Jack Fitzgerald, a well known mining man of Spokane, left on the Friday stage for the copper mines. Mr. Fitzgerald is interested in several claims and will stay in this section for about a month while superintending development work.

Lark Reynolds, who has been employed in Hon. H. E. Ankeny's mines at Sterling, has given up his position and moved his family to his home on Jackson Creek Monday. He may work in one of the sawmills of this place, or may go to Sisson to work in one of the big mills at that place.

A. Fradenburg, H. A. Fradenburg and J. P. Brown, from Arcadia, Nebraska, arrived in Jacksonville Monday, and are looking over this section with a view of buying farms and locating here. They have spent the past month looking over the Puget Sound country but they decided Washington was too wet for them.

Harry Wulf and Dick Treviso is at work putting down a shaft on his mother's place on Farmers Flat three miles up Jackson creek, to test the value of an ore lode. Mr. Wulf is now down 18 feet and the rock is showing up in good shape with fair prospects of it developing into quite a rich gold mine.

M. Bellinger, a former resident of this vicinity, and who yet owns a fine farm near this town on the Phoenix road, who now resides in Medford where he is engaged in the real estate business, is having a fine seven room cottage erected for himself on Sixth and H streets in that place. The work is being done by A. P. Talent and he will have the house completed in about three weeks.

E. L. Farra, through the real estate agency of M. Bellinger, has sold his fine farm of 136 acres, lying two and a half miles west of Central Point, the John Wetzel, a recent arrival from Columbia City, Indiana. This is one of the best farms in the Valley and is well worth the price paid, \$3000. Mr. Wetzel has been stopping with his family in Medford but he will at once move to his farm.

C. C. Pursel started his new sawmill, which he has recently erected on the Applegate 16 miles south-west of Jacksonville, last week and will soon be running it to its full capacity of about 10,000 feet per day. It is steam power and the machinery started up without a hitch or delay. Mr. Pursel has a fine body of timber and a profitable market for his lumber for he will sell most of the output of his mill to the miners of that district though his clear lumber he will sell in Jacksonville.

Joe Parker, who for several years past has been in the Southern Pacific's depot at Medford holding various responsible positions, was given a promotion last month and given a position in the Company's general freight office at Portland. Mr. Parker only remained in Portland three weeks as he did not like the wet climate and he got a transfer to Roseburg where he will hereafter reside. Mr. Parker is a Jackson county boy and he is very popular with all who have had business relations with him and his many friends here wish him the best of success in his new position.

Sheriff Rader has been doing some lively driving this week to deliver the ballot boxes and ballots to the 31 precincts in this county. As Jackson county is as large as Rhode Island he could not make the rounds of all the precincts by election time so he had Jimmie Wilson take the boxes and ballots for the precincts in the north part of the county. In Dunn precinct Sheriff Rader found no judge to receive and receipt for the box and the ballots, one of the judges being dead and two are out of the county. Pending the return of one of the judges Sheriff Rader left the ballot box with Deputy Sheriff Long of Ashland. Should neither of the judges for Dunn precinct return before election day Sheriff Rader will have the ballot box turned over to one of the precinct clerks, though the law does not specify that, yet the voters cannot be deprived of their franchise by such a legal technicality as the absence of all of the judges and the clerks would have to take charge of the ballots and swear in a special board of judges.
