C. W. CONKLIN,  
House Furnisher.

### Emergency Medicines.

It is a great convenience to have at hand reliable remedies for use in cases of accident and for slight injuries and ailments. A good liniment and one that is fast becoming a favorite if not a household necessity is Chamberlain's Pain Balm. By applying it promptly to a cut, bruise or burn it allays the pain and causes the injury to heal in about one-third the time usually required, and as it is an antiseptic it prevents any danger of blood poisoning. When Pain Balm is kept at hand a sprain may be treated before inflammation sets in, which insures a quick recovery. For sale by City Drug store.

### Treasurer's Tenth Call.

Hon. H. K. Hanna, judge of 1st judicial district, and any Jacksonville business man.

### LOCAL NOTES.

40 inch mount vernon draper duck, wagon cover duck, 50 inch black enamel carriage duck for sale at Nunan-Taylor Co., Jacksonville.

Mr. Nunan is having a large well dug on his home place and he will put in a power pump and a tank to install a water system for his house and ground. Mr. Nunan has the finest residence and what could be made one of the finest grounds in Jacksonville, but he could do nothing towards beautifying his yard for the lack of water for irrigation and not caring to wait longer on the remote possibility of the town putting in a water system he has decided to put in a water system for himself. It will cost him about \$500 but he has the assurance of securing plenty of water for his house, barn and yard and to have a better fire protection than he now has.

If you have any Timber land you want to sell—See T. C. Norris.

A. Hutsinpiller of Phillipsburg Granite county, Montana, was in Jacksonville Wednesday looking over the advantages of this section with a view of locating here. Mr. Hutsinpiller was formerly from the East and the high winds and hard winters of Montana are not to his liking. He was on his way to California to take a look at that state, but hearing of the Rogue river valley he stopped off to take a look at it. He is a retired business man who has become interested in English walnut culture and is looking for suitable land and climate and if finds a place that suits him he will plant out a large orchard. While here he visited Mr. Britt's place to see the fine walnut trees growing there and he took with him a sample of the nuts which he pronounced as large in size and perfect in flavor as any he had ever seen in the East, or from England. He has several friends in Montana who are planning to locate wherever he may select a place.

Frank E. Kalb of Amsterdam, New York, and treasurer of the New York & Western Mines Company, accompanied by H. E. Foster and A. H. Gunnell of Grants Pass, western managers for the Company, arrived in Jacksonville Sunday. The object of Kalb's trip to Jacksonville was to make the last payment on the Oregon Bell, located on Forest creek seven miles west of Jacksonville, which his Company purchased of John Broad and Thomas Reed last fall for \$30,000. The gentlemen were met in Jacksonville by W. C. Kitto their superintendent in charge of the Oregon Bell and by him taken to the mine where they spent Monday and part of Tuesday. Now that the mine is theirs and having \$30,000 invested in it they do not propose to let it lie undeveloped long and it is their intention this winter to put in a large quartz mill, the power to be electrical and from the Ray dam if arrangements can be made, and a large force of men will be put at work. The development work done under Supt. Kitto has proven that the Oregon Bell has an immense quartz ledge of high grade ore and as it is easily mined and in a location convenient to transportation the mine should become one of the most profitable in Southern Oregon.

Mr. E. P. Rodgers, of Portland, was in Jacksonville Tuesday calling upon his pioneer friends. Mr. Rodgers is one of the pioneer railroad men of Oregon and he has the honor of being the only man who was in the service of the first railroad company in this state and who has remained continuously in the service since Mr. Rodgers entered the employ of the Oregon & California Railroad Company at the time it was formed and he was in the general passenger and freight office of the Company when on September 1, 1870, the first train that ever left Portland pulled out for Oregon City, then the terminus of the road. Mr. Rodgers was soon made general passenger and freight agent for the Company and he held that position for over 25 years and until his company had become merged into the Southern Pacific system, when the duties of his office were divided and he was put in charge of a division of the freight traffic. Mr. Rodgers will be retired next spring under the pension system of the Company and there is every probability that he will make Rogue River his place of residence thereafter. Mr. Rodgers has led an active life and to give up all work is not to his liking and he is considering buying a fruit farm in this valley, and while enjoying, as he himself so states, the best climate on the Pacific Coast, he can sit under his own vine and tree and have at hand all the exercise he may want in superintending the packing of the red and golden Rogue River apples and in counting the twenties that the Eastern people are so anxious to exchange for them.
