G. E. R. APPOINTS DEPUTIES

J. Finley Wilson of Washington, D. C., G. E. R. of the Order of Elks, has commissioned J. A. Merriman, G. T. D., for Oregon, Montana and Idaho; and Ernest W. Morton, District Deputy for Portland. Both appointees attended the Grand Lodge last August, which met in Chicago. Merriman went as a delegate while Morton went as a visitor. Both men are members of Rose City Lodge of Elks and both met and become personally acquainted with the G. E. R. while attending the Grand Lodge.

out, blossomed and burst into scintillating grandeur.

Clothes and Their Makers

But what were the dresses of the bridal party? Were it not for the advance notice of Mrs. Patton, social secretary to Mme. Walker, the world would never know; but here they are:

"Outfits," said the notice, with a dash, thus—"Bride: Gown of chiffon beaded with sea pearls over bride's satin. Tulle veil attached to Egyptian pearl headgear and caught with orange blossoms, designed and made by Mrs. Pearl Crawford Craft of Philadelphia.

"Bridesmaids, Maids of Honor: Gowns of cream colored Chantilly lace over silver cloth, designed and made by Mrs. Miriam Anderson. Matron: Silver cloth gown and chiffon hat, designed and made by Mrs. Robert Frazier, sister of the matron. Coronets of braided silver cloth, designed and made by Miss Mildred Blount; brocaded silver slippers made by the Eagle Boot Shop.

"Flower girls: Dresses of white georgette over white satin, trimmed

with real lace, rosebuds and ribbons, made and designed by Mrs. Marie Payton.
"Ring bearer: White satin suit made by Mrs. Verner Tandy, Sr.
"Mother of the bride: Gown of gold metal cloth, designed and made in Paris.
"Groom, best man and ushers: All attired in the formal morning attire."

After noticing that the bride later used by the bride to cut the cake at Villa Lewaro was lent by Major Tandy, father of the six-year-old ring bearer—who wandered down the aisle completely submerged by the excitement of it all—Mrs. Patton's advance to the press turned to the gifts to the bridal party. Thus:
"Gifts. Bride to Matron of Honor: Platted green gold bracelet fastened with lock containing two diamonds and a blue sapphire.
"Bride to bridesmaids: Ivory Episcopal prayer books.
"Groom to best man and ushers: Cases and cigarette cases.
"Groom to bride: Diamond brooch.
"Mother to couple: Especially made mahogany case containing an heirloom of 126 pieces of solid silver from Tiffany & Co."

How They Were Married

But the bride, a diminutive figure in white, comes down the aisle with the St. Phillip's choir boys singing. Professor Paul Bolin, organist, swings into Mendelssohn's "Wedding March." Dr. Jackson, who has a large practice here as well as in Chicago, stands beside the bride. The Rev. Rather Hutchins Bishop, rector of the high Episcopal church, recites the service—the ring is slipped from the white satin pillow borne by Verner Tandy Jr.—the last words are spoken, the ceremony at an end.

Neither rice nor shoes were thrown. Husky policemen made a path for the motoring and off sped the bridal party to a reception at Villa Lewaro. There, where the happy couple greeted their friends, music came from a harp, an organ, a piano and a soloist.

It was further announced that Dr. and Mrs. Jackson plan a trip through the country, visiting friends, and will be at home, when the time comes, at 4565 Calumet Avenue, Chicago.

CLEMENCY GRANTED ELAINE RIOTERS

LITTLE ROCK, Ark., Nov. 15.—Governor McRae's proclamation commuting to 12 years' imprisonment the death sentences of the six Elaine Negroes still at the State penitentiary was put on record last Wednesday.
Under the proclamations the 12 years' sentence began on Wednesday and according to present penitentiary law, the men may not be paroled at the end of a third of their terms, as is the case ordinarily. The law forbids paroling of commuted men at the end of a third of their terms.
The following is the proclamation, commuting the sentences of Frank Hicks:
The sentence of death heretofore imposed upon Frank Hicks by the Phillips county circuit court is hereby commuted to 12 years imprisonment in the state penitentiary. All were the same. They were issued to Ed. Hicks, Frank Moore, J. E. Knox, Ed. Coleman and Paul Hall.

