the group units were very dissimilar but the tactful general committee correlated the whole. In the various municipalities of the state Negroes took part mostly in the Yankee or native American units. However, in Boston they had a special evening in which the pageantry of Negro contributions to American civilization was exhibited with credit. Indeed, their pageant was as impressive, spectac-

How to train BABY'S BOWELS

Babies, bottle-fed or breast-fed, with any tendency to be constipated, would thrive if they received daily, half a teaspoonful of this old family doctor's prescription for the bowels. That is one sure way to train tiny bowels to healthy regularity. To avoid the fretfulness, vomiting, crying, failure to gain, and other ills of constipated babies. Dr. Caldwell's Syrup Pepsin is good for any baby. For this, you have the word of a famous doctor. Forty-seven years of practice taught him just what babies need to keep their little bowels active, regular; keep little bodies plump and healthy. For Dr. Caldwell specialized in the treatment of women and little ones. He attended over 3500 births without loss of one mother or baby.

lar and enlightening as any. But they are not recorded. Books on file. There are several books on file in the public library pertaining to the

Tercentenary written since the event. One is a Historical Review of the event issued by the Committee on Racial Groups of the Massachusetts Bay Tercentenary, Inc., 1630-1930. It

contains contributions to civilization of the Armenians, French, Germans, Greeks, Italians, Letts, Lithuanians, Poles, Russians, Swedes, Syrians, and Ukrainians. Mrs. William Lowell Putnam, a Yankee, is chairman of the committee, which ipso facto, gives her group representation. But there is no mention made therein of Negroes' contributions.

No Mention of Negroes
Neither is mention made of Negroes in any of the other written matter on the subject so far seen. Therefore three hundred years from now no one will know that Negroes participated in the celebration. There will be no history to prove it. If the attitude of Americans toward Negroes were normal, the question of race or color would be undebatable. Why should Sir William Phips's race be of so much concern as to invoke the gods of protest? Why does it matter, so long as he was an American? Aside from the fact that no man knows what he himself is, there is another angle of fact, and that is that many men pass for what they are not, and the deception is simplified by a gullible social order.
