The ladies of the Lewis & Clark club of Medford will hold a meeting Monday evening at the residence of Mrs. H. U. Lumsden at which time they will take up the question of establishing a free reading room in Medford. The ladies have the assurance of substantial support from the citizens of Medford for their venture and they hope to have a reading room opened within the next month. Medford has no public reading room of any kind and being about the only town in Oregon of the size it is that is without that public convenience, the ladies hope to have that discredit removed in the very near future.

One of the best selections of millinery goods to be seen in Medford is at the store of Maad E. Wilson & Co. in Medford on F street west of the S. P. depot and her prices are satisfactory to customers.

Wm. M. Colvig returned home last Friday from Grants Pass where he was one of the attorneys for F. W. Chausse in the libel suit brought by R. D. Hume against Mr. Chausse. Mr. Colvig made the closing argument for the defense and the Grants Pass papers in their account of the trial pay Mr. Colvig a fine compliment for the able manner in which he made his plea. The cause for the action was for alleged libel committed by Mr. Chausse in his paper, the Observer, in which he criticized Mr. Hume's method of controlling the salmon fishery of the Rogue river. The jury gave Mr. Hume \$1.00 damages and he to pay the cost of the suit, which amount to nearly \$500.

Chamberlain's Cough Remedy.

No one who is acquainted with its good qualities can be surprised at the great popularity of Chamberlain's Cough Remedy. It not only cures colds and grip effectually and permanently, but prevents these diseases from resulting in pneumonia. It is also a certain cure for croup. Whooping cough is not dangerous when this remedy is given. It contains no opium or other harmful substance and may be given as confidently to a baby as to an adult. It is also pleasant to take. When all of these facts are taken into consideration it is not surprising that people in foreign lands, as well as at home, esteem this remedy very highly and very few are willing to take any other after having once used it. For sale by City Drug Store.

The Jackson County Lumber Co. have about 20 teams hauling lumber from their mill three miles south of Jacksonville to Medford. The teams make a trip a day and haul from 2000 to 2500 feet to the load. It will take about two weeks more to get all their lumber to the Medford yard, when they will probably start up their mill and saw as long as the dry weather lasts and logs can be gotten to the mill. The lumber now being hauled out by the company is as fine as ever went from a Southern Oregon mill and will bring a good price in the market.

The Sentinel office has been presented with a bunch of cotton blossoms by Peter Deisch, bookkeeper and stenographer in E. A. Reames' office, that was picked from cotton plants grown at his home in this place. Mr. Deisch is formerly from Helena, Arkansas, and he sent there last spring for the cotton seed. The plants have made a fair growth but not so good as in their native climate as the nights are rather too cold for cotton to be successfully grown here. The plants are now about three feet high and contain several full formed balls that may ripen should the weather continue warm for two or three weeks longer.

Cause of Lockjaw.

Lockjaw, or tetanus, is caused by a bacillus or germ which exists plentifully in street dirt. It is inactive so long as exposed to the air, but when carried beneath the skin as in the wounds caused by percussion caps or by rusty nails, and when the air is excluded the germ is roused to activity and produces the most virulent poison known. These germs may be destroyed and all danger of lockjaw avoided by applying Chamberlain's Pain Balm freely as soon as the injury is received. Pain Balm is an antiseptic and causes cuts, bruises and like injuries to heal without maturation and in one third the time required by the usual treatment. It is for sale by City Drug Store.
