

LOCAL NOTES.

A bright, energetic boy, who wants to learn the printers trade, will be given a job at the Sentinel office.

Slabwood, already cut for stove, all you can haul on your wagon for 50 cents a load at the Iowa Lumber Company's mill. Must be hauled away at once.

David Buckley and Mathew Ray, two Applegate boys, left Wednesday for Modoc County where they will work during the summer. Mr. Buckley was in that section all winter and spring and has been home on a visit for the last two weeks.

Mrs. Fannie Birdseye and Fred Resse, of Gold Hill, were married in Jacksonville Tuesday morning. They will take the midnight train at Gold Hill for Los Angeles where they will spend about six weeks with relatives. Then they will return to Gold Hill where they will make their future home.

Rev. and Mrs. E. M. Patterson, of Medford accompanied by Miss Grace Irwin, of Berkeley, Calif., who is making Mrs. Patterson a short visit, were in Jacksonville a couple of hours Tuesday afternoon looking over the sights and admiring the pretty yards to be found in the old historic town of Southern Oregon.

E. King, one of the proprietors of the Jackson County Lumber Co., had his foot badly hurt last week by one of the men letting a plank drop upon it. Mr. King has been unable to work since the accident, but he expects to be able to return to his mill next Monday from his home in Medford, where he has been staying while off duty.

Papa Schmidt was in Medford Monday and Tuesday taking tanks out of the cellar of the ice factory, that were in use when it was a brewery. The tanks were of oak and were so large that Papa Schmidt had to take them to pieces in order to handle them. The cold storage is being enlarged and the space occupied by the disused tanks was required.

John W. White, a rancher of near Ruch, was in Jacksonville Wednesday. Mr. White states that Road Supervisor Venable, of that district, is doing some excellent road work in his district this spring. Along with other improvements he is putting on considerable gravel on the roads and getting them into a condition that will permit travel during all seasons of the year.

The fine \$12,000 residence of J. Nunan in north Jacksonville is being brightened up with a coat of fresh paint. The body of the house is being painted Indian red, the window sashes black and the roof dark green. The work is being done by H. Goodhart and son Harry, of Riverside, Calif., and the appearance of the house indicates that they are first-class painters and are doing Mr. Nunan a thorough job.

H. C. Mackey, the Medford photographer who took the photos of the graduating class of the Jacksonville High School at his gallery last Saturday, was in Jacksonville Wednesday with his proofs of the pictures and delivering pictures on a number of other orders he had from persons in this place. Mr. Mackey has the distinction of taking the pictures of the graduating class of the Jacksonville High School at the close of each term for the past nine years, an honor that he appreciates very much.

P. J. Sullivan, the well known Applegate miner, was in Jacksonville Wednesday and Thursday getting supplies to carry him through his summer mining work. Mr. Sullivan will be next week to Elliot creek to work on a number of copper claims he has on that stream and later will do some development work on the Greene Creeks. He will have a man to help him and he will put in a couple of months developing his claims, which are very promising looking and which he thinks will prove to be rich in copper.

Louis Stone and Miss Diana Wulf were married in the Nash hotel parlor at Medford, Monday, by Justice M. Purdin. Only a few personal friends were present at the ceremony, besides the two sisters of the bride, the Misses Emma and Nellie Wulf. Mr. and Mrs. Stone left by the train that evening for Portland, where they will spend a few days, after which they will return to Jacksonville. Mr. Stone is an employe at the Iowa Lumber Company's mill and he and his wife will reside at the mill. Mr. and Mrs. Stone have many friends in Jacksonville who wish them all the happiness possible.

F. B. Wilmarth of Medford but formerly of New Mexico, where he was a foreman in one of the big copper mines in

that territory, was in Jacksonville, Wednesday. Mr. Wilmarth has been reading the articles in the Jacksonville Sentinel in regard to the Applegate copper district and his business to Jacksonville was to gain further information as to the mines and to examine specimens of the ore, which are on exhibition in the Sentinel office. Mr. Wilmarth was well pleased with the showing of the ore and will in the near future take a trip to the Applegate to make a personal inspection of the copper prospects of that section.

There was a time when it was necessary to go away to get dental work done, but that day is past for Jacksonville now has a dentist who is quite as skillful as the best of them and his work is proving that he thoroughly understands his profession. Though here but a few weeks Dr. T. T. Shaw has gained a good practice and among his patrons are some of the best people of Jacksonville. Dr. Shaw is a dentist of several years experience and he has a fitted up office in the second story of the Ryan block near the postoffice. By patronizing the doctor Jacksonville people will get as good work done as can be had in the other towns and be helping to build up their town by patronizing home industry.

Rev. E. M. Patterson, who for the past year has been pastor of the Christian church in Medford, will close his pastorate in that city on Sunday, June 14, and the following day he and Mrs. Patterson will leave for Portland, where they will spend a month with relatives and friends, following which Rev. Patterson will again take up ministerial work, but just where he has not decided. Rev. Patterson's removal from Medford is occasioned by Mrs. Patterson's health, the high altitude of Southern Oregon not agreeing with her. While he has had charge of the Christian church in Medford Rev. Patterson has greatly increased its membership and made it one of the influential churches of that city. In pastoral duties Rev. Patterson has been an indefatigable worker, his cheerfulness, generosity and pronounced sincerity have won for him the strong attachment of the members of his church as well as the friendship of all others who met him. Mrs. Patterson by her many endearing qualities, has also made many warm friends who will regret her departure from Medford. Rev. and Mrs. Patterson are bright, energetic young persons, who will win their way wherever they may go, and who will have with them the best wishes of their many friends in Jackson county.

APPRECIATED COMPLIMENT TO JACKSONVILLE—Though going down hill for many years in a material way the pioneer town of Jacksonville promises to be the most fortunate town in the valley. The Iowa Lumber Company's saw mill and planing mill plant has given it a large pay roll and should Patsy Clark's copper properties pan out he has already given it out that Jacksonville will have the smelter and railroad, which would be the biggest thing in Southern Oregon.—Ashland Record.

CRUEL BOYS KILL THE BIRDS—Several instances have been recently reported of boys killing birds in Jacksonville. These thoughtless, cruel boys should bear in mind that they are laying themselves liable to a heavy fine and a long term in the jail for killing birds, the new law passed by the last legislature being very strict, and a boy who has once suffered its consequences would be quite likely, unless he was a hardened criminal, to thereafter let the birds sing unmolested in the trees. But boys should be more merciful than to kill the little birds, whose sweet songs make the air ring with their happiness. Then besides the enjoyment of their songs birds are the very friends to all of us for they eat millions of insects that destroy our grains, grasses, fruits, vegetables and flowers and if the birds were all killed off there would be no more pretty yards nor fine gardens and farms. As to the birds eating the cherries and other fruit, they are only taking a little pay for a big lot of work, and no boy would want to work all the time in an orchard or a strawberry patch and never get a berry to eat. Jacksonville, being a forest of shade trees, fruit trees and ornamental shrubbery, is an ideal home for birds, and there are more birds here than in any other town in Oregon. One of the many attractions of Jacksonville is its birds and their flitting about the trees and their blithesome songs are especially noticeable to persons coming from the northern sections of this Coast where there are few birds. Yet there are not many birds here as in the East, but they are increasing in numbers and if not molested, or killed, in time there will be endless numbers of these happy, little songsters to please us with their presence and their songs.
