FOR SKIN IRRITATIONS

**Keep youth
longer!**
cleanse the system
of poisons

Two of the great enemies to youth and vitality are delayed elimination and intestinal poisons. To keep yourself free from both these common difficulties will help you to stay young.

With the use of Nujol you can do it too. For Nujol absorbs body poisons and carries them off, preventing their absorption by the body. Nujol also softens the waste matter and brings about normal evacuation. It is harmless; contains no drugs or medicine. It won't cause gas or griping pains, or affect the stomach or kidneys. Every corner druggist has Nujol. Make sure you get the genuine. Look for the Nujol bottle with the label on the back that you can read right through the bottle. Don't delay, get Nujol today.

COLOR CONTRAST

Color contrast, a highlight of the mode for grown-ups, is equally important in frocks for the junior. Chanel is one of the designers who trim dark frocks with two or more bands of contrasting color. The result is striking and decidedly new in appearance. The frock shown here has a double collar and double cuffs, in two colors. It further proclaims its adherence to the new fashions by displaying a long bodice, to which a circular skirt is attached in a series of points. The belt is placed at the natural waistline, and should match a trimming color.
Excella Pattern No. 2939. Sizes 8 to 14, 25 cents.

Older motors with
big piston clearance
could stand lots of
carbon

The new high-com-
pression motors have
as little as 1/32 of an
inch between the top
of the piston and the
cylinder head—flint
carbon is ruinous to
them, even in small
quantities

**A handful of flint carbon ...
and only 1/32 of an inch to put it in**

Not only does Shell
Motor Oil form 2/3
less carbon—the little
it does form is soft,
soot-like, a kind that
blows easily away

You've probably seen mechanics working on one of the older type motors—scraping layers of carbon off the piston heads—a big handful of it from one motor!

But the newer engines could never stand such carbon deposits. Some of them have only the thickness of a knife blade between piston and cylinder head—no room at all for carbon.

What causes carbon?

The carbon that builds up in your motor comes from burned oil. And it is a strange fact that often the highest priced lubricants will give you large quantities of gritty, hard carbon.

In spite of all this it is easy now to avoid car-

bon-forming oils. For science has perfected one oil that is vitally different.

Only a little soft soot

Shell Motor Oil, the result of a new refining process, forms less than one-third the carbon of even the costliest oils; no hard carbon, only a little soot that blows easily away through the exhaust.

Its lubricant value is far greater than old type oils. Careful refining leaves all its "body" intact ready to resist even the most violent changes in temperature.

Insist on Shell Motor Oil every time you buy. It is almost a necessity in today's motors.

SHELL MOTOR OIL

Shell 400, the new "dry" gas that burns cleanly and keeps out of the crankcase, is the ideal running mate for Shell Motor Oil. Even Shell Motor Oil can be ruined by "thinning" with a "wet" gas

HAIR GROWER

Read what just one person says about it. This testimonial can be multiplied over and over again.
March 1st, 1923.
To Whom it May Concern:
This letter is for the purpose of endorsing the Thomas original discovery for baldness. A new scientific method that has rejuvenated my scalp to the extent that my hair began to grow and developed into a luxurious growth. Even the temples that were entirely bald are now covered with a healthy crop of hair. The Thomas' are real hair growers and I can recommend them to anyone.
Very truly yours,
J. M.
