

JUST ELEVEN MORE DAYS!

It Is Now Only a Matter of a Few Days! Help Your Favorite Candidate NOW! What Will the Next Few Days Mean to You? SUCCESS or REGRET!

Realize now . . . before it is too late . . . that a big First Period Class for any candidate means the difference between the beautiful enclosed automobile you have your heart on, and a lesser prize. It is important that the big prize-winning candidates have a reasonable commanding standing in votes if they are to carry on to the end at the top of the list. Right now it is anybody's race. No one has a lead in votes that can not be easily overcome under the present vote

schedule which prevails up to 12:00 o'clock WEDNESDAY, MAY 27. After that, all-important hour in this truly wonderful prize offer The Advocate is making, it will be no easy matter to close any big gap between candidates. You might ask why all this fuss over one certain midnight . . . they come every 24 hours. But we want every candidate to realize as we do, the necessity of a good first period if they hope to succeed in a big way.

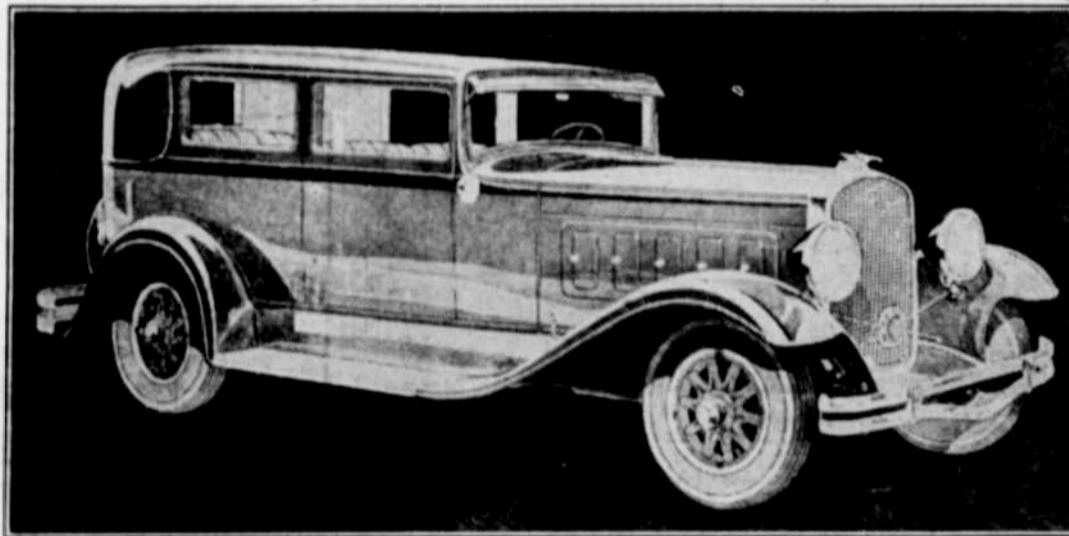

Better far to understand it now than to wake up later and say: "If I had only realized how valuable were those big vote days, it would have been different." So make these net few hours truly golden in your life. Leave no stone unturned in your work for subscriptions. Nominations are not yet closed . . . you who are still considering entering should start at once! Campaign Department Phone ATwater 2536

QUAKE PICTURES REACH PAPERS BY TELEPHOTOGRAPH

Photos of Nicaraguan Disaster Sent by Wire From Atlanta After Arrival by Plane

Pictures of the earthquake-shattered ruins of Managua, Nicaragua, were received in New York City and in other cities throughout the country only thirty-six hours after they had been started on their way from the Nicaraguan capital—a new record in the transmission of photographs.

These pictures of the Nicaraguan disaster were sent via airplane and the telephoto service of the American Telephone and Telegraph Company. The pictures left the flying field near Managua at 2:30 P. M. on Wednesday, April 1, in a Pan-American Airways plane, traveling on its regular mail schedule. The plane reached Havana, Cuba, by way of Salvador, Honduras, and Mexico at 6:15 P. M., Thursday, and a special plane with motor running was waiting. This plane took off for Miami ten minutes after the arrival of the plane from Nicaragua. It reached the Florida city at 7:30 P. M. Special arrangements had been made there with the customs service, so that there was no delay.

Ten minutes after their arrival in Miami the films were in the air again in another special plane bound for Atlanta, Ga., the nearest point where telephoto sending apparatus is maintained. The films reached Atlanta at 2:05 A. M., Friday, April 3. There they were swiftly developed, and within a few minutes nine pictures were ready for the telephoto machine. At 2:30 A. M. the first was in New York, ready for publication, and at the same time they were also speeding on the telephoto circuit to the cities of St. Louis, Cleveland, Boston, Chicago, Los Angeles and San Francisco.

Value

"A telephone instrument on your desk is of no value if nobody else has one. But place telephones in the offices of a thousand other business men and connect them by a central switchboard, and the value of your telephone is at once apparent. As the number of telephone users increases, the value of your own telephone increases because the number of possible contacts is increased."—American Institute of Banking News.

There are more than twenty million telephones in use in this country at the present time, compared with only about 1,250,000 at the beginning of the century. During the last ten years alone the number of telephones in the United States has increased more than 50 per cent.
