JACKSON WINS DECISION

In the main event of Joe Waterman's fight card last Tuesday night Young Peter Jackson from Los Angeles won a decision from Billy (The Kid) Townsend in a scheduled ten round fight. The fight could not be called a spectacular one, but throughout the ten rounds the audience never lost hope for the unexpected to happen. Their dreams nearly became a reality in the seventh round when a vicious right caught the unexpected Townsend flush on the jaw, had the round lasted a couple of seconds longer it would have been curtains for the new york lad. He rallied during the brief period allowed at the bell and returned a much wiser and cautious boy. Both fighters were going strong at the final bell which ended the ten round main event.

ASKS ROOSEVELT TO COME TO RESCUE OF NEGRO WORKER

Continued from page one
Although it was stated that this code was not necessarily to set a standard and although Your Excellency noted the exemption and directed an adjustment by January One Nineteen Thirty Four, the cotton textile code has been a model for other codes which also exempt large sections of Negro workers.

TENNIS CHAMPIONSHIPS AT HAMPTON EXCITE INTEREST

Hampton Institute, Aug. 26 (ANP)—The first set of the tournament occurred Wednesday when the Mixed Doubles Champions, Mrs. Martha Davis and Henry Williams were defeated in their first round match by Mrs. Emma Leonard and Dr. Clarence O. Hill. The match was close throughout, with the result in doubt until the final set. The score was 2-6; 6-4; 7-5.

"In many of the President's agreements proposed or signed thus far Negro workers are being accorded a lower wage scale and it is sought to incorporate this differential scale into permanent codes of fair competition to be adopted later. We understand the primary purpose of the NIRA is the restoration of purchasing power. Obviously the purchasing power of colored people is important in this program. It is especially important in those sections where they constitute from fifteen to fifty per cent of the population, yet it is in these very sections that they are being denied the benefits of the NIRA. Needless to say, colored people are potential purchasers of products from all sections of the country. Their inability to take their places as consumers therefore affects not only merchants in their localities but workers and merchants elsewhere. In this connection we cite the wave of dismissals of Negro workers in the south in preference to paying them the new minimum wage.

In the matter of employment for Negro mechanics and laborers under Title Two of National Industrial Recovery Act there appears a disposition to leave this important item to local contractors who in turn, as experience has shown (notably on the Boulder Dam project), give the Negro workers scant if any employment.

There is plenty of world news. News to interest Negroes, Chinese, Japanese, Aryans, Nordics, and what-have-you. Floods and pestilence in China have taken an immense toll of lives. Hitler is seeking to perpetuate the Aryan race by prohibiting intermarriages, and baiting the Jew. France is worried because the United States government will not consider her in any of the war debt conferences. While the United States is busy with its NRA, one of its units, Alabama, has kept its place in the public eye by its old medium of advertisement—lynching Negroes. The last overt act was the lynching to death of three Negroes in order to discourage the ILL who were furnishing legal protection for the accused. This last act, which occurred near Birmingham, was of such heinous character that it aroused the wrath of every better minded citizen of Alabama including the Governor, who demanded that immediate action be taken to bring the participants in the murder to justice. Even a gesture of the law is encouraging. It will take any number of years to totally eradicate the seeds of racial hate sown by the Hefflins and such. We have contended at all times that when the better element of the south-land entered more fully in the civic and political activities of that section that racial antipathy would diminish greatly.

Charles Young, son of an enlisted man in the 25th U. S. Infantry and now a student at Prairie View College, Texas, has been named by the President, Franklin D. Roosevelt, as a candidate for entrance to the U. S. Military Academy at West Point. Should young Thomas pass the examination he will make the second student at the Academy. The other being Benj. O. Davis, Jr., who so far has met all of the necessary requirements. Young Davis is the son of B. O. Davis, detached for military instruction at Tuskegee. There is no reason why Chas. Y. Thomas should not make good. If he is physically fit and possesses part of the tact, ambition and mental qualifications of his sire, there will be no question as to the result.

Of most importance to the Negro at this present time, is getting his share of jobs under the government re-employment plan. We have said and now repeat that it is far better that we concentrate our efforts to furthering the welfare of the many instead of pushing the claims of political preference for the few. The men who are seeking political preference are well able to care for themselves and will be of no advantage in furthering the claims of the many. When the "leaders" are once ensconced in their jobs, they forget the rank and file of the army of men and women who pushed them forward, and if there is a fight to be made for any particular object the Army is let to shift for itself. There are over one million Negro bread winners, who have had a hard task to keep the "Wolf from the door" and to whom employment is a necessary thing.

The erudite author of the column "To Day" which is read by millions every day, is some what pessimistic concerning the success of the Roosevelt program for the restoration of prosperity. He quotes at length a letter written by the French expert, and financial officer of the Paris paper, Le Temps. Frederick Jenny, the writer, criticizes adversely the attempt of the United States to emerge from the slough of Despond through which the entire world has been floundering for the past four years. It is but natural that the French should thus criticize, but we see no reason why Mr. Brisson should acquiesce in the adverse criticism. But then that gentlemen is not infallible in his judgment. He once was of the mind that the 18th Am. Judgment "was in the Constitution to stay." The "best minds" are often lacking in sound judgment. The movement for national economic rehabilitation will not, nor cannot fail, if there be a concerted effort on the part of every man, woman and child to make it a success.

WITH OUR LEGISLATURE

(BY ASHBY DIXON)
Continued from page two
of our good men and women of Oregon, and took out of this state between nine and twelve million dollars before the people woke up to their losses. Senator Hess, Zimmerman, Burke and Brown carried the burden of the fight for the bill, and when I say the fight for the bill, I mean they were fighting for the people of Oregon, and Senator Allan Bynon of Portland and Senator Goss of Marshfield, carried the fight for the utilities and against the bill. This bill was first introduced on January 16th and the fight continued until a few minutes before one o'clock in the morning on March 9th, when the legislature adjourned. Senators Bynon for public utilities in preference to the people, almost defeated the purposes of the Thomas Bill.
