Colors Work Miracles

By WILL ELLA

At the risk of being called repetitious, we point out again the magic effects that color can have in introducing charm and personality in commonplace rooms. Good selection and combination of colors serve to transform an ordinary four room apartment into a really distinctive little home. Each room has accent-

ing notes of white interspersed in its color scheme.

Light gray green walls and plum colored carpeting are keynotes in the living room. White silk gauze was chosen for glass curtains at the case-ment windows for several reasons; because the material is of a quality which wears well and launders easily; because it has a pleasing sheen and luxurious appearance; because it assures absolute privacy from passers-by without lessening the light, and because notes of white, used here and elsewhere, give the room a decidedly smart appearance. Telling on Teacher

While attending a bridge party given in a big hall one night, I noticed my history teacher at the next table. I said to my partner: "O, there's Mr. P., my crazy history teacher! He gave me so much hard home work it will take me the whole week-end to do it."

Before I could say more, one of the other players at our table said: "He is my husband; I'll have to see that he gives you easier assignments." I decided to keep silent until the game was over. J. A.

AFRICANS SAY:

"Africans have much in common with us as wit and wisdom expressed in their proverbs show. It is time for us to get away from the notion that they are in an inferior and barbaric state. In more than one sense, we Americans are less civilized and more barbaric than they."—C. J. BENDER.

NEEDLEWORK

By CLOTILDE

It is possible to buy beautiful toweling by the yard for guest or regular size towels, and making them is delightful work. The usual size for a guest towel is about 15 by 23 inches—often they are smaller. Some of the prettiest I have ever seen were 18 by 25 inches. At one end there was a hem set on of a colored linen—yellow, blue, green, etc.—and it measured, finished, 1 1/2 inches. At the opposite end the finished hem measured 1 inch. These were hemstitched to the towel.

In the center of the width, above the wide hem, was embroidered a large rose, with stem and several leaves. This was done in cross stitch in colors. Only a single strand of silk or mercerized floss was used. The colors were so soft that a shadowy effect was given.

Such a towel wouldn't take long to make, and you can imagine how attractive it would be. It would make a charming gift at any time, and would surely be prized—being hand done.

You can buy many beautiful transfer designs for cross stitch, but usually the cross stitch is large. If you buy fine canvas and copy the de-

ABaby In Your Home

Scientists now state that "Complete unity in life depends on sex harmony" and that the lack of it is the one greatest cause for unhappy marriages. Also that every woman "has the capacity for sex expression" but how often she is undeveloped or overburdened with general female duties, which rob her of her mental desires. During an experience of more than 15 years specializing in the treatment of ill-used genitalia in women, I developed a simple home treatment which has brought new hope, health and happiness to many thousands. Many who had been childless for years became proud and happy mothers. Hundreds have written me the most glowing letters of gratitude and now I want every woman who is run down or suffering from female disorders to learn about this splendid treatment, and how she may use it in the privacy of her own home.

Get This Knowledge FREE In my two books "Full Development" and "A Baby In The Home." I intimately discuss many important subjects relating to the female sex that are vitally interesting to every woman. They tell how you too may combat your troubles as thousands of others have and often again enjoy the smiles and affections of Nature's most wonderful creation—a normal, fully developed vigorous woman. I will gladly send both books mailed free. Write today. DR. H. WILL ELDERS, Suite 454-D, 7th and Felix Sts., St. Joseph, Mo.
