

ELEVATES WATER by WATER POWER

THE COLUMBIA HYDRAULIC RAM

PUMPS AWAY UNCEASINGLY WITHOUT ANY ATTENTION

THE COLUMBIA HYDRAULIC RAM is a simply constructed and inexpensive machine that can utilize a small fall of water for the purpose of raising a portion of it to any desired height. It is the farmer's friend in the "dry season" and is indispensable to those owning land high above ditches. It will furnish water for domestic purposes, even elevating pure water of the spring by means of the impure or muddy water, as found in some streams. Requires no attention. Practically no cost of maintenance, there being no parts to get out of order. A ram will pay for itself in a short time. Every ram installed is giving utmost satisfaction. We keep a large stock constantly on hand. Write to our Hydraulic Department today for illustrated literature.

The "Sun" Colera Mixture.

More than 20 years ago when it was discovered that prevention of colera was easier than cure, a prescription by eminent doctors was published by the Sun and it took the name of the Sun Colera Mixture.

Our contemporary never lent its name to a better article. We have seen it in constant use for nearly two score years and found it to be the best remedy for looseness of the bowels ever yet devised.

No one who has this by him and takes it in time will ever have the colera. We commend it to all our friends even when no colera is anticipated, it is an excellent remedy for summer complaints, colic, dysentery, dizziness, etc.

"Take equal parts of tincture of cayenne pepper, tincture of opium, tincture of rhubarb, essence of pepper-mint, and spirits of camphor. Mix well. Dose fifteen to thirty drops in a little cold water, according to age and violence of symptoms, repeat every fifteen or twenty minutes until relief is obtained."—Journal of Commerce.
