D. J. S. Pearce and his son Floyd were in Jacksonville Saturday from Poorman creek for a load of supplies and to deposit in the bank a lot of gold from their mine. They have been panning for the past two weeks and this gold was gathered at random off the bedrock, they making no effort at a cleanup. Mr. Pearce and his sons have a No. 3 giant and this fall they moved it from the main channel where they operated last winter to a side gulch where they commenced panning over two weeks ago. They have a good head of water but only have 30 feet pressure, but as the earth is easily handled they are having good success panning and are handling some very rich gravel.

tra! gulch, is going to have it thoroughly developed and Wednesday A. E. Graham and D. D. Goode came down from Ashland and went to the mine. Wm. M. Colvig, overseer in the supreme lodge A. O. U. W., of the United States, returned last Sunday from a trip to the Puget Sound country in the interests of the order. Mr. Colvig states the Workmen lodges of both Washington and British Columbia are in a healthy condition and the members are planning a winter campaign to increase their membership. Of the larger cities visited Mr. Colvig found Victoria a clean model residence city with a prosperous appearance, but not up to the American standard in push. Vancouver which is the Western terminus of the Canadian Pacific is a growing bustling city quite like Seattle or Tacoma. Seattle he declares to be the dirtiest city he was in on his trip, but it is a great business center and growing very rapidly. Tacoma more nearly met Mr. Colvig's standard of a clean prosperous town. He was favored by the worst and best efforts of the weather while in the north. The day he crossed the Sound from Seattle to Victoria was as bright and clear as a Southern Oregon day of sunshine.
