### The Shame of America

"Sherman, Texas has a population of slightly more than 16,000, 95 per cent of whom are whites. The town has two denominational colleges, 27 churches and a Y.W.C.A. with a large membership." Thus a newspaper despatch describes the "Athens" of Texas which for 14 hours was under the dominion of a mob which resorted to every form of bestial cruelty in its effort to lynch a Negro who was already in charge of officers of the law. It succeeded in burning the Negro to death and the courthouse with him. It destroyed a considerable part of the Negro quarter of the town. In no part of the civilized world but America would such a thing have been possible. It is somewhat to the credit of Texas that the Governor has put the town under martial law and that there have been actual arrests of the alleged leaders of the mob. Whether they will be convicted remains to be seen. A mob such as this, while it is raging, can only be met with force and sternness. Future mobs are likely to be discouraged by severe punishment. But the question of mobs, the crowd psychology which lies behind them, and the special cultural and economic circumstances which make them possible in America, demand investigation. What have Sherman's good citizens to say? Will they carry out the proposal of a clergyman that the Negroes be recompensed for the damage done to their property? The United States has no rightful place in any civilized community of nations unless it can stop this sort of thing.

### Gold Star Mothers Decline Jim Crow Pilgrimage Abroad

New York, May 9—Twenty-four colored Gold Star Mothers to date have written to the N.A.A.C.P., in response to its request, enclosing signed petitions to President Hoover as Commander-in-Chief of the Armies of the United States, asking that he order the abolishment of color segregation on the pilgrimage of mothers to graves on European battlefields, and failing that, declining to go on a Jim Crow pilgrimage.

The N.A.A.C.P. has also protested to President Hoover the War Department's decision that there be separate but equal accommodations for colored mothers, urging him to overrule this disposition of the matter. In the letter to President Hoover the N. A. A. C. P. says in part:

"It was our hope that it would not be necessary for us to take up this matter with you, but repeated protests from white and colored individuals, many of them of great prominence, including governors and members of Congress, and from organizations among them the N.A.A.C.P. have resulted in unequivocal statements from the War Department that it will segregate Negro Gold Star Mothers."

### WILBUR, ALEX. LEGGE DISAGREE ON CROPS

#### Government Agencies Will Continue to Boost.

Washington.—While Chairman Alexander Legge of the federal farm board is striving to reduce wheat and other surplus crop acreages, other government agencies will continue to encourage agricultural development in new areas.

Officials of the other agencies, notably the reclamation bureau of the Interior department, are forced to go forward with their programs in the hope of recovering the government's money from so-called "revolving funds."

Mr. Legge a short time ago expressed his opposition to the development of new reclamation enterprises and will have the co-operation of Interior department officials in so far as proposals to authorize new projects are concerned. But projects already authorized and for which congress is appropriating about \$10,000,000 annually for new construction, Interior department men will keep going in order not to jeopardize the eventual collection of more than \$150,000,000 which is supposed to be repaid to the government.

Although reclamation sponsors seek to minimize total production in connection with a discussion of the agricultural surplus situation, they point with considerable pride to the fact that the value of all crops produced on government irrigated land in the quarter of a century since the passage of the reclamation act has amounted to a billion and one-half dollars. Latest figures show an annual crop value of \$143,000,000, an increase of \$10,000,000 over the previous year. Of the total about 5 1/2 per cent represents wheat, which means that the government is furnishing water to produce annually about \$8,000,000 worth of the crop which the government farm board is trying to reduce to stabilize prices.

The general land office, another agency of the Interior department, also is ready to encourage development of new areas. The latest annual report of the commissioner of the general land office shows the approval of 8,236 homestead entries for patenting.

Secretary of Agriculture Arthur M. Hyde has taken cognizance of the part played by the government in contributing to the present farm surplus situation by its land settlement activities.

"Much of the economic hardship suffered by farmers has been caused by the rapid expansion of the area devoted to farming," said Secretary Hyde in his recent annual report. "Our public land laws and policies have favored expansion. Expansion has been misdirected as well as overstimulated."

### Tuberculosis Kills 1 out of 5

*of all who die between 15 and 45*

It is the enemy of steady employment, high wages and prosperity. For tuberculosis strikes during the most productive years of life.

### Fashions for the Smart Woman

ALONG COMES THE CAPE

Just as every one was exclaiming enthusiastically over the return of picturesque types—Fashion created a further stir of enthusiasm by launching the cape as a major theme for spring and summer. And here it is, destined already to enjoy a long career. For the cape this year is varied enough to satisfy Fashion's most discriminating audience. The little shoulder cape which serves as a short sleeve—as shown on the sketch above—is a favorite with the younger set. Its youthful character is emphasized with three bows placed on the bodice in the manner of Chanel.

Pictorial Printed Pattern No. 5156.  
 Sizes 12 to 20, 50 cents.

### Notice to the public

SUPPOSE you are today paying 50c a tube for your tooth paste (and there are many very good dentifrices selling today at that price).

Suppose, like most people, you buy about twelve tubes during a year. Now if you knew that you could buy as good a dentifrice as can be made and still save each year the price of 25 loaves of bread or 60 bars of soap or 40 pounds of sugar or a box of fine cigars—could you conscientiously fail to take advantage of such an opportunity?

That is exactly what you do when you buy Listerine Tooth Paste at 25c for a large tube. Figure it out for yourself.
