station," was given last Friday evening by the girls of the Swastika Club in the High School Auditorium. While the composition of the cast bordered in a way upon the suffragette phase, each participant in the program did equal justice to her respective part in carrying out the poem comedy.

The cast of characters was confined exclusively to the girl members of the Club. The comedy was constructed from some of James Whitcomb Riley's poems, which made a program entirely different, but none the less in interest, from the ordinary. Following is the cast:

- Mrs. Scroggins..... Beatrice Harris
- Mr. Scroggins..... Ethel Warren
- Armadillo..... Lucille Bailey

States, but that Japan has refused. The formal armistice requested applies simply to active operations in field preparations, for war would not be prohibited at Cordoba. The Mayor of the town and commander were active in helping to control mobs, or of the town and commandment were active in helping to control mobs and sent 300 of worst offenders to Mexico City ostensibly to join Huerta's army in defense of the capital. The navy was criticized in the Senate for withdrawing ships from Tampico and leaving refugees to be taken on board of foreign ships.

Armistice Desired

Washington, April 29.—Ambassador Deyma of Brazil notified Secretary of State Bryan today that an armistice between the United States and Mexico is desired as next step in peace negotiations. The session of ministers of Chile, Brazil and Argentina began at 10:30 this morning. Progress is reported and the outlook is said to be hopeful.