HAMPTON INSTITUTE INTERESTS TEACHERS

HAMPTON, Va., Nov. 7. (Special.)—A party of 37 men and women from the International Institute of Education, Teachers, College of Columbia University, representing 13 countries scattered from Canada to the Far East and South Africa, left Hampton last night for Baltimore to study typical rural schools of Baltimore County, after spending three days in studying the educational aims, methods and results of Hampton Institute, the pioneer industrial school for Negroes and Indians at which Booker T. Washington was trained.
J. E. Gregg, principal, said the visit of these educators was a reminder that Hampton's training was not devised solely for Negroes, but that it should prove valuable and indispensable for every race and country. L. M. Wilson, professor of Teachers' College, referred to the world-wide interests in educational improvement, and expressed the satisfaction which foreign students find in visiting worthwhile types of American schools.
"Hampton Institute," he said, "is an extensive experiment in a type of head and hand training which is becoming more universally recognized as valuable."—Christian Science Monitor.

OUT-OF-DOORS SMARTNESS

A certain way to attain out-of-doors smartness is to invest in this sports frock of flannel and krepkneit. The plaited skirt is made of flannel, 3 3/4 yards, 36 inches wide, being required for the purpose. The blouse is fitted at the hips with a deep band of self-material and ornamented with a hand-embroidered monogram. It is sleeveless, for the absence of sleeves is one of the surest paths for smartness this season. Two yards of 36-inch krepkneit are required for the jacket.
Pictorial Review Sleeveless Jacket No. 1838. Sizes, 16 to 20 years, and 34 to 44 inches bust. Price, 30 cents.
First Model: Pictorial Review Dress No. 1700. Sizes, 34 to 50 inches bust. Price 45 cents. Motif No. 12820. Transfer, blue or yellow, 25 cents.
Second Model: Dress No. 1711. Sizes, 16 to 20 years, and 34 to 42 inches bust. Price 45 cents.

ASIA AND AFRICA CONCENTRATE ON CHILD PRODUCTION.—BIRTH CONTROL ARGUED BY WHITES; BRISBANE SAYS WHITES SHOULD SETTLE QUESTION OF WHITE DOMINATION

"Today" Title of Article by Arthur Brisbane, Copyright, 1923, by Star Company, Published as Promised in Our Last Issue, Following Garvey Article.

(Special)
There are different sorts of human beings struggling for control of this earth and its wealth, as there are different kinds of monkeys struggling for control of the forests and their products. Monkeys are unlike men in one way—those of the same breed do not kill each other. Among men, the bitterest hatreds and worst wars are within the breed. The white races have just finished the biggest slaughter ever accomplished—and more killing is in sight.

Time, famine, plague, birth-rate, death-rate, and war will decide which race shall inherit the earth, rule and own it.
The white races are doing all they can do to make sure that yellow, brown or black men shall not rule.
China and Japan are producing children, millions a year, and when the Chinese and other Asiatic races take the trouble to keep their children alive, the swamping of the white race will be not far off.

While Asia and Africa concentrate on child production, the whites argue about birth control, and the right of white women to keep down the size of the family.
Women have the right to regulate birth, if they choose, of course, just as men have the right to regulate their hours of labor. And if the alternative to a small family is poverty, sickness, mothers broken in health, the mothers would be foolish not to limit families.

Why are not the white races sufficiently intelligent to take care of white children, when they arrive, see that they get food, sunshine, fresh air, education and exercise?
Why does this country keep sending back to Europe healthy, ambitious, desirable white men, women and children, instead of making of our vast, uncultivated areas a breeding ground for a white race big enough forever to guarantee white supremacy, at least on this continent?

Here and there you encounter signs of intelligent appreciation of the value of a new-born white human being, the result of one hundred million years of evolution.
In England there are special homes and maternity hospitals provided for unmarried mothers. England buried 900,000 white men in the big war, is caring for an army of cripples. She knows that white men are valuable.

France with even greater loss in war, and with a birth rate below the death rate, also makes provision for babies born out of wedlock. A beautiful home near Paris has been provided for such mothers and their children. The babies are cared for, while the mothers go out to work. Work is found for the mothers and they are not treated as criminals, forever lost and disgraced.

Immoral? Possibly it may diminish fear of consequences. But suppose the Angel Gabriel wrote on one page this: "Unmarried mother and her child well cared for in England. And on another page this:
Unmarried mother in America throws her new-born baby into an ash barrel. Arrested, charged with murder, commits suicide in her cell. Which item would seem most offensive to Divine Providence?

