Every day we hear the complaning women about the reduction in salaries and the lack of material prosperity. One thing can be said that if the American women did'nt make so nany demands on their husbands for luxuries, we probably would have been spared the regenerating effect of a financial slump.

It is a wonderful thing to be con tented with one's lot and not strive for material things. It is the striv These ing for these things that makes wrinkles and gray hairs, and causes discontent and unhappines, and is the When women can't get their alimony Many medical and have to battle in the arena of the

It should not be necessary to dwell the misfortune of losing a tooth Nearly everyone knows that each tooth has a definite function to perorm. If one of the teeth is missing our chewing apparatus is affected and we have a situation similiar to that of an automobile with one of its cylin ders missing.

An important function of any tooth side from grinding our food is to hold the teeth on either side of it in their proper positions. If a tooth is lost the teeth on either side tip to-ward the vacant place, the teeth next to these teeth move slightly toward the empty space and so on. Thus the WEDNESDAY, THURSDAY AND impairment of the efficiency of every tooth in the jaw

In this book we leran of the struggles of a long line of valiant Haitian slaves who rose up in rebellion, fight ing against the odds of strong governments in order to bring freedom to their fellowmen. This, eventually they were able to do and in 1804 the Haitians threw off the yoke of slavery, setting up their own state of independency.

This period is then followed by over a hundred years of political intrigue and the overthrow through trickvery interesting "The Story of Haiti",

AUSPLUND DRUG STORE

PETERSBURGH, Va .- A six year old negro child of the town is in critical condition following a criminal attack upon her by a son of a wealthy merchant of Petersburgh. The white people of the city have been doing all in their power to hush up the affair. The young brute's father went so far as to be indignant because his son was exposed.

(By I.-L. D. Press Service)

The child went to the store to get a doll house. She was taken into a back room by the young rapist and attacked. She was let go with several lacerations.

The white ruling class immediately realized that the incident was a most effective exposure of their whole sys tem of outrageous oppression of the Negroes. The local newspapers gave the story less than half an inch of space on an inside page.

How different is their reaction when the slightest rumor of a Negro having looked a white woman spuare in the face. If some white wench had For three centuries these black taken it into her head to indulge herself with the company of a man, and to blame it all upon a negro in case she had to explain herself, the white ruling class would have worked up a big campaign with streamer headlines on the front page of all the papers. They would have used their resources to whip up a sentiment for mass lynching and persecution as they did in Birmingham when two society women were killed by an unidentified person whose race is not even known. Dozens of Negroes have been killed wounded and beaten up on the flimsy statement of the women, and another one is being framed up as the murderer, Willie Peterson, a worker.

Why are they so silent about the Petersburgh incident? Because they want to keep on corrupting white workers with the lying propaganda of race discrimination. The white ruling class is so brazen in its policy of Negro oppression that the rich merchant demanded an apology from the child's mother for exposing his son Now he wants to pay her to hush the matter up

The child's mother is a working class woman who has to be away from home all day, slaving and she has no way of properly taking care of the child while she is away.
