4485 FALL STREET FROCK

Smartly distinctive is this youthful street frock with the pointed motif of the buttoned-over upper-fronts repeated in the lower sections of the blouse and the front of the skirt. The four-piece circular skirt which joins the blouse at a low waistline is just what they are wearing on the fash-ionable boulevards of Paris at this autumn season. This frock is especially stunning in the new woolen fab-rics which are enjoying such popularity in the present day mode, such as