Knowledge is spreading among all races, including knowledge of health laws. The races with which whites must compete will not forever create new babies, merely to bury three-

quarters of them in infancy. The British Empire teaches hundreds of millions of non-whites under its rule, how to live, and keep alive.
Britain also teaches them to think politically and allows them at least to imitate democratic government.
Egypt, after being ruled by outsiders for thousands of years, will now vote, and go through the motions of self-government.
India, also, will interrupt her long sleep with a sort of self-control. Agitators in India are indignant because India's 300 millions are not to share per capita on equal terms in the management of the British Empire, and angry that British South Africa excludes and segregates Asiatics.
But Britain encourages her Asiatics to think, teaches them hygiene, how to compete for world rule, by numbers.

Thinking, breeding, voting, in however pathetic and futile a way at first, will build up national consciousness and vast populations.
The whites, butchering each other in war, starving children, worrying mothers and discouraging fathers, in industry, never realizing that the real war must be a race war and a war of numbers, are preparing trouble for themselves.
Australia, not ten per cent populated, invites with her empty spaces, the land hungry hordes of Asia. Her one thought is to "restrict immigration." In that she is as foolish as the United States, which needs 100 million competent white men and women.
The flying machine makes the oceans narrower every year.
Soon it will be a short flight from Asia to Australia or to the United States. Asia will not always travel on little ponies, as in the days of Atilla.

White races should stop killing, cheating, invading, robbing each other, and concentrate attention on increase of the white race. They should take as much interest in a new white baby as in a new poison gas or high explosive. And this country should build up a sufficient white population to settle forever any question as to white domination.

NEW IDEAS FOR SIMPLE FROCKS
Almost any member of the crepe family would obligingly serve in the development of the first frock in one of the new shades of gray. The long-waisted blouse is tucked at the shoulders, the front being embroidered with a motif in a monotone of gray. The girdle is of ribbon, tied in sash effect at the back. Medium size requires 3 3/4 yards 40-inch material.
One simply must not attempt to go through the season without a figured silk, and here a compromise is made between a block effect and a definite pattern, since both evidently were determined to be featured. The front is bound and slashed with plain silk to correspond with the girdle and the narrow panel which shows where the skirt is parted at the front. Medium size requires 1 yard 36-inch plain and 3/4 yards 36-inch figured silk.
First Model: Pictorial Review Dress No. 1700. Sizes, 34 to 50 inches bust. Price 45 cents. Motif No. 12820. Transfer, blue or yellow, 25 cents.
Second Model: Dress No. 1711. Sizes, 16 to 20 years, and 34 to 42 inches bust. Price 45 cents.

Our recompense for the many years of silent endeavor to lift the standing of our calling, comes in this realization; in the hearts of many old Portlanders is the grateful thought, "Holman and Son, by their success and watchful efforts lessen the weight of my grief."

PRESIDENT COOLIDGE STATES PLAINLY POSITION ON RACE QUESTION IN HIS FIRST MESSAGE BEFORE U. S. 68TH CONGRESS
December 6th, before the 68th U. S. Congress, in his message, President Calvin Coolidge said:
"Numbered among our population are some 12,000,000 colored people. Under our constitution their rights are just as sacred as those of any other citizen. It is both a public and a private duty to protect those rights. The congress ought to exercise all its powers of prevention and punishment against the hideous crime of lynching, of which the negroes are by no means the sole sufferers, but for which they furnish a majority of the victims.
Already a considerable sum is appropriated to give the negroes vocational training in agriculture. About half a million dollars is recommended for medical courses at Howard University to help contribute to the education of 500 colored doctors needed each year. On account of the migration of large numbers into industrial centers, it has been proposed that a commission be created, composed of members from both races, to formulate a better policy for mutual understanding and confidence. Such an effort is to be commended. Everyone would rejoice in the accomplishment of the results which it seeks. But it is well to recognize that these difficulties must be overcome."

A DOZEN GOOD REASONS FOR SAVING

4

Great men have always said "SAVE" on legal matters we accept the counsel of attorneys; on matters of health, the doctor; Why not accept the advice of business success on our own business problems?
When outstanding successes like Rockefeller, Carnegie, Hill, Wanamaker and Field say their success began with saving, and advise all young people to save, we have counsel that is well worth heeding.
