Filling in an Idle Moment

I was invited to the home of my boy friend for the first time and naturally wanted to make a good impression upon his parents and sister. We were all sitting in the living room talking. Everything went well until a few moments of silence intervened. I tried hard to think of something to say, and upon glancing at his sister I said, "You have a runner in your stocking." She answered, "They are clogged with openwork up the sides."

Could I have gone through the floor after her answer I surely would have. I still am conscious of my error when I see his family.—M.S.

WEEK'S POEM

LOVE'S OFFERING

No royal throne, nor diadems,
No treasure, spoil, nor precious gems,
No wreath of flowers fresh and fair,
Breathing the pure and scented air,
No summit heights of perfect bliss
Revealed in prayerful promises;
These fail ignobly to impart
The feelings of a loving heart!
Greater far than all else given,
Prized, beside a gift from heaven,
Is love that serves unselfishly,
In faithfulness and constancy.

H. I. MOLONEY.

WHEN lazy glands won't open, the hair is starved and faded.

WHEN lazy glands don't close, scalp is fouled by secretions.

LAZY GLANDS

Foul the Scalp!....

If the tiny glands in your scalp have fallen asleep—look out! The consequences won't end with just dandruff! It may take a year or more for the pore-filth to reach the surface.

Scaly scalps that make you turn your eyes away, began with "just a little dandruff."

The next commonest sign of gland trouble is when the color of one's hair begins to fade, or becomes streaked.

There is only one thing that will ever help heads in this state of stagnation: you must stimulate the tiny glands that feed the hair and give it color. Massage will do this. Use the fingers. Dip them in

Danderine—to cut through the crust and penetrate the pores—and do this daily. One treatment will settle the dandruff. One week will find your scalp as clean and wholesome as a little girl's. The second week will have the glands wide-awake and working. That is when your hair begins to live and begins to thrive and grow!

Remember, it's massage that does it. And it's Danderine that gets through to the glands. Just rubbing something on the head won't stimulate lazy glands! Get a bottle of Danderine today, start your treatments tonight, and see what happens when those lazy glands come to life! Your druggist has it.
