"Don't ask for rights. Take them. An don't let anny wan give them to ye. A right that is handed to ye fr nawthin' has somethin' the matter with it." — Mr. Dooley.

Fraternalism Practice

Thinking men and women, members of some of our fraternal organizations, and others who might become members, are tired of so much high-sounding boasting and braggadocio indulged in by some of the leaders and members of these organizations.

False Philosophy

The Negro should cling to every right guaranteed to him by the constitution as an American citizen. Hard as it is to hold what is his, it is easier than to recover what has been lost.

Some Sound Advice

Under the caption, "Save Your Money," The Tribune, of Philadelphia, Pa., says:

"There is a growing tendency to spend next year's income this year. Our resources are recklessly spent. When hard times and dark days come, there is no better guarantee to ease the load and scatter sunshine than hard cash.

Friends may forsake you, and they generally do, when adversities come knocking at your door. In the trying days of sickness and death, when you are out of a job and the rent man taps at the door you can smile when you have cash.

Investigate the poor houses and jails, and the inmates were prosperous in their youth, but as a result of blind spending, their days are spent in bitter thought of what they could have been, had they saved something in the days of plenty.

A miser is just as distasteful as a pauper. The golden mean is the better policy. Spend a little and save a little. But to squander every penny is the way of a fool.

Check over the list of your acquaintances and find how many at one time were making money who are now in need of charity. Wise men profit by the mistakes of others. For fear we have not made it clear—save some money!

Remember the olden days when a sheik was a fellow who didn't shave, seldom bathed and spent a greater part of his time picking off the sand fleas and currying camels? The modern sheik shaves every day—spends most of his time picking off flappers and smoking camels.

The Negro Not Mentioned

Much comment has been made over the fact that President Hoover—in his inaugural address—did not specifically mention the Negro. But just why should he? The Negro constitutes a part of these United States just like other racial groups—even if he is treated as an orphan.
