CITY COUNCIL IN SESSION.

Bills Audited and Matters Important to the Town Discussed—Breakwater Reported Complete and Bill Ordered Paid.—Committee of Firemen Confer with Council.

The Jacksonville council met Tuesday evening with Mayor E. Britt, Councilmen J. S. Orth, J. H. Huffer, Sr., T. J. Kenney and Recorder H. Dox, Marshal W. G. Kenney and Chas. Dunford present.

The following bills were ordered paid: J. H. Huffer, Sr., supt. work on breakwater.....\$18 00 Jas Fielder hauling brush for breakwater..... 9 20 Geo Thrasher hauling brush for breakwater..... 5 25 Henry Dox recorder's fees..... 3 90 Furman Crump wood for City hall..... 8 00 Chas Dunford hauling lumber posts etc for break water..... 9 25 S J Boussum posts..... 7 50 Jacksonville Gas Co light for Oct.... 26 97 G H Elkerton erecting lamp at bridge..... 7 05 Bill of Jacksonville Gas Company for fixtures amounting to \$11.30 was laid over for correction.

Councilman J. H. Huffer, who had superintended the construction of the Jackson creek breakwater, reported that contractors Bradshaw & Dooms had their job finished and that it was done in first-class shape. Their bills amounting to \$353.36 was audited and ordered paid at a special meeting of the council held last Friday. Of this amount paid the contractors \$330 was on the original contract and \$21.36 for putting in breakwater by Chapman property and \$2.00 for work on Jackson creek bridge.

Councilman Huffer mentioned that as the town finances were getting low, a debt of several hundred dollars having been incurred by reason of the breakwater and other expenses, that it was incumbent upon the town to draw upon every source of revenue at its command. As there appeared to be more than the usual quota of dogs roaming the streets he recommended that the dog tax be enforced as it would yield from \$50 to \$100, unless there was a sudden mortality or emigration of dogs about town. Councilman Kenney favored enforcing the license, while Councilman Orth thought that it would cause more expense and uproar than the few dollars that could be raised would warrant. Marshal Kenney was not anxious for the job of rounding up the dogs and the matter was dropped.

Councilman Kenney brought up the consideration of an ordinance that would prohibit boys from playing at licensed billiard or pool tables. Previous ordinances and the charter were looked up and it was found that there was no ordinance governing this misdemeanor and after a general discussion of the boy problem it was decided that at the next meeting of the council an ordinance would be passed to control the boys.

The firemen at their meeting Monday night had appointed a special committee consisting of Chas. Basye, Chas. Dunford and Wm. Puhl to bring before the council the need of better fire protection for the town. Messrs. Basye and Dunford were present and addressed the council on the need of cisterns for the residence part of the town and for more hose. They also advocated the creation of the office of fire warden whose business it would be to inspect flues and to see that the various ordinances for the protection of the town from fire was enforced. The councilmen and Mayor Britt all agreed that the firemen should have more apparatus and the town should be better protected and guarded against fire, but after discussing the matter it was left to be considered at the next meeting of the council.

He started in a small way last year and the honey from the colonies that he had more than paid the purchase price for the bees and for the expense of his apiary. His bees this season, though the unusual dry weather diminished the quantity of flowers, have made a fine lot of honey and have brought him good returns on his investment. Mr. Reynolds finds that the idea that some people have that bees are poisoned that feed upon fruit trees that have been sprayed is erroneous and that so far as he has observed his bees have not been injured at all when feeding in the orchards.
