### Better Than Pills.

The question has been asked—In what way are Chamberlain's Stomach and Liver Tablets superior to the ordinary cathartic and liver pills? Our answer is—They are easier and more pleasant to take and their effect is so gentle and agreeable that one hardly realizes that it is produced by a medicine. Then they not only move the bowels but improve the appetite and aid the digestion. For sale at 25 cents per bottle by City Drug store.

### Jacksonville's Geologic Past.

Paul Cirac who is sinking a well for Mr. Nunan has added to the Sentinel exhibit some queer specimens of rock formation that he blasted out of the blue sandstone formation 30 feet below the surface of the ground. One of the specimens is a granite boulder, round and the size and shape of a goose egg with the piece of sandstone in which it was embedded. The other specimen is a granite round boulder four inches in diameter that is encrusted with a coating of sandstone that gives it the exact appearance of a bullet cast for an old fashioned muzzle loading rifle. The boulder has the seam around it as though the moulds had not been perfectly closed and it has a protuberance at the point where the lead had been poured into the mould giving the rock a most striking resemblance to the bullets moulded by our grandfathers for their squirrel rifles. These rocks are a proof of the time measured by millions of years since the hill side west of Jacksonville was the beach of the east shore of Siskiyou island on which the waves beat of an ocean that extended eastward to the Alleghany mountains with but two islands protruding in all the intervening waste of waters, one was the land now known as the Blue mountains in Eastern Oregon and the other the Ozark Mountains of Missouri. This Siskiyou island embraced the present Siskiyou mountains and geologists state that they were the first land on the Pacific coast. The boulders that Mr. Cirac found were fragments of granite that were broken from the high mountains that once towered up back of this town and then rolled on the beach of that ancient ocean by the tides and storm waves until they were worn round. In succeeding ages the boulders became embedded in the sand and then convulsions of the earth produced a subsidence of the beach and buried it beneath other formations when the heat and pressure turned the sand into hard rock.

### Redmen On the Warpath.

The first meeting of the executive committee of the order of Red Men of Oregon was held in Astoria Saturday. The executive committee comprises the head officers of the order, namely George Orton, great sachem; Dr. H. Henderson, great senior sagamore; Judge W. H. Conyers of Clatskanie, great junior sagamore. The meeting was held in the office of Dr. Henderson and the purpose was to devise a means of extending the order. The committee decided to put two and probably three organizers in the field. One will be sent to eastern Oregon, one to the Willamette valley and perhaps one to other portions of the state. The committee also decided to adopt a system of offering cash prizes for members bringing in the greatest number of applications for membership.—Astorian.

If you have any Timber land you want to sell—See T. C. Norris.

With Sunday of this week closes the trout fishing season, it being unlawful to catch trout from November 1st to March 1st of each year.

H. L. Hill who has a farm on Trail creek and who for 41 years has been doing much of his trading in Jacksonville was here Monday with a load of farm produce and took home with him a load of supplies.

The Odd Fellows are preparing for a family reunion as they call it to be held at their hall this Saturday evening, when they expect all their members present as some important business is to be transacted. As the work may be fatiguing refreshments will be served.

The Sentinel would like some selected ears of corn to add to its exhibit of Jackson county products. The corn can be left either at this office, or at the Medford Book Store. Other specimens of farm products are wanted as well as samples of the various minerals and rocks of this section. Not a day passes but what strangers call at this office to see the exhibit of the various products of Jackson county for they want proof as to the productions and capabilities of this country.

The dance at Ruch last Friday evening to raise funds to assist William Wright in building a new house to replace the one burned some time since was a success both financially and socially and the persons under whose auspices it was given proved themselves generous neighbors and good entertainers. The affair yielded quite a snug sum for Mr. Wright's benefit, there being 54 tickets sold at \$1.00 each. There were no expenses at all the hall being donated by Casper Ruch and the music by John Matney, Mrs. S. Cleveland, Birt Clute and William Ray. The floor managers were James Buckley and Frank McLaughlin and Henry Kubli sold the tickets.

# FRUIT BOXES
