

Washington's Birthday Celebrated at St. Mary's Academy.

The 22nd of Feb. 1904 will long be remembered with pleasure by the inmates of St. Mary's. Patriotism the spirit of the day manifested itself in the early morning as thoughtful, loving fingers fashioned the glorious red, white and blue into graceful folds and artistic festoons throughout the various departments. The refectory especially was beautifully decorated and Washington's picture, prettily draped with the stars and strips, held an honored place.

At 7:30 p. m. the Faculty were entertained by a program arranged and rendered by the young ladies of the boarding school, after which refreshments were served.

Cotton rags for wiping presses wanted at the Sentinel office.

Send your copy of the Sentinel to a friend in the East or North, that they may learn of Rogue River Valley and what its advantages and resources are.

Charlie Meyer is evidently born to die a patriarch in age for he has survived a third serious accident and will soon be able to again swing the pick and the sledge with his wonted energy in the mines. Mention was made in the Sentinel last week of his being blown up by giant powder, which he was thawing out at the Stausell mine on Forest creek and that fears were had that he might not recover, but good surgical care and a strong physique has pulled him through in good shape and Tuesday he was able to take a trip from Medford and come to Jacksonville to spend the day. Mr. Meyer expects to be able to resume his mining work in two or three weeks.

W. C. Kitto came from Grants Pass last Friday and returned Saturday. Mr. Kitto is superintending the work of installing the machinery in the new quartz mill being put up at the Granite Hill mine near Grants Pass. The building is arranged for 20 stamps but for the present but 10 will be placed. It is expected to put in the other 10 this fall. T. L. Jones another Jacksonville machinist is with Mr. Kitto assisting on the machinery work. Mr. Kitto on his return to Grants Pass was accompanied by his daughters, Mildred and Jennie who have been spending several weeks in Jacksonville. Miss Jennie will remain at Grants Pass, but Miss Mildred will go to Colorado Springs, Colorado, where she will spend the summer with relatives.

E. J. Davidson of Missouri Flat was recently in Jacksonville for a load of supplies and to make a short visit with his brother C. T. Davidson. Mr. Davidson stated the recent high waters in the Applegate did no serious damage in his section. Of mining operations on lower Applegate, Mr. Davidson reports that Jack Layton is now operating his mine with two No. 3 giants. Alex Watts is running a No. 2 giant in his mine on Horsehead creek. He has been piping for two months and has moved considerable earth which is quite rich. The Tacoma company which owns the St John quartz claim is another vein and is blocking and runs very rich ore. Geo. Baily, who is working the old Richmond ledge, has struck a manganese seam that is very rich and promises to yield several hundred dollars.

Mrs. C. E. Hufstader moved to Grants Pass last Saturday in conformity to the request of the Grants Pass Odd Fellows lodge, of which Mrs. Hufstader's late husband was a member. That lodge has secured for Mrs. Hufstader a comfortable dwelling house and will assist her and her boys in securing employment to maintain themselves, the lodge giving such other assistance as they may need. Mr. Hufstader for some time prior to his death was not in good health and spent much of his time in the mountains, mining, hoping that the outdoor work would be of benefit to him. He left a third interest in quartz and placer claims on the West Fork of Cow Creek that may prove to be of great value. During Mr. Hufstader's sickness and since his death the Jacksonville Odd Fellows have been giving Mrs. Hufstader and the children every assistance possible in addition to the generous financial aid given by the Grants Pass lodge. Mrs. Hufstader is a woman of good attainments and resourceful and courageous and she will doubtless succeed, with the aid of the powerful Odd Fellows organization in keeping her six children together and giving them a comfortable home and a good education.
