THE NINE-LIVED CORN.

by
GEORGE FITCH.

The corn was killed in early May—
The flood had washed it quite away,
And later on it died again,
And rotted 'neath the constant rain.

Once more we tilled its final knell;
The seed had not been tested well.
Yet later it began to sprout,
Then died. The weeds had run it out.

And later yet, still thin and pale,
It perished in a storm of hail.
Then came a fierce and burning heat.
It died that week of "fired" feet.

And then the awful smut arrived
And not a single stalk survived.
And soon we watched it, in dismay,
Dry up and shrivel quite away.

Then came the last and saddest death:
It wilted 'neath the frost king's breath.
Nine times it died; and yet that fall
We built new cribs to hold it all.

Now tell me, is there any cat
With lives enough to equal that?

Barnes and Mrs. Agnes George, had passed away suddenly during the early morning.
