Mr. Maury states that the bad condition of the Jacksonville-Central Point road will cause during the winter months the loss of much trade to Jacksonville.

Mrs. Max Muller and her son William Muller have decided to return to their home in Jacksonville and expect to move here from Ashland about the first of December if they can secure possession of their house now occupied by Rev. F. G. Strange and who is having difficulty in securing another house there being none vacant in town. When they moved to Ashland this fall from Oakland California, they expected to make that place their permanent home, but the high altitude injured Mrs. Muller's health and as she had always the best of health when residing in Jacksonville she has decided to come back to her old home.

Hinkle is guarding the peace and quiet of the town in a manner quite satisfactory to all concerned.

The merchants that hustle have no difficulty in securing trade and proving that Jacksonville is one of the best business points in Jackson county. C. W. Conklin, the furniture man, has found that true in his experience since his arrival in Jacksonville last spring. Starting in with two store rooms, one for the display of his furniture stock and the other for a work and packing room and for his undertaking stock, which was ample space for his business at the time, but such has been the increase that now he is compelled to secure an additional room. He has leased of Mr. Britt the large double store room adjoining his furniture store, that has been occupied by Mrs. Thompson with her restaurant. Mr. Conklin has had gas fitting put in for lighting and he is having the rooms put in order to meet his needs. The front room he will fit up for an undertaking parlor that would not be out of place in the most up-to-date eastern town and in which he will carry a line of caskets and furnishings that will not be surpassed by any house in Southern Oregon. The rear room he will fit up as a work shop and store room. The four rooms now occupied by Mr. Conklin gives him a floor space sufficient to enlarge his stock to all that the demands of the trade will require for some time to come and to equal in size that of any furniture and undertaking establishment in this part of Oregon.

### Planing Mill to Move.

President C. Hafer and Treasurer E. E. Hart, of the Iowa Lumber & Box Co., left Wednesday night by S. P. train for their home in Council Bluffs, they going by way of Sacramento and Ogden. During their stay here they arranged for the removal of their planing mill and box factory to Medford, the citizens of that place having raised them a bonus of \$3,000 to defray the expense of moving their plant. While here President Hafer and Treasurer Hart, who are the principal stockholders in the Iowa Lumber & Box Company, arranged for extensive improvements in their plant. After having laid idle for a couple of weeks the sawmill will be started up to saw timbers for the factory building at Medford which will be double the size of the building they have here. So soon as the new building is up the machinery will be moved to it and then the building in Jacksonville will be taken down and hauled to Medford and added to the new building. The box factory and the planing mill will be made the largest and best equipped in Southern Oregon and the saw mill here will be moved during the winter months to a more central location in their large body of timber back of Jacksonville and increased in capacity. The lumber will be hauled direct from the sawmill to the planing mill in Medford, making about a 9 mile haul, but all down grade and a good road.

Mr. Pendleton states that the recent big rains raised Rogue River several feet, but no damage was done by the high water. In regard to the rearrangement of the precincts of the county by the county court, Mr. Pendleton says that the voters in his section are well satisfied with the boundaries as now established.

### Ashland Normal Notes.

Students who were formerly pupils of the Jacksonville schools are, Nannie McCallen of the Senior class, Gertrude Beide and Verne Whipp of the Junior class, Jessie Wilson of the teachers' review class, Gertrude Whipp of the Freshman class, Earl Shepherd in post-graduate studies.

Harvey Inlow of Ttail creek, who entered the Normal a month ago received a free scholarship for one year for the reason that he obtained the highest average percent in the eight grade examination for the county last year. He is proving himself to be one of the brightest students of the Freshman class.

Joe McConnell, the Merlin merchant who unarmed ran down and caught the Douglas county horse thief, two weeks ago, is a graduate of the Normal, a member of the class of '98. The Eagle Point boys remember what a wiry fellow Joe was in foot-ball. The horse thief, Bice, realized that somebody had him when Joe got his clutches on him and brought him to the ground and tied him.

Seven of the former students of the Medford Academy are in the Normal, and three or four more will enter after the holidays, among them James Martin, who will leave Sitka, Alaska, on Dec. 15. James has been in the employ of Gov. Brady for a year and a half. His school mates will gladly welcome him among them.

The second term opens next Monday, the 23rd.

### Deer Gathered Grape Crop.

J. W. Bonar, who has a grape vineyard on Griffin creek on the road between Phoenix and Jacksonville, and who makes regular trips to Ashland with his products, was in this city Tuesday and related while here the unusual way in which he had lost his entire crop of Muscat grapes. The Muscats had been left on the vines to attain their greatest perfection by thorough ripening, and Mr. Bonar, prevented by the storms of last week, had not visited his vineyard, which is some distance from his house, for several days. Sunday he went up to inspect the condition of his choicest variety, but he was nearly paralyzed with astonishment to discover that his entire crop of muscats had disappeared. Hardly a bunch remained on the vines which covered an acre of ground. Mr. Bonar was not long in solving the mystery, for scattered all over the vineyard were innumerable prints of tiny deer feet. The deer having been driven from the upper levels of the surrounding mountains by the heavy fall of snow, had come below in their search for food, and Mr. Bonar's Muscat grapes seemed to be the very thing to tickle their palates, and they made a good job of gathering the crop, for nothing was left. The loss to Mr. Bonar will be keenly felt.

### Public School Notes

Some papers will be presented at this first meeting. Prof. S. P. Robbins will present the topic, "Co-operation of Parents." Prin. E. F. Washburn will discuss the advisability of adding a grade to the course of study in the high school at the beginning of another school year.
