Dewey L. Johnson was host at a performance of "Strange Interlude" at the Heilig Theatre Wednesday. In his party were the following: Misses Helena Harper, Nellie Allen, Jennie Dora Gralson and Marion Allen and Messers. W. D. Allen and Henry.

During intermission, 7:40 to 9 they enjoyed dinner at the Hotel Golden West Restaurant. Mr. Johnson motored here from Los Angeles where he has been filling a singing engagement. He will leave shortly on his journey to Philadelphia and New York City, where he has singing engagements.

Messers. Roy and Guy Holmes were hosts at a delightful stag dinner Monday, August 5, at the home of Mr. and Mrs. W. G. Bird, 681 Gantenbuen Ave. The dinner complimented Mr. Hunter of Denver, Colo., covers were laid for six.

Miss Marion Allen is here from Brooklyn visiting her cousin, Miss Nellie V. Allen, 410 E. 40th St., N.

Mrs. Maud Booker will arrive home this evening from a three weeks' vacation in Seattle.

Miss Geneva Gong, brilliant young Chinese singer who will soon go east to continue her music education, entertained at a delightful Chinese luncheon Tuesday at the Hung-Far-Low restaurant. Her guests were William Duncan Allen, Miss Kathleen Hellerman, Dewey L. Johnson of Los Angeles and Miss Alma Lawrence. A musical program participated in by all the guests was a diversion.

Mrs. Martha Simpson entertained Saturday evening at a delightful house party, honoring Mrs. Dickerson of Fort Worth, Texas.

We stated in last week's social columns that Miss Chlotilde Curry was visiting in the city. Miss Curry will not arrive until later in the season.

The reception given by Mesdames J. A. Wisdom and L. E. Johnson Saturday evening at the home of the former, was a delightful social success. The affair complimented Mes. Coley, Scuggs and Bruce of Little Rock Ark., who are here visiting Mrs. W. B. Brown. Mrs. Coley is engaged in farming. She owns more than 900 acres of fertile farm land. While she does not live in the country, yet she motors out at regular intervals to check up on the situation and see if her many employees are "on the job". Mrs. Bruce is a teacher in the public school system of Little Rock. The ladies in company with their hostess spent the past few days at Seaside, enjoying the warm sunshine and bathing in the Pacific.

Mrs. E. D. Cannady was the dinner guest of Mrs. J. Gross at her home in Woodstock, Tuesday evening.

they are so cruel.

Well the Average Voter won't have to do any thinking at all at all, in the coming campaigns. There will be plenty of organizations to tell him what to think when to think and just how he has got to vote if he values his business, his social position and his right to live and pay taxes. We have the Women's Republican Club, the Minute Men, the American Legion the Jackson Club and now they tell us that the Knights of the Pillow Slip, the KKK's are quietly organizing again I wonder who made the Jews, the Catholics and the Negroes. Surely not the Lord—He is claimed by the KKK. How could a Creator do both groups? I wish some one would total the taxes paid by the Jews, Catholics and Negroes and compare the amount of taxes paid by the KKK's. Do we know them of course we do. By the sign of cowardice—they cover their faces.

Well I see that the common people haven't enough burdens to carry. In addition to the proposed tariff on sugar which will reduce the amount of sugar in our sugar bowls for some of us and banish it from the tables of most of us, we are confronted by that perennial garbage collection scheme sponsored by our Dorr E. Keasey. I wish the Minute Men or some body of decent people would appoint a discreet person to watch that man—he is always in some scheme that spells discomfort for somebody. Of course we know he has an inside track at the City Hall. Now he wants everybody to be compelled to pay his company 50 cents a month for garbage collection. Then the garbage will be turned over to the city incinerator where we pay again in the shape of taxes, to have it destroyed. If I choose to give my table scraps to my chickens to eat why should I be compelled to dig up 50 cents a month to have it standing around in a garbage can to ferment and smell to heaven waiting for the Keasey Garbage collector? And what a nice percentage of profit there will be on the garbage cans we will have to buy. Women of the Housewives Council—attention and forward march The Chamber of Commerce says you are a lot of meddlesome old women—her is another chance to "meddle" for the common people who cannot do their own meddling.

HAIR GROWER

Read what just one person says about it. This testimonial can be multiplied over and over again.

March 1st, '23.

To Whom it May Concern:

This letter is for the purpose of endorsing the Thomas original discovery for baldness. A new scientific method that has rejuvenated my scalp to the extent that my hair began to grow and developed into a luxurious growth. Even the temples that were entirely bald are now covered with a healthy crop of hair. The Thomas are real hair growers and I can recommend them to anyone.

Very truly yours, J. M.

Older motors with big piston clearance could stand lots of carbon

The new high-compression motors have as little as 1/32 of an inch between the top of the piston and the cylinder head—flint carbon is ruinous to them, even in small quantities

A handful of flint carbon... and only 1/32 of an inch to put it in

You've probably seen mechanics working on one of the older type motors—scraping layers of carbon off the piston heads—a big handful of it from one motor!

But the newer engines could never stand such carbon deposits. Some of them have only the thickness of a knife blade between piston and cylinder head—no room at all for carbon.

What causes carbon?

The carbon that builds up in your motor comes from burned oil. And it is a strange fact that often the highest priced lubricants will give you large quantities of gritty, hard carbon. In spite of all this it is easy now to avoid car-

bon-forming oils. For science has perfected one oil that is vitally different.

Only a little soft soot

Shell Motor Oil, the result of a new refining process, forms less than one-third the carbon of even the costliest oils; no hard carbon, only a little soot that blows easily away through the exhaust.

Its lubricant value is far greater than old type oils. Careful refining leaves all its "body" intact ready to resist even the most violent changes in temperature.

Insist on Shell Motor Oil every time you buy. It is almost a necessity in today's motors.

Not only does Shell Motor Oil form 2/3 less carbon—the little it does form is soft, soot-like, a kind that blows easily away

SHELL MOTOR OIL

Shell 400, the new "dry" gas that burns cleanly and keeps out of the crankcase, is the ideal running mate for Shell Motor Oil. Even Shell Motor Oil can be ruined by "thinning" with a "wet" gas
