## LAKES RETAIN VAST WEALTH

SUMMER AND ABERT LAKES CAMP OF ESTABLISHING BIG SCHOOL FUND

### LAND BOARD COMMENDED

A Portland Promoter Shows What The State Would Lose by Selling The Deposits for a Mere Song

The following detailed account showing the wealth contained in Summer and Abert Lakes of this county was given in a recent issue of the Portland Journal:

A Portland promoter, who recently returned from New York city, in talking of the recent contest between contending factions before the state land board over the leasing of Summer and Abert lakes in Lake County, said:

"Probably no one in Oregon has any conception of the value of these lakes. The state of Oregon leased them some time ago. The owner of the lease organized a company in New York City, incorporating it in Delaware for \$1,000,000. A fight ensued between rival factions for control of the company. Meanwhile the old contract lapsed, each of the factions intending to make a new contract with the state and secure control. While this was going on the matter was brought to the attention of a millionaire capitalist in New York, who offered to buy the lakes outright for \$9,000,000, payment to be part cash and part common and preferred stock, in a proposed company. At a recent meeting of the land board, action was postponed pending investigation.

"The United States government has surveyed the lakes and brought out geological and topographical maps, which show the area to be 130 square miles, or 83,000 acres. The government analysis shows also that the lakes contain three salts—soda salt and potash. This analysis is confirmed by numerous analyses of leading chemists throughout the United States, which show that the water contains about three pounds of salts to the cubic foot, or a total of 40,000,000 tons of soda, and 1,500,000 tons of potash. These salts marketed at \$10 a ton would amount to \$400,000,000.

"The potash in these lakes sells as high as \$60 a ton, and the soda for about \$18 or \$20 a ton. If the state got \$1 a ton out of the whole tonnage as royalty, we would receive \$40,000,000 for our school fund, and yet the New York bidders offered the pitiful sum of \$1,250,000 to \$2,000,000 for the lakes, including the land, the amount to be paid over a long period of time. And that not withstanding a New York capitalist placed a valuation of a minimum of \$75,000,000 net, and a maximum of \$200,000,000 net.

"When we realize that practically all the soda now on the market is manufactured soda which costs from \$7 to \$9 per ton, while the Oregon soda can now be produced for \$2 a ton net, allowing the state a dollar a ton royalty, or \$18,000,000 for royalty for salt alone, we realize the safe margin there is in marketing the soda in these lakes. The soda consumed in the United States amounts to about \$20,000,000 a year, selling at from \$12 to \$24 a ton. It enters into all glass industries, into the manufacture of paper, and into the making of soap.

"The amount of soda in this lake, if wisely used, to develop the industries depending upon it, all of the raw materials of which lie in profuse quantities in Oregon, would increase the volume of business beyond all calculations. It is estimated that there is \$27,000,000 worth of common table salt, independent of the soda and potash. The potash is used primarily for fertilizing, and will be recovered as a by-product. It is worth about \$40 a ton, and the lakes contain about \$56,000,000 worth at that rate. The United States market alone consumes about \$40,000,000 worth of the products of these lakes per annum.

"The value of these lakes may be more readily realized by comparison with other forms of natural wealth. For example oil. The Great Lakeview gusher oil well is credited with a production of 40,000 barrels per day, maintaining this rate month after month, until \$3,000,000 worth of oil was thrown out of this well. It would require ten such oil wells, spouting continuously for 13 1-2 years to gush \$400,000,000 worth of solution now contained in the lakes, and the difference is that the value of the lakes does not evaporate or deteriorate in any way, but rests there in perfect conservation, to be removed at the pleasure of man.

"The value of these lakes is equal to 600,000,000 bushels of wheat. Compared to timber, at \$1 a thousand, the lakes are worth almost as much as the timber of Oregon. As to gold, ten of the largest gold mines of the West, combined, have not pro-

ven tonnage equivalent to the total tonnage of commercial salts in these deposits. While the salts are worth less, it costs less to recover them than it does to extract the value from the mines.

"And yet that immense value is locked up in a body of water covering 83,000 acres, with an average depth of only seven feet. There it lies and can be looked over almost at one view.

"Is it any wonder then that the cupidity of the capitalistic class was excited and that the bidding was fierce? These values were revealed to the state land board almost exclusively by the Portland citizen who had accidentally met them, being hawked on the market of New York city, and all honor is due the land board for its prompt action in taking the lakes off the market as soon as the real value of the property was discovered. The board's wisdom is shown in its decision to call to its assistance the advice of the citizens of Oregon on the proper disposition of these lakes.

"If these properties are properly developed and the stewardship which recovers the values is properly organized, which no doubt will be done, Oregon may develop a great industry. Such development the people of Oregon ought to, and, no doubt will demand, and they will no doubt find a ready response from the present state land board, which will make the victory just won through this board a permanent asset of the citizens of Oregon for all time to come.

