E. L. Gurnea, superintendent of the Medford electric light and water plant, was in Jacksonville a short time Monday. Mr. Gurnea states that the fuel bill for the Medford station now averages about

Cured Paralysis.

W. S. Baily, P. O. True, Texas, writes: "My wife had been suffering five years with paralysis in her arm, when I was persuaded to use Ballard's Snow Liniment, which cured her all right. I have also used it for old sores, frostbites and skin eruptions. It does the work." 25c, 50c, \$1.00. Sold by City Drug Store.

\$600 per month and to lessen the cost of operating the plant the city council are negotiating with the Siskiyou Electric Light & Power Company for current with which to operate the dynamos and pumps. This company has lately completed a big electric power plant on Fall creek a tributary of Klamath river in Siskiyou county and they have secured a contract to supply Ashland with light and hope to secure contracts with Medford, Jacksonville and the other towns of Jackson county.

Mr. and Mrs. B. E. Haney returned Tuesday from Star Gulch on upper Applegate where they have been for some weeks while Mr. Haney was getting his placer mine in order for this seasons work. Owing to his being troubled with sciatic rheumatism Mr. Haney has leased his mine to Taylor Bros., Jack Seal and David Welch all of Medford, and who are practical miners and hustlers who will make their venture pay if the gold is to be had. The mine is fitted with a No. 2 giant which is now being worked under a 135 foot pressure but which could be increased to 325 feet. The piping is comparatively easy and as the gravel has produced some fine nuggets, some of them going as high as \$150 each the boys hope to make a good stake this season.

It is generally supposed that the section of the country east of the mountains is only suitable for stock raising and that fruit can not be raised there, but R. D. Maplesden, who represents one of the big Willamette nurseries has returned to his home in Medford from an extended trip through Klamath, Lake and adjoining counties and he reports making big sales and that much interest is being taken in fruit raising. Many of the sheltered valleys are capable of raising apples and other fruit of fine quality and within a few years importing fruit will be a thing of the past, but it is hardly possible that it will ever equal the famous Rogue River Valley as a fruit district.
