No Taste  
But the Mint  
At Druggists—15c, 25c

Keep youth longer!  
cleanse the system of poisons

Two of the great enemies to youth and vitality are delayed elimination and intestinal poisons. To keep yourself free from both these common difficulties will help you to stay young. With the use of Nujol you can do it too. For Nujol absorbs body poisons and carries them off, preventing their absorption by the body. Nujol also softens the waste matter and brings about normal evacuation. It is harmless; contains no drugs or medicine. It won't cause gas or griping pains, or affect the stomach or kidneys. Every corner druggist has Nujol. Make sure you get the genuine. Look for the Nujol bottle with the label on the back that you can read right through the bottle. Don't delay, get Nujol today.

"The Golden Bowl," a religious pageant will be presented at the Municipal auditorium, November 20, by Portland churches. Mrs. Worrell is rehearsing the parts. Several colored churches and their choirs are taking part and will appear in the Congo episode.

**HAIR GROWER**  
Read what just one person says about it. This testimonial can be multiplied over and over again.  
March 1st, 1923.  
To Whom it May Concern:  
This letter is for the purpose of endorsing the Thomas original discovery for baldness. A new scientific method that has rejuvenated my scalp to the extent that my hair began to grow and developed into a luxurious growth. Even the temples that were entirely bald are now covered with a healthy crop of hair. The Thomas' are real hair growers and I can recommend them to anyone.  
Very truly yours,

### "THAT LITTLE GAME" Inter-nat'l Cartoon Co., N.Y.—By B. Link

Older motors with big piston clearance could stand lots of carbon.

The new high-compression motors have as little as 1/32 of an inch between the top of the piston and the cylinder head—flint carbon is ruinous to them, even in small quantities.

# A handful of flint carbon... and only 1/32 of an inch to put it in

Not only does Shell Motor Oil form 2/3 less carbon—the little it does form is soft, soot-like, a kind that blows easily away.

You've probably seen mechanics working on one of the older type motors—scraping layers of carbon off the piston heads—a big handful of it from one motor!

But the newer engines could never stand such carbon deposits. Some of them have only the thickness of a knife blade between piston and cylinder head—no room at all for carbon.

#### What causes carbon?

The carbon that builds up in your motor comes from burned oil. And it is a strange fact that often the highest priced lubricants will give you large quantities of gritty, hard carbon.

In spite of all this it is easy now to avoid car-

bon-forming oils. For science has perfected one oil that is vitally different.

#### Only a little soft soot

Shell Motor Oil, the result of a new refining process, forms less than one-third the carbon of even the costliest oils; no hard carbon, only a little soot that blows easily away through the exhaust.

Its lubricant value is far greater than old type oils. Careful refining leaves all its "body" intact ready to resist even the most violent changes in temperature.

Insist on Shell Motor Oil every time you buy. It is almost a necessity in today's motors.

# SHELL MOTOR OIL

Shell 400, the new "dry" gas that burns clean and keeps out of the crankcase, is the ideal running mate for Shell Motor Oil. Even Shell Motor Oil can be ruined by "thinning" with a "wet" gas
