

Dr. Bunker's Handwriting Analysis

reading your Dept. and they should

"What shall I do?" This is the question that one of our girls asks me in a letter that has just come to this office.

It is a problem that she needs help in solving, and which may interest you. Here is her letter:

I wish you would help me know myself. I have been reading how handwriting shows what natural talents we have, and if I have any, I would like to know it. Ever since I was a tiny girl I have wanted to get a business training and work in an office. My friends, at least some of them, say I am foolish, and that I should plan to be a nurse. But I don't want to be a nurse. I want to be a stenographer, and I would like to know whether I have the natural talent for that kind of work.

MARY C.

Just now you may have a problem such as this. Mary's writing shows that she learns very quickly, indeed, that she is warm-hearted, kindly, and is very orderly. She has a fine sense of humor, appreciates a joke, even when it is on herself. She is hopeful, expects things to be better tomorrow than they have been today.

She is not a long way from being quarrelsome, and though she can talk easily, she is not too talkative.

These are some of the things we can learn from this bit of her writing; and they are things, as you will agree, that will help her in business. She shows quite a desire for ownership. This is a good business trait. She reaches out to own, without becoming stingy. This indicates that she will see opportunities in business, and take advantage of every one that will help her make her life a success.

With this knowledge, Mary will never make a mistake by going into some school, and getting a good business course. If she cannot do this, she can easily learn shorthand and typewriting at home, and so get ready for a good place.

The important thing for Mary is that she has talent, and now she can go ahead, confident of her own ability to make good.

You have some ability which you show in your handwriting, just as you show temper or a love for dancing in the way you write. No matter what your nature, you will show it clearly in the way you write. It never fails.

TO REMOVE INK FROM CLOTH

For white materials use salt and lemon juice and leave in sun, or a weak solution of chloride of lime (any washing and bleaching fluid, serves this purpose). For colored materials, to remove blue or black ink use ammonia and oxalic acid applied alternately, then rinse out thoroughly. For purple or red ink apply alternately solution of potassium permanganate and oxalic acid.

Note: In using oxalic acid with other chemicals apply the oxalic acid last, and rinse after each application before again applying acid. Dilute it one-half for delicate fabrics and colors.

OLD SORES AND ULCERS CAN BE HEALED

"This sincere letter," says Peterson, "gave me another happy day and as nearly every mail brings praise for Peterson's Ointment, is it any wonder that I keep cheerful all the time?"

"Dear Sirs: I had a bad leg for 20 years, tried everything but no benefit. I tried Peterson's Ointment and five 25 cent boxes healed my leg. I can never praise it enough. My leg was so painful at first that I had to put fresh ointment on every two hours, night and day. It stopped the pain at once. Mrs. Mark Richards, Lake Linden, Mich."

Besides running and old sores and ulcers, Peterson's Ointment is just as good for piles, eczema, itching skin, sore feet, prickly heat, sunburn, chafing, cuts, burns, bruises, scalds and sores of other ailments as any druggist anywhere will tell you. A generous box 35 cents.

I just must tell you that McCoy's Tablets are the finest things I have ever tried. I have always been thin and never found anything to do me so much good. I was disappointed in the beginning.

Signed (Mrs. W. E. Looney)
