At the Ryan store, which has a reputation of years standing for carrying only high class goods, a stock of fine chinaware and vases has been put in. The stock was selected by Mrs. Ryan who is a connoisseur of pottery work, and it contains many pieces of rare beauty as well as of practical utility. C. D. Reed, who has a fine vineyard on Upper Jackson creek, has nearly completed the marketing of his grapes. Mr. Reed, while he has a number of fine varieties of grapes in his vineyard, raises mostly the Black Melrose, Flaming Tokay and White Muscat, these varieties he finding the most salable. He ships no grapes as he has all the orders he can fill in Jacksonville and Medford. He had several inquiries this fall for grapes from Portland and other northerly points but could not fill the orders. Mr. Reed makes no wine as he finds it more profitable to grow table grapes. Mr. Reed's vineyard is on the red hill land and his vines are as vigorous and healthy as are the wild grapes that grow in this section.

One of the best selections of millinery goods to be seen in Medford is at the store of Maad E. Wilson & Co. in Medford on F street west of the S. P. depot and her prices are satisfactory to customers.

When it comes to persistence and tireless industry the miner of Southern Oregon furnishes many examples of what a man can do when he wills and circumstances are against him. An instance of this kind of a man who overcomes difficulties that an ordinary person quail at is Adam Schmidt. Mr. Schmidt is 76 years old a bachelor and has lived for years on a mining claim on Upper Jackson creek, which he has worked himself earning a comfortable living. Early this fall he commenced to develop a quartz ledge on his claim and securing a windlass, a supply of giant powder and tools he went at the work by himself. He now has the shaft down 32 feet and is making steady headway with it though in carrying on his work he takes risks that would raise the hair on the head of a nitro-glycerine factory hand. His method of work is to sink a hole, place a short stick of giant powder light the fuse and skin up a 32 foot ladder fast enough to get to the surface and to a place of safety before the shot goes off. Should he make the least mistake or slip it would be all off with him and as he lives in a lonely place it would be days before the world would know that the old miner had sacrificed his life in doing a work that not one man in ten thousand would undertake.

### Cause of Lockjaw.

Lockjaw, or tetanus, is caused by a bacillus or germ which exists plentifully in street dirt. It is inactive so long as exposed to the air, but when carried beneath the skin as in the wounds caused by percussion caps or by rusty nails, and when the air is excluded the germ is roused to activity and produces the most virulent poison known. These germs may be destroyed and all danger of lockjaw avoided by applying Chamberlain's Pain Balm freely as soon as the injury is received. Pain Balm is an antiseptic and causes cuts, bruises and like injuries to heal without maturation and in one third the time required by the usual treatment. It is for sale by City Drug Store.