The defeat of all candidates with fads and fancies in the recent primaries indicates that Oregon is coming into a more sane condition.

### Oregon Building

Within the past few days the logs which will be used as pillars around the Oregon building at San Francisco next year have been shipped. Of the total number of 48 logs to be sent, seven carloads were shipped from Portland, three carloads from Central Oregon and one car from Southern Oregon, while 12 logs will be sent by steamer from Coos Bay.

The logs have been collected from various sections of the state and were donated by lumber manufacturers. The average weight of the logs is 29,000 pounds and there is only one derrick in Portland which can handle them—that belonging to the O. W. R. & N. Co. on the Albina Dock.

The Oregon building at the exposition is to be of Grecian architecture on the plan of the Parthenon at Athens. The 48 log pillars surrounding it will be 5 feet in diameter and 45 feet high. They will be dedicated to the 48 states of the Union and each will bear the emblem of a state.

### Indigestion and Constipation

"About five years ago I began taking Chamberlain's Tablets after suffering from indigestion and constipation for years without finding anything to relieve me. Chamberlain's Tablets helped me at once and by using them for several weeks I was cured of the complaint," writes Mrs. Mary E. McMullen, Phelps, N. Y. For sale by all dealers.

Salem has raised funds for the annual Cherry Fair to be held about the end of June.

### THEY ALL DEMAND IT

Lakeview Like Every City and Town in the Union Receives It

People with kidney ills want to be cured. When one suffers the tortures of an aching back, relief is eagerly sought for. There are many remedies today that relieve, but not permanently. Doan's Kidney Pills have brought lasting results to thousands. Here is the proof of merit from this vicinity.

Mrs. William Charley, 305 N. Grape Street, Medford, Ore., says: "I had much pain in the small of my back and sometimes I could hardly bend or straighten. At night the trouble bothered me too, and often I couldn't sleep. I tried plasters and liniments but nothing helped me. When almost discouraged I heard of Doan's Kidney Pills. In less than two weeks after I began taking them, I felt better. I used in all four boxes of Doan's Kidney Pills and they made me well. Doan's Kidney Pills so completely cured me of kidney trouble that I have had no sign of it for over three years."

Price 50 cents, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mrs. Charley had. Foster-Milburn Co., Props., Buffalo, N. Y.

E. M. Andrews and associates will expend \$100,000 boring test wells for oil in the Coos Bay coal fields.

Nineteen counties in Oregon will lose \$460,398 taxes this year by suits attacking the O. & C. land grant. Litigation has already cost the state nearly as much and the lands are withdrawn from settlement.

**"606"**

Salvarsan

Prof. Ehrlich's Wonderful Remedy for Blood Poison Symptoms Begin to Vanish in Two Days

**"914"**

Noe-Salvarsan

### IMPURE BLOOD

I use the latest and best treatment for blood diseases—Professor Ehrlich's "606" or Salvarsan, and "914," or Noe-Salvarsan. They are absolutely safe. Their curative properties have been thoroughly tested throughout the civilized world. They have been accepted by the United States Army and Navy as the only treatment for blood disorders.

I administer this treatment in my office, painlessly, and will only detain you from your work from six to twelve hours. The symptoms begin to disappear in from twenty-four to forty-eight hours. If you have now, or have ever had this disease, do not fail to take this treatment.

**VARICOCELE**—One of the most common of the non-infective conditions and the condition that is responsible for a great many of the so-called nervous conditions, is a weakened and dilated condition of the veins in the scrotum. This condition can only be cured by direct local treatment; these conditions can be absolutely cured in a few days.

**BLADDER and Kidney diseases**, swelling of the feet and legs, painful and scalding urination, pain in back and sediment in urine all respond quickly to my system of treatment.

**PROSTATIC enlargement**, resulting in the stoppage of the flow of urine, and pain, treated with operation.

My treatment removes this inflammation reduces the enlargement, normal condition is quickly restored.

**RHEUMATISM** treated in all its forms by both Electricity and Medicine.

I will positively not accept incurable diseases. I am permanently located in Reno, occupy one whole upper floor consisting of six completely equipped rooms. My offices have private entrance. My business is conducted with all the privacy possible.

**STOMACH conditions**, Coated Tongue, perverted Appetite, Gasses causing a fullness and distress after eating, Heartburn, Palpitation, Dizziness and all other conditions of the stomach, show signs of improvement at once by my system of treatment.

**ACUTE DISEASES**—Itching, burning, scalding, painful passages of water. Strong injections, strong remedies seldom benefit—They cause obstruction of the urinary canal.

My treatment stops every symptom and relieves in a few days.
